CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 57B.
2. This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. Rights 57-00040, 57-02235, and 57-10558 when combined shall not exceed a total diversion rate of 8.86 cfs, a total annual maximum diversion volume of 1066.5 af at the field headgate for the irrigation of 237.0 acres.
- * 6. The total instantaneous diversion of water from all points of diversion under Transfer 5182 shall not exceed 8.86 cfs, nor total combined annual volume of 1079.9 af.

MEMORANDUM

TO: Files 57-00040 & 57-02235

FROM: Pam Skaggs/^{CS}State Office

SUBJECT: Transfer 5182

DATE: July 23, 1998

Transfer 5182 adds a point of diversion under Right 57-00040 and a point of rediversion under Right 57-02235.

The applicant diverts surface water from Catherine Creek under Right 57-00040 and under Right 57-02235 injects groundwater into Catherine Creek and rediverts it at the same diversion points under 57-00040. These rights were recently decreed in the SRBA and have a limiting overlapping acre and rate condition with Right 57-10558 which is a right from springs and not part of the creek diversion system. ✓

Recommended conditions include watermaster control, irrigation overlap, combined right limits, multiple points of diversion, measuring devices, pertinent decree conditions and standard transfer conditions. ✓

Dear Mr Karl Dreyer,

On February 6, 1997, we applied for three applications for permits with Jan Shurte. The purpose of this correspondence is to express hope that this process be completed for the 1997 growing season. Under our existing water rights, we are trying to increase the efficiency of water currently being utilized. A brief summarization of each of those applications is as follows

First, regarding water right known as 57-07267 ^{NO CHANGE} Currently this well is being utilized only three out of the four weeks a month during the growing season. In addition to this existing time period, it would be our intent to use this well water during that one week period of non-use

Secondly, water right 57-02235 is a well that is currently being utilized only as flood irrigating via miles of dirt laden ditches. As you are aware, sprinkling would be a much more efficient method and useage of the water. It is our goal to utilize the exsisting amount of water with sprinklers but apply it over a broader base of ground

Lastly, right 57-10558 is a situation where the water is in useage approximately 80% of the time. We would like to utilize that remaining 20% in order to make more efficient use of the current system

In closing, we would appreciate you and your staff's efforts to expedite the processing of these three permits. If you have any questions or concerns we would be happy to address those. Thank you for your time and attention regarding this matter

Sincerely,

Robert Thomas

Cons. use based on 233 acres - which is all shown in attached overlap analysis sheet. Add CO5 - Change in pt. of use.

1 - Pt. of Div. & Re-div - This well is injected into Catherine Ch from cooling pond & re-diverted at the same pt. of diversion covered under the Catherine Ch. right 57-00040, which explains the FOS remark used to note both are diverted from same p.l. but one is a re-diversion (2235) & one a pt. of diversion (0040).

Also G10 - Co-mingled water cond. used to inform claimant that G.W. injected into Catherine Ch. does not guarantee the same amount can be diverted through re-diversion pt. if Ch. now gone.

RE: Application No. G-36245

T. G. Adcock
Oreana, Idaho

Dear Mr. Adcock:

Enclosed is the application for permit to appropriate subterranean water with attached receipt No. G-4473 for filing fee of \$5.75.

The application appears to be in order except you do not show the land to be irrigated.

Kindly show the land to be irrigated on both maps and on page 2 of the application and return promptly to this office.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Mr. Adcock:

Upon return to the office Mr. Thomas advised me that you desired a measurement on your artesian well.

I would have gladly done it for you when I was down there the other day had time permitted, and had I known you wanted it done by this department, but it is not possible to make a trip down there solely for that purpose.

It will of course be measured as soon as you have made proofs on your permit and it is ready to be licensed.

Yours truly,

Dear Sir:
I have made an outline on page 2 of land covered
by water between the X I have marked in
the 40 that I will irrigate as far as the water
will carry - not all of the land in some of the
40 are tiltable. But the water will
run back 40 that I can irrigate + farm.

Yours Truly
