Dear Mr. Fleenor

We received a letter of August 23, 1973 which states that a representative of your Department has made an examination of the works covered by our Permit No. 31544/57 - 2265.

We are not aware of any examination being made. Since we have 4 sources of water available, we would like to know which source is being discussed and would like to have a representative drop by so we could become informed in regard to this matter.

Please call us before you send a representative so that we will be here. We are gone quite a lot.

Dear Mr. Reed:

A representative of this Department has made an examination of the works covered by your Permit No. 31544/57-2265 and has found the following:

Quantity of water diverted: 0.07 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.07 cfs

The maximum quantity diverted shall not exceed 9.6 acre feet per year.

Beneficial use: Irrigation of 2 acres and domestic purposes within the NE1/4SE1/4 Sec. 17, Twp. 1 N, Rge. 3 W, B.M.

Point of diversion: Lot #6 (SE1/4NE1/4) Sec. 17, Twp. 1 N, Rge. 3 W, B.M.

Priority date established: November 21, 1963

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-31544	)	
in the name of Norman McDonald	)	ORDER MODIFYING REQUIREMENTS
<u>Route 1, Nampa, Idaho</u>	)	FOR COMPLETION OF PERMIT TO
		APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. **G-31544** was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before November 29, 1968. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Dated this 18th day of September, 19 68.

Re: Permit No. G-31544

Norman McDonald
Route #1
Nampa, Idaho

Dear Mr. McDonald:

One of the conditions of the approval of your permit G-31544 was that proof of application of the water to beneficial use be submitted to this office on or before November 29, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-31544

Norman McDonald
Route 1,
Nampa, Idaho 83651

Dear Mr. McDonald:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
