Dear Mr. Post:

A representative of this Department has made an examination of the works covered by your Permit No. 57-2220, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.16 cfs Source: groundwater

The maximum quantity diverted shall not exceed 290.0 acre feet
per year.

Point(s) of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2, Twp. 6S, Rge. 3E, Owyhee
County

Beneficial use: Irrigation of 58 acres within the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 2, Twp.
6S, Rge. 3E

Priority date established: May 27, 1957

Conditions (if any): This right when combined with all other rights shall
provide no more than 0.02 cfs per acre nor more than 5.0 afa per acre for
the lands above.

If you do not concur with these findings please contact us within 10 days, otherwise
a water license will be issued as set forth above.

Sincerely,

In reviewing the field exam I see no reason as to why the file was never licensed except for the fact that our office requested an amendment which was never received.

A more indepth review of the field exam indicates that an amendment is not necessary & I recommend that we license the file. *mc*

Dear Mr. Post:

A field examination of your permit no. G-26921, was conducted in September 1966. The results of the examination show that you are irrigating lands other than covered by your permit. Therefore, we are enclosing a form to amend the land list of your permit. We have entered the land list as we found it. If you agree with the change, sign the amendment form as indicated and return it with \$1.00 recording fee. Also you will be required to readvertise the amended permit at your expense. We are enclosing an authorization form which you are requested to sign and return with the amendment. Once the permit is readvertised and no protests are received, we will be able to license your permit.

Please contact us if we can be of further assistance.

Very truly yours,

Dear Mr. Post:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the OWYHEE NUGGET, all submitted in proof of completion of works and beneficial use on Permit No. G-26921.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Post:

Returned herewith are your proofs in connection with the above numbered permit. The proofs seem to be acceptable, except for questions # 4 and 6 on all three depositions. You state the point of diversion and the land list as being in Range 2E., while the publication notice and the permit state the point of diversion and the land to be in Range 3E. If the land is in 2E, vice 3 E. the permit will have to be re-advertised at your expense and new proofs taken. If the land is in 3E. please correct the depositions and return promptly; if not in 3E. advise us in order that the permit can be corrected.

Dear Mr. Post:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-26921. The proofs are to be made at 10:00 o'clock A.M., on the 12th day of April, 1965, before W. J. Biladeau, Grandview, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Owyhee Nugget Marsing, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. G- 26921

Leslie J. Post
Grandview, Idaho

Dear Mr. Post:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 26921 are due not later than April 14, 1965.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Dear Mr. Post:

We have received a log on a well drilled for you by Harold Steiner which shows the well to be in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2, T. 6 S., R. 3 E., B. . The above permit indicates that the well was to be located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6.

If the location on the log is correct it will be to your advantage to amend the point of diversion before making final proof on the permit. See the enclosed copy of a notice "To Whom It May Concern" referring to a ruling made by the Attorney General in regard to having correct locations in all legal notices.

An amendment form is enclosed. There is a \$1.00 fee for recording an amendment which you may remit with the amendment.

Dear Mr. Post:

We enclose Permit No. G-26921 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this Permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of this letter is enclosed.

Departmental receipt No. G-2622 was issued covering payment in the amount of \$8.50, which included \$6.50 for the filing fee and \$2.00 for the copywork. This receipt was handed to you while in our office.

Very truly yours,
