CONDITIONS OF APPROVAL AND REMARKS

1. Use of water diverted under this water right will be regulated by the watermaster of State Water District No. 57R.
2. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
3. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- * 4. The total instantaneous diversion of water from all points of diversion under Transfer 5142 shall not exceed 0.19 cfs, nor a total combined annual volume of 10.8 af.
5. Two points of diversion are located within SWNWNE, S34, T03S, R04W.

Plaintiff and Petitioner,

vs.

ADAMS, Larry, et al.,

Defendants.

STATE OF IDAHO }
County of Owyhee }

I hereby certify that the foregoing instrumen-
t is a true and correct copy of the
original on file in this office

Dated 5-24 19 88
Barbara Jayo, Clerk of the District Court

Joann McDaniel
Deputy Clerk

The report of the director of the Idaho Department of Water Resources ("Director herein") entitled PROPOSED FINDING OF WATER RIGHTS IN THE REYNOLDS CREEK DRAINAGE BASIN ("Proposed Finding" herein) was filed with this court on June 28, 1985. The report contains findings of fact, ~~more~~ conclusions of law, existing applica-

50 years, and now is, customarily made in the Reynolds Creek Basin by Upper Users and by Lower Users, and is an historically recognized water use practice which is in the local public interest. All parties agree that this Stipulation does not address the priorities of any rights, claims or permits for flood or "excess" water for which Findings as to priorities have not been proposed by the Director.

DATED this 18 day of March, 1988.

JUN 26 1998

MEMORANDUM

TO: File 57-10726

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5142

DATE: April 13, 1998

Transfer 5142 changes the points of diversion and place of use under Right 57-10726. The application states that no changes to historic use will occur, only corrections to the right as recorded. The change will also remove the right from several quarter quarters of land owned by BLM and assist in the removal of their objection to final SRBA recommendation.

Region staff did not contact the watermaster of Water District 57-R for comment. I will pursue collecting the required information and hold processing of the approval until the matter is resolved. Standard diversion volume was identified for 800 range cattle as identified under the SRBA recommendation.

Recommended conditions include watermaster control, multiple points of diversion/measuring devices and standard transfer conditions.
