Dear Mr. Johnston:

We acknowledge receipt of the depositions of yourself and two witnesses, also Affidavit of Publication in the Owyhee Nugget, all in Proof of Beneficial Use under Permit No. 19778.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.
