NOTICE OF PROPOSED CHANGE OF WATER RIGHTS, TRANSFER NO. 5665

Notice is given that OWYHEE CALCIUM PRODUCTS, INC., PO Box 159 Grand View ID 83624 has applied to the Department of Water Resources to change the Points of Diversion and Place of Use pursuant to I.C. § 42-222 for 5 irrigation and stockwater rights recorded as follows in Owyhee County:

57-01205, priority 4/01/1948, 7.0 cfs diversion to storage for 49.3 afa for stockwater and irrigation storage.

57-01207, priority 4/01/1943, 1.43 CFS for irrigation and stockwater.

57-01202, priority 3/15/1954, .50 CFS for irrigation and stockwater.

57-02285A, priority 6/05/1965, 1.40 CFS for irrigation.

57-02285B, priority 6/05/1965, 1.42 CFS for irrigation.

Source for the first two rights is Shoofly Creek tributary to the Snake River diverted in the SWNW S8. Storage is for a stockwater reservoir in the NENE S8 and an irrigation reservoir in the SWSW S4. The other rights are ground water diverted from three wells located in the SWSW and SENE S4 T7S R3E and the SESW S34 T6S R3E. Place of use is S3, 4 and 8 T7S R3E and S34 T6S R3E, 179 acres total.

The first 4 rights have been decreed in the Snake River Basin Adjudication and 57-02285B is pending court decree.

PROPOSED CHANGE FOR ALL RIGHTS

Applicant proposes combining the surface and ground water rights into a common irrigation system. The stockwater and irrigation will be consolidated in 179 acres at the Eastern end of the current place of use in S3, 4 and 34. The Stockwater storage place of use will remain unchanged. The irrigation storage place of use will be clarified from the SWSW S4, as recorded, to the SWSW and SESW. The proposal is located within the Bruneau Grandview Water Management Area.

Any protest against the approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before March 20, 2000. The protestant must also send a copy of the protest to the applicant.

Narrative:

An explanation needs to be made regarding the way fuel was distributed between the mine and the ranch. In order to get a full load of fuel out here, Owyhee Calcium would share a load with Triangle Dairy. The fuel was delivered in an 8000 gallon tanker truck

MICROFILMED

and trailer. The trailer was always left at Trangle Dairy. It was not recorded exactly which tanks were filled when fuel was delivered to Owyhee Calcium. It was delivered wherever there was room to hold it. The above listed deliveries could have been put in several different tanks, including the two 1500 gallon tanks set up to fuel the pumps.

As stated above, Owyhee Calcium Products purchased Rock House Ranches in March of 1996. At the time of the purchase, major repairs needed to be made on the irrigation pumps and the watering systems located on the ranch. During 1996, water from the holding pond and runoff from the creek and water from the wells was used. The problems were evaluated during this first year to determine what needed to be done to get the water system back in running order.

In 1997 a major rebuild was made to Pump #1. Late in 1997 work to rebuild Pump #2 was started and this project was also completed in 1998. The work was done by Richardson Bros. Diesel Repair Service at a cost of \$3000.00 per pump. At this time, it was decided that a pivot would be the best answer to the problem and a search was begun for a used system. During 1999 a pivot was installed at a cost of \$50,000.00.

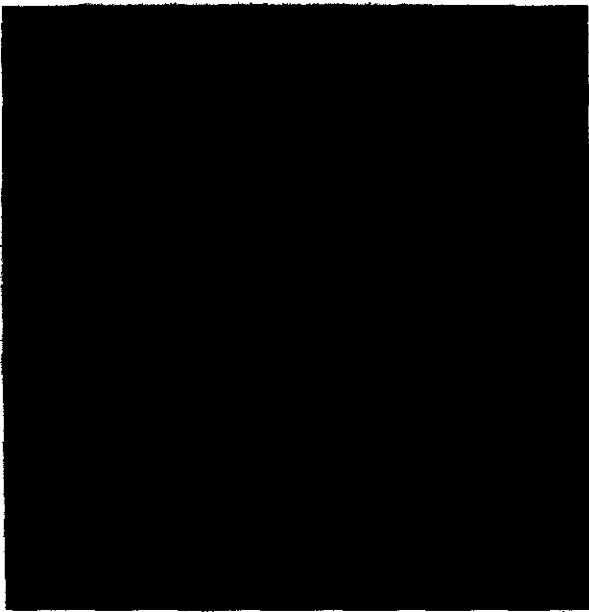

We understand the permit was not contested and would like to start irrigating the land as soon as possible.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Recommendations for Approval

