PROOF OF PUBLICATION

STATE OF IDAHO }
County of Owyhee } S.S.

I, RODNEY A. HAWES, being first duly sworn, on oath says that he is the Publisher of the OWYHEE NUGGET, a newspaper of general circulation, published weekly by Rodney A. Hawes, publisher and printer thereof, at Marsing, County of Owyhee, State of Idaho;

That the annexed notice was published in said newspaper once each week and every week for 2 consecutive weeks, the first publication being on the 19 day of October, 1967, and the last publication being on the 26 day of October, 1967;

That the said newspaper has been published continuously and uninterruptedly in said county during a period of more than seventy-eight consecutive weeks prior to the first publication of the attached notice.

Rodney A. Hawes
PUBLISHER

Subscribed and sworn to before me this 26 day of Oct., 1967.

NOTICE OF APPLICATION FOR WATER

Notice is hereby given that E. Lavon King has on September 26, 1967 applied for permit to divert 3.2 cubic feet per second and to store 146 acre feet of water from Little McBride Creek which is a tributary of Sucker Creek under application No. 57-7003. Water will be diverted by headgates and ditches to a reservoir within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 4, T. 2 S., R. 5 W., B. M., Owyhee County and is to be used from April 1 to September 15 for irrigation and from January 1 to December 31 for storage in the N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 32; SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, T. 1 S., R. 5 W., B. M.

Any protest against this application must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

R. KEITH HIGGINSON,
State Reclamation Engineer
Published in the Owyhee Nugget, Marsing, Idaho, on October 19 and October 26, 1967.

MEMORANDUM

TO: PERMITS 57-07003 AND 57-07082
FROM: STEVE LESTER
DATE: NOVEMBER 4, 1991
SUBJECT: FIELD EXAMS REVIEW - LIVE FLOW IRRIGATION FROM LITTLE MCBRIDE CREEK

Water is diverted from the source via a large canal that delivers water to King Reservoir. The measurement for the diversion to storage was 37.26 cfs (see Mannings result #1 in 57-07003). Water is released from storage into two ditches. Under certain conditions, the released water is considered as live flow irrigation.

From King Reservoir, the north ditch has a 70 hp. pump to pressurize the system for sprinkler irrigation. Water can also continue down the ditch and empty into Brown Reservoir. The south ditch utilizes gravity flow and injects water back into Little McBride Creek, and a redirection from the creek provides gravity flow irrigation. Both ditches can deliver water to the downstream reservoir known as Brown Reservoir. Remark: Water is stored in King and Brown Reservoirs. (07003 + 07082 = King ; 04005 = Brown) JL

The limiting factor for live flow irrigation from the creek is not the large canal leading to the first reservoir. Rather, the limitation is the capacity of the north and south ditches delivering water from the reservoir to the acres.

North ditch capacity: select one of two methods below.

a) HP equation where hp = 70 psi assumed 60 lift assumed 10' eff = 70%

$$Q = [(8.8)(70)(.7)] / [(2.31)(60) + 10] = 2.90 \text{ cfs}$$

b) or assume that ditch is similar to south ditch and use that value for capacity.

South ditch capacity: measured 8.23 cfs (see Mannings results #2 in 57-07003) JL

Total live flow capacity: 8.23 cfs + (2.90 or 8.23) cfs = 11.13 or 16.46 cfs.

No live flow P/D overlap is needed since only one permit is recommended for live flow. Both permits are recommended for storage, and the diversion to storage greatly exceeds the recommended amounts so additional analysis is unnecessary.

Reservoir capacity is 380 a.f., and recommendations for R57-04005 (80 a.f.), 57-07003 (146 a.f.), and 57-07082 (150 a.f.) total 376 a.f. or just 4 a.f. shy of the capacity. It does not seem reasonable to require another permit for the 4 a.f.; consider it covered by the margin of error in the capacity estimate (where $4/380 = 1\%$). Also, an additional SRBA claim is being filed for another source(s) that delivers water to King and thus Brown Reservoirs.

