BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 57-7027)
in the name of the CITY OF HOMEDALE)

ORDER OF REINSTATEMENT

WHEREAS, on November 26, 1968, the City of Homedale applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 1.0 cubic feet per second of water from a ground water source within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 9, Twp 3 N, Rge. 5 W, B. M., Owyhee County, to be used for municipal purposes; and,

WHEREAS, on February 11, 1969, the Department approved said application and issued Permit No. 57-7027 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before March 1, 1972; and,

WHEREAS, on December 29, 1971, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on March 3, 1972, the permit holder was notified that Permit No. 57-7027 had lapsed for failure to submit the required proof of beneficial use; and,

WHEREAS, on April 12, 1972, the Department received the required proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 57-7027 be REINSTATED and the priority advanced to January 7, 1969.

Dated this 2 day of May, 1972.

DATE: March 26, 1990

RE: TRANSFER APPLICATION NO. 3664

=====

This transfer application seeks to add a point of diversion to two licensed rights and a Snake River Basin Adjudication claim.

There are four existing wells covered by the two rights and one claim. This relationship is shown on the map attached to the transfer. As per the Homedale city engineer Carlyle Briggs, the new well or point of diversion essentially replaces the original well under license no. 63-9260. The original well under 63-9260 though will be used as a backup well. Mr. Briggs, who visited the office today, informed me that the main city wells divert water to a common storage system (i.e.; water tower).

Application may be approved subject to following conditions:

The maximum combined rate of diversion under Right No(s). 57-7027, 63-9260 and SRBA claim no. A57-10393 shall not exceed 2.56 cfs.

<<T01>> Approval of this transfer in no way confirms the right(s) claimed.

Sharon send copy of transfer to Don for his information.

Re: Application for Transfer No. 3664

Dear Mr. Briggs:

I am writing in order to follow up on our phone conversation of March 15, 1990. You may recall that I had several questions concerning the above referenced transfer application. I have not yet received a response to these questions and thus can not yet recommend approval of the transfer.

In our previous conversation, you informed me that the city was going to cap an existing well and drill a new well. There was no indication in the transfer application that an existing well was to be capped. If the city is to cap an existing well, then your transfer application not only seeks to add a point of diversion to several rights, but it also seeks to change a point of diversion for at least one right or adjudication claim.

Before the Department continues with processing of the transfer application, you must inform the Department which city well is to be capped. I believe you mentioned that it was one of the wells near city hall. As you know, there are three wells in the city hall area, all within the same 40 acre tract. I will need to know if it is one of the two wells which was claimed in the adjudication (A57-10393 with a 1940 claimed priority), or if it is the well under groundwater license 57-7027 which has a 1969 priority.

Please feel free to contact me directly at this office if you have questions concerning this matter.

Sincerely,

Re: Application for Transfer No. 3664

Dear Mr. Briggs:

I am writing in order to follow up on our phone conversation of March 15, 1990. You may recall that I had several questions concerning the above referenced transfer application. I have not yet received a response to these questions and thus can not yet recommend approval of the transfer.

In our previous conversation, you informed me that the city was going to cap an existing well and drill a new well. There was no indication in the transfer application that an existing well was to be capped. If the city is to cap an existing well, then your transfer application not only seeks to add a point of diversion to several rights, but it also seeks to change a point of diversion for at least one right or adjudication claim.

Before the Department continues with processing of the transfer application, you must inform the Department which city well is to be capped. I believe you mentioned that it was one of the wells near city hall. As you know, there are three wells in the city hall area, all within the same 40 acre tract. I will need to know if it is one of the two wells which was claimed in the adjudication (A57-10393 with a 1940 claimed priority), or if it is the well under groundwater license 57-7027 which has a 1969 priority.

Please feel free to contact me directly at this office if you have questions concerning this matter.

Sincerely,

Timothy J. Luke

MEMO

TO: Permit No. 57-7027
FROM: Fred Eisenbarth
SUBJECT: Cancellation of Permit No. 57-7027

On April 3, 1972, I called Joyce Blackman, City Clerk, concerning the Lapse Notice we sent to the City of Homedale. She stated that there was a misunderstanding on her part and she thought the permit was for the irrigation of the City Park. I explained that Permit No. 57-7027 was issued for a well to be used for municipal purposes. Therefore, she will now submit the proof of beneficial use on the referenced permit and reinstate it.

Gentlemen:

One of the conditions of approval of your water Permit No. 57-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application No. 57-7027

The Honorable Lester E. Carter
Mayor of the City of Homedale
Homedale, Idaho

Dear Mayor Carter:

We are in receipt of the application to appropriate the public waters of the State of Idaho filed by the City of Homedale. In order to continue processing the application we will require some additional information.

Item 6a of the application requires a description of your proposed diverting works. Inasmuch as you are filing on a 16 inch well, approximately 600 feet deep, the description required would be that of the equipment you intend to install in the well along with any storage facilities.

In addition to this type of information, we will require information concerning the quantity of water you have requested prior to final approval. We must under the laws, be able to justify the water considered under the appropriation. If you have some guidelines that you could afford the department in connection with your present demand requirements and future demand requirements within the three year period you requested under the application, along with the capacity of the system you are installing, it would greatly assist the department.

Please contact us if we may be of further assistance.

Re: Application No. 57-7027

Gentlemen:

We have been asked by the City of Homedale to reply to your letter of December 16, 1968. With regard to Item 6a, it is planned to install a 5-stage turbine pump with 10-inch bowls equipped with a 40 HP, 3-phase, 480 volt electric motor. The discharge from the pump will be conveyed to a 20,000 gallon elevated storage tank, approximately 200 feet away.

The 1.0 cubic foot per second request was based on a present population of 1400, consideration of population growth in the future, a reasonable hourly period of pumping per day, and the peak demand of fire fighting requirements.

Sincerely,

ANDERSON & KELLY
