Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John and Mary J. Wright, residence 9 miles SE of Marsing, Idaho, occupation farming and livestock, P. O. Address Marsing, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. As individual (husband and wife)

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23065, date of permit is September 23, 1952 and the priority date I propose to establish is September 19th, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water pumped from a drilled well, located in the SW corner of Lot 5 or NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 7, T 1N - R 3W., B. M. Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Drilled well, drilled to a depth of 380'. My lift is approximately 20'. I had the Watermaster from the Opaline Ditch Canal Company measure this at one time and he measured outflow here at 72 miner's inches. I have a Caterpillar Diesel motor, D-2 and have a 10" pump. I have 8" casing, cased down 50 to 60'. This is all gravity system and through my private ditch. The ditch is V type, 2' deep, 4' top and it will convey all the water I need to irrigate the whole area.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. It should be understood that I own the land south and west of the main Opaline Canal, and I irrigate here in Lot 4, or the SW $\frac{1}{4}$ NW $\frac{1}{4}$ approximately 18 acres, in Lot 5 or the NW $\frac{1}{4}$ SW $\frac{1}{4}$, I irrigate 30 acres and in Lot 6 or the SW $\frac{1}{4}$ SW $\frac{1}{4}$ about 8 acres. On the leveling and development of this I have spent at least \$2,500.00 to get this water under irrigation. You cannot raise any crops here without irrigation, and all the improvements here have been as a direct result of this use and there is no natural meadow land here.

23065

1122F

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need at least 1¹/₂ to the acre here. As a matter of fact sometimes when I first plant row crops I feel I could use even more water than this.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Vene Foster originally applied for this, then I obtained this water permit through an assignment.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started on this right after I got on the place and just as soon as the water permit was allowed, and my desert entry was allowed. I had a desert entry here on Lot 6. Altogether I irrigate 56 acres here.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water at all on this for any purpose.