MANNING EQUATION CHANNEL CAPACITY RESULTS

File Number: A57-07003/07082
Claimant: MARK D. SHENK
Channel measured: LITTLE MCBRIDE CREEK
Date of measurement: 6/18/1991
Measurement location:
DIVERSION INTO LARGE RESERVOIR.
Calculation prepared by: KAY WALKER
Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 208 feet.
The upstream and downstream rod readings are 4.47 and 8.46 feet.
The channel cross section is 9.61 ft-sq.
The wetted perimeter is 10.56 feet.
The hydraulic radius is 0.91 feet.
The slope is 0.0192
The roughness coefficient is 0.0500
The flow velocity is 3.875 ft/sec.
The rate of flow is 37.26 cfs.

This picture shows where we made our measurements of the creek and the slope. kw

Claimant: MARK D. SHENK
Channel measured: LITTLE MCBRIDE CREEK
Date of measurement: 6/18/1991
Measurement location:

SENW

Calculation prepared by: KAY WALKER

Comments about the measurement:

DIVERSION INTO SMALL RESERVOIR

The results of the calculation are:

- The length of the channel measured is 234 feet.
- The upstream and downstream rod readings are 4.01 and 6.15 feet.
- The channel cross section is 3.44 ft-sq.
- The wetted perimeter is 5.23 feet.
- The hydraulic radius is 0.66 feet.
- The slope is 0.0091
- The roughness coefficient is 0.0450
- The flow velocity is 2.393 ft/sec.
- The rate of flow is 8.23 cfs.

This is to certify, that PEARL BROWN
BURTON BROWN

STAR RT

MARSING ID 83639

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 26, 1967; and has submitted Proof of Beneficial Use on January 27, 1975. An examination indicates that the works have a diversion capacity of 45.490 cfs of water from:

LITTLE MC BRIDE CREEK tributary to MC BRIDE CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 11/01	2.91 CFS	509.3 AF

Permit No. 57-7003

E. LaVon King of Star Route, Marsing, Idaho 83639
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 57-7003.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before Feb. 1, 19 73.

That he has heretofore performed the following work described under said permit:

Constructed diversion ditch about 1 mile in length.
Constructed earthfill dam and irrigation to fields.
Irrigation of about 43 new acres from this dam.

Costing \$ 25,000

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: more land (about 117 acres) to be developed
and irrigated now that dam is completed.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to Feb. 1, 19 76.

FELISA ISAGUIRRE
TREASURERT. H. COTTON
SECTY-MGR

November 1, 1967

Mr. Keith Higginson
State Reclamation Engineer
State Department of Reclamation
Boise, Idaho

Dear Mr. Higginson,

The South Board of Control, Owyhee Project and the Gem Irrigation District wish to protest an application for permit to divert 3.2 cfs and storage of 146 acre feet of water from Little McBride Creek.

This notice of application, No. 57-7003, had its last publication in the Marsing paper October 26, 1967 and was made for E. Lavon King.

The South Board, operator for the Gem District, uses water from Succor Creek on lands of the Gem Irrigation District. Part of this land was originally in the Succor Creek Irrigation District and after it was taken over by the Gem District the water rights were transferred to the Gem. These are old rights and probably some of the first on the creek.

Succor Creek is virtually dry (after the spring run off) where it crosses our South Canal siphon, which is approximately seven miles above the Snake River. This flow has been dwindling each year, probably due to increases in diversions.

There are quite a few ranches below the confluence of Little McBride Creek and Succor Creek who depend on this water for irrigation and stock water. They will be hurt if this permit is approved.

The South Board's point of diversion is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 7, T. 3, N., R. 5 W. B. M.

Yours very truly,

Edwin Stansell, chairman
South Board of Control and
Gem Irrigation District

Tom Cotton, Secty-Mgr. South
Board of Control and Gem Irrigation
District.