I have reviewed the application, the supporting information, and the recommendations of Lori Graves. During the early stages of this application I understood that IDWR had some information to support a conclusion that portions of these water rights were forfeited or that the ground water use should be limited because of historical use. I cannot find any information in the file that would lead me to believe any portion of the rights have been forfeited. Although the surface water rights and some of the ground water rights are conjunctively linked, there is no limitation I can find that requires use of one over another. The information submitted by the applicant to establish beneficial use is not very helpful. Nonetheless, forfeiture must be established by clear and convincing evidence, not by an absence of information. We have not been reviewing historical use except when an application for transfer proposing a change in the nature of use is filed.

Furthermore, the rights were recently decreed by the adjudication court. The decree should create a presumption (perhaps irrebuttable) that the rights are valid at the time of the decree.

I could assign staff to investigate to independently determine whether there is some reason to restrict these water rights in approving the application for transfer. Because the rights were recently decreed by the SRBA, and because there is no evidence to promote a finding otherwise, I recommend that we approve this application for transfer with standard conditions for overlap and permissible place of use.

RE: 57-02285A & B, 57-01202, 57-01205, 57-01207

Applicant proposes to combine Shoofly Creek water and ground water into a common system for a new pivot irrigation system located within Bruneau Grandview Ground Water Management Area.

Attachments

- A. Description of rights after proposal
- B. Partial Decrees
- C. Before and after maps
- D. Fuel Records & Affidavits

Analysis

Surface water rights 57-01205 and 57-01207 cover 69 acres that overlap with ground water rights 57-1202 and 57-02285A. A total of 179 acres along Shoofly Creek, 3 wells and 2 storage reservoirs are covered with all five rights. No other rights are used.

Applicant previously proposed to transfer only the ground water rights to a new pivot irrigation system. Because unstacking the rights would constitute an expansion, applicant replaced his first proposal with this transfer, which combines all the rights and clarifies the location of the irrigation storage reservoir to the SESW and the SWSW S4 rather than just the SWSW as listed.

The proposal is located in the Bruneau Grandview Ground Water Management Area. Diversion of ground water exceeding historic ground water withdrawals also results in an enlargement of use. Information establishing historic ground water use was requested 1/26/2000.

Applicant hand delivered affidavits 4/14/2000 from two oil companies that supplied fuel to the diesel pumps used for irrigation from 1996 through 1999. The fuel records included fuel delivered to applicant's mining operation. The amount of fuel used specifically for irrigation was not specified. Based on this information, historical withdrawal of ground water has not been quantified.

MICROFILMED

JUN 20 2000

SRBA

All the rights have been partially decreed except 57-02285B. Transfer 5106 was filed on this right to change the place of use. The transfer is based on the right as recommended in the SRBA Basin 57 Director's Report. The approved version is stored under X57-02285B pending conclusion of the adjudication. The Special Master granted the change, which is now awaiting final order. Pam Skaggs said to use the X version for review and advertising. No other rights are used.

Recommendations

Because the proposal is located in the Bruneau Grandview Water Management Area, the Department must be careful to protect and conserve the limited ground water within the management area. The information provided by the applicant failed to quantify the amount of ground water historically diverted. Without this information, the Department is unable to determine if the proposal will result in an enlargement of ground water use, and should therefore deny the transfer.

RE: Owyhee Calcium Product's Application for Transfer
(Water right nos. 57-02285A & B, 57-01202, 57-01205, 57-01207)

Dear Charlie:

You filed an application for transfer on behalf of your client, Owyhee Calcium Products, Inc., with the Idaho Department of Water Resources (IDWR) seeking to change the place of use and points of diversion for the water rights listed above.