RE: Water Right No. 57-07003

Dear Property Owner:

The above referenced water right is in the process of being reviewed for licensing. We have tried unsuccessfully to contact the water right holder of record to obtain an amendment to the permit so that a license can be issued. The correspondence has been returned undeliverable and contact with the assessor's office revealed that you are listed as the owner of the property in their records.

We also find that you have submitted a Snake River Basin Adjudication Claim on this particular right. In order for the adjudication claim to be included in the final decree, the license needs to be issued on the existing right. Therefore, we are forwarding the amendment form to you. You need simply to sign the form and return it to us along with the \$20.00 filing fee.

Once we receive the amendment, we will issue a license and will forward a copy to you for your records. The license will be issued in the name of the right holder shown in our records. If you wish to have the license issued in your name, you need to have the current holders of record, Burton &/or Pearl Brown, assign the right to you via the enclosed assignment form. Whether or not an assignment is received, a license becomes real property and is appurtenant to the land which it covers.

Please submit the amendment form and fee to us within 30 days. You can submit the assignment form at the same time, if you desire to have the license issued in your name. If you have any questions concerning this matter, please feel free to contact us.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

RE: WATER RIGHT NO. 57-07003

Dear Water Right Holder(s):

We previously forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received the amendment. If we do not receive it within fifteen (15) days, we will assume you no longer have any interest in the permit and cancellation proceedings will begin. Enclosed for your convenience is another amendment form in the event the first one was misplaced.

If you have any questions, please contact us.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Skaggs".

RE: 57-7003

According to Sam at Owyhee Cty. Assessor's office, Burton Brown sold his property to Mark Shenk. I have mailed the returned correspondence (amendment & orders) to Mr. Shenk along with assignment form.

RE: Water Right No. 57-07003

MARK SHENK
28801 SCOTT PITT RD
PARMA ID 83660

Dear Property Owner:

The above referenced water right is in the process of being reviewed for licensing. We have tried unsuccessfully to contact the water right holder of record to obtain an amendment to the permit so that a license can be issued. The correspondence has been returned undeliverable and contact with the assessor's office revealed that you are listed as the owner of the property in their records.

The enclosed application for amendment contains information that will be included on the license when it is issued. We are forwarding the amendment form to you as the new property owner. You need simply to sign the form and return it to us along with the \$20.00 filing fee.

The license will be issued in the name of the right holder shown in our records. If you wish to have the license issued in your name, you need to have the current holders of record, Burton &/or Pearl Brown, assign the right to you via the enclosed assignment form. Whether or not an assignment is received, a license becomes real property and is appurtenant to the land which it covers.

Please submit the amendment form and fee to us within 30 days. You can submit the assignment form at the same time, if you desire to have the license issued in your name. If you have any questions concerning this matter, please feel free to contact us.

Sincerely,

SHARLA CURTIS
Water Resource Agent

RE: WATER RIGHT NO. 57-07003

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the ^{30th} day period.

Please note the enclosed Order removing the measuring device requirement from the approval of conditions of your permit.

Sincerely,

SHARLA CURTIS

MEMORANDUM

TO: PERMITS 57-07003 AND 57-07082
FROM: STEVE LESTER
DATE: NOVEMBER 4, 1991
SUBJECT: FIELD EXAMS REVIEW - LIVE FLOW IRRIGATION FROM LITTLE MCBRIDE CREEK

Water is diverted from the source via a large canal that delivers water to King Reservoir. The measurement for the diversion to storage was 37.26 cfs (see Mannings result #1 in 57-07003). Water is released from storage into two ditches. Under certain conditions, the released water is considered as live flow irrigation.

From King Reservoir, the north ditch has a 70 hp. pump to pressurize the system for sprinkler irrigation. Water can also continue down the ditch and empty into Brown Reservoir. The south ditch utilizes gravity flow and injects water back into Little McBride Creek, and a redirection from the creek provides gravity flow irrigation. Both ditches can deliver water to the downstream reservoir known as Brown Reservoir. Remark: Water is stored in King and Brown Reservoirs. (07003 + 07082 = King ; 04005 = Brown) JL

The limiting factor for live flow irrigation from the creek is not the large canal leading to the first reservoir. Rather, the limitation is the capacity of the north and south ditches delivering water from the reservoir to the acres.

North ditch capacity: select one of two methods below.

a) HP equation where hp = 70 psi assumed 60 lift assumed 10' eff = 70%

$$Q = [(8.8)(70)(.7)] / [(2.31)(60) + 10] = 2.90 \text{ cfs}$$

b) or assume that ditch is similar to south ditch and use that value for capacity.

South ditch capacity: measured 8.23 cfs (see Mannings results #2 in 57-07082) JL

Total live flow capacity: 8.23 cfs + (2.90 or 8.23) cfs = 11.13 or 16.46 cfs.

No live flow P/D overlap is needed since only one permit is recommended for live flow. Both permits are recommended for storage, and the diversion to storage greatly exceeds the recommended amounts so additional analysis is unnecessary.

Reservoir capacity is 380 a.f., and recommendations for R57-04005 (80 a.f.), 57-07003 (146 a.f.), and 57-07082 (150 a.f.) total 376 a.f. or just 4 a.f. shy of the capacity. It does not seem reasonable to require another permit for the 4 a.f.; consider it covered by the margin of error in the capacity estimate (where $4/380 = 1\%$). Also, an additional SRBA claim is being filed for another source(s) that delivers water to King and thus Brown Reservoirs.

MANNING EQUATION CHANNEL CAPACITY RESULTS

File Number: A57-07003/07082
Claimant: MARK D. SHENK
Channel measured: LITTLE MCBRIDE CREEK
Date of measurement: 6/18/1991
Measurement location:
DIVERSION INTO LARGE RESERVOIR.
Calculation prepared by: RAY WALKER
Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 208 feet.
The upstream and downstream rod readings are 4.47 and 8.46 feet.
The channel cross section is 9.61 ft-sq.
The wetted perimeter is 10.56 feet.
The hydraulic radius is 0.91 feet.
The slope is 0.0192
The roughness coefficient is 0.0500
The flow velocity is 3.875 ft/sec.
The rate of flow is 37.26 cfs.

This picture shows where we made our measurements of the creek and the slope. kw

Re: Permit No.'s 57-7003 & 57-7082

Burton or Pearl Brown
Star Route
Marsing, ID 83639

Dear Mr. & Mrs. Brown:

We acknowledge receipt of the assignments submitted conveying the above referenced permits to you. The assignments have been recorded and the Department's records changed. We also acknowledge receipt of the affidavits submitted as proof of beneficial use for these permits.

Before licenses can be issued, field examinations must be made by a representative of this Department. We cannot tell during which part of the irrigation season these examinations will be made, but our examiner will try to contact you at the time he makes the exams so that you may show him the systems.

Enclosed is a copy of the approved application for amendment submitted for Permit No. 57-7082. Also enclosed is Receipt #724 for the \$10.00 filing fee you submitted.

If you have any questions concerning the field exams, please contact our Western District Office in Boise.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Dear Sir,

Dear Sir

I brought out C. Tarn King which
includes the reservoir and work which
has to be finished on the permit. I also have
a copy of an extension of time which
goes until Feb. 1 1976.

I'm inclosing the copy and I
would like to know what I have to
do to get the permit & etc changed over
in my name.

Sincerely

Burton Brown

Re: Permits No. 57-7003 - E. Lavon King
57-7082

Mr. Burton Brown
Star Route
Marsing, Idaho 83639

Dear Mr. Brown:

In answer to your letter of January 10th, we are enclosing two assignment forms which must be completed by Mr. King in order to convey the above referenced permits to you.

We have also enclosed copies of the permits for your reference. You will note that proof of beneficial use is due under 57-7003 on February 1, 1976, and under 57-7082 proof is due on or before February 1, 1975.