When reviewing the application for transfer, IDWR must determine whether the proposed transfer: 1) will injure other water rights, 2) will result in an enlargement of the original water right sought to be transferred, 3) is in the local public interest, 4) is consistent with the conservation of water resources of the state of Idaho, and 5) will significantly affect the agricultural base of the local area.

The proposal is located within the Bruneau Grandview Water Management Area. The groundwater management area was created because of declining pressures/water levels in the low temperature geothermal aquifer. Please provide information establishing the historic ground water volume diverted annually from the wells. Diversion of ground water exceeding historic withdrawals would result in enlargement of use, would contradict the local public interest, and would not conserve the limited ground water within the management area.

Please submit the requested information within 30 days from the date of this letter. If information is not timely submitted, IDWR will remove the application for transfer from its records. Charlie, please let me know if you have any questions.

Sincerely,

Lori Graves

Attachment A

Note cfs limit for 3 rights (see 57-01207) so total cfs in transfer is 10.41 (7 + 3.41).

Correct the record to show that irrigation storage P/U is in 2 tracts as shown on topo (in SWSW & SESW, not just in SWSW S.4).

Map

Map should show new P/U in more clear way. See attached sample.

Ownership

Assume proof of ownership n/a since partial decrees in applicant's name for rights in question.

Beneficial Use

Need information verifying beneficial use in last 5 irrigation seasons (1995-1999) since Partial Decrees are confirmation of use through 1987.

Suggest your review of SRBA claim files at IDWR State Office to see if IDWR's SRBA work included information that recommended rights were being used in same way in or after 1995.

If above is affirmative, do not need additional verification of beneficial use.

Fee

\$100 to file amended transfer.

Notice is given that **OWYHEE CALCIUM PRODUCTS, INC.**, PO Box 159 Grand View ID 83624 has applied to the Department of Water Resources to change the Points of Diversion and Place of Use pursuant to I.C. § 42-222 for 5 irrigation and stockwater rights recorded as follows in Owyhee County:

57-01205, priority 4/01/1948, 7.0 cfs diversion to storage for 49.3 afa for stockwater and irrigation storage.

57-01207, priority 4/01/1943, 1.43 CFS for irrigation and stockwater.

57-01202, priority 3/15/1954, .50 CFS for irrigation and stockwater.

57-02285B, priority 6/05/1965, 1.42 CFS for irrigation.

Source for the first two rights is Shoofly Creek tributary to the Snake River diverted in the SWNW S8. Storage is for a stockwater reservoir in the NENE S8 and an irrigation reservoir in the SWSW S4. The other rights are ground water diverted from three wells located in the SWSW and SENE S4 T7S R3E and the SESW S34 T6S R3E. Place of use is S3, 4 and 8 T7S R3E and S34 T6S R3E, 179 acres total.

The first 4 rights have been decreed in the Snake River Basin Adjudication and 57-02285B is pending court decree.

PROPOSED CHANGE FOR ALL RIGHTS

Applicant proposes combining the surface and ground water rights into a common irrigation system. The stockwater and irrigation will be consolidated on 179 acres at the Eastern end of the current place of use in S3, 4 and 34. The Stockwater storage place of use will remain unchanged. The irrigation storage place of use will be clarified from the SWSW S4, as recorded, to the SWSW and SESW. The proposal is located within the Bruneau Grandview Water Management Area.

Any protest against the approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705-5082, together with a protest fee of \$25 for each application on or before March 20, 2000. Re Owyhee Calcium Products' Application for Transfer

Dear Steve:

As I explained to you yesterday, Owyhee Calcium Products is preparing to file a Revised Application for Transfer of Water Rights to provide ground water to a proposed pivot sprinkler system. As the proposed transfer involves overlapping surface and ground water rights, and a surface water right with a storage component, it is somewhat complex. Therefore, we wish to take advantage of your offer to have IDWR personnel review the proposed transfer prior to filing to help us iron out any issues they may spot.

As the next irrigation season is fast approaching, we would very much appreciate your immediate attention to the proposed transfer. Please contact me with any questions. Thank you for your generous offer.

Sincerely,

Charles L. Honsinger