If you have any questions regarding these permits or completion of the assignments, please do not hesitate to contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. 57-7003

E. Lavon King
Star Route
Marsing, Idaho 83639

Dear Mr. King:

One of the conditions of approval of your water Permit No. 57-7003 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Department

Department of Reclamation
107 State House
Boise, Idaho 83701

Attention: R. Keith Higginson
State Reclamation Engineer

Gentlemen:

There has not been a determination of the vested rights on Succor Creek, but there is considerable use of water from Succor Creek below the point where McBride Creek enters. We assume there will still be the direct flow available for these uses.

There is an application on file by the Succor Creek Water Control District for a permit for the storage of 17,650 acre feet of the waters of Succor Creek. The dam is to be located in Section 11, Township 27 South, Range 46 East, W.M. We do not yet have final plans for this.

There are a number of filings by the Bureau of Land Management for permits for the construction of stock water ponds, but these are relatively small and most of them are above the confluence of Succor and McBride Creeks.

We will see if further information as to the ranchers claiming vested rights to the use of waters of Succor Creek can be furnished you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Re: Application for Permit No. 57-7003

E. LaVon King
Star Route
Marsing, Idaho 83639

Dear Mr. King:

The Department of Reclamation is ready to process and approve your application for permit; however, before we can take this action, you will be required to relinquish the original two applications as previously discussed.

Enclosed is a relinquishment form for R-1201 and for 32295. Please sign and return promptly so that we may issue your permit. If you have any further questions, please contact us on this matter.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Marsing, Idaho 83639

Dear Mr. King:

Enclosed is a copy of the letter of the South Board of Control of the Owyhee Project, withdrawing the protest they had issued against the approval of your permit. Inasmuch as the protest has been withdrawn, the Department of Reclamation shall proceed with the processing of your application for permit.

Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Department of Reclamation

Mr. Keith Higginson
State Reclamation Engineer
Statehouse
Boise, Idaho

Dear Mr. Higginson:

On November 1, 1967 the South Board of Control of the Owyhee Project filed a protest against an application No. 57-7003 made by E. Lavon King proposing to divert certain of the waters of Little McBride Creek in Owyhee County, Idaho. Pursuant to the protest, an informal meeting was held in your office on November 20. At that meeting it was determined that further investigation be made by the South Board of Control of the Owyhee Project to determine whether it desired pursue the protest further and request a formal hearing.

The Board has made further investigation and has come to the conclusion that it does not desire to pursue the protest further and hereby withdraws the same.

A copy of this letter is being forwarded to Mr. Harley M. McDowell of the Idaho Land & Appraisal Service whose firm represented Mr. King at the informal meeting in your office.

Very truly yours,

Maurice H. Greene

Boise, Idaho 83701
R Keith Haggerson
State Reclamation Engineer

Dear Sir:-

The man who is making application for the
storage reservoir water is located, June, we
saw some of the property on Mr. Bride Creek.
We do not honestly think any of the Success
Creek area, below Mr. Bride will be affected.
As the flow of Mr. Bride will be stopped
long before Success Creek. Actually Mr. Bride
is a fall line. Flood water and Success Creek
joined at the water needed at that time.
The first reservoir on Big Lost while
we still lived in Success Creek and nothing
much was said about it. I may affect Mr.
Miller, he has a right on Mr. Bride also and
has used the water for irrigation.
I hope this gives you our version of the deal.

Sincerely yours

Mr. Helen Tiffin

Re: Application 57-7003
E. Laven King

South Board of Control, Owyhee Project
Homedale,
Idaho

Gentlemen:

The Department of Reclamation is in receipt of your protest of November 1, 1967 in connection with the above referenced application for permit.

Pursuant to the protest which you have filed, the Department of Reclamation is scheduling a conference to be followed by a hearing to review your protest. The conference will be scheduled for November 20, 1967, at 2 p.m. in Room 107, Statehouse, Boise, Idaho. Your or your representative are required to attend.

Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Re: Application 57-7003

The Wyhee Nuggett
Marsing,
Idaho 83639

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McElowney
Water Rights Clerk
