NOTICE FOR PUBLICATION

Notice of Proof Application of Water
to Beneficial Use

Notice is hereby given that at 11:00 a.m. on the 2nd day of March, 1929, at Oreana, county of Owyhee, state of Idaho, before Lynn Bachman, Notary Public, proof will be submitted of the application to beneficial use of 4.2 cubic feet per second of the waters of Castle Creek, in accordance with the terms and conditions of Permit No. 15114 heretofore issued by the Commissioner of Reclamation of the state of Idaho.

The name and postoffice address of the person or corporation holding said permit are: Samuel D. Johnston, Oreana, Idaho.

The use to which said water has been applied is irrigation and domestic use.

The amount applied to beneficial use is 4.2 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated):

W $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$,
NE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 8,
Township 5 South, Range 1 East,
B.M.

The right to take water from such works is based upon Permit No. 15114.

The source of supply from which such water is diverted is Castle Creek.

The date of priority which said user is prepared to establish is March 22, 1921.

GEO. N. CARTER,

Commissioner of Reclamation.

Re: Water License 15114

Bob D. Collett
Oreana, Idaho 83659

Dear Mr. Collett:

We are writing in reply to your May 3, 1967 correspondence on the above referenced water license.

The questions that you have asked in your letter have been reviewed by the staff of the Department of Reclamation and the following is the finding of our review:

On the 24th of June, 1929, a field examination by the Department of Reclamation was conducted on the systems of the permit 15114 on the waters of Castle Creek. The findings of this examination resulted in a letter dated February 3, 1930, reporting that the examination of the Department of Reclamation showed the point of diversion to be in error. The diversion was reported to have been found in the NE¹/₄ of Sec. 10, instead of the SE¹/₄SW¹/₄ of Sec. 3, T. 5 S, R. 1 E, B.M. The letter also stated that in order to correct the record, that the applicant must file an affidavit for change in point of diversion, and sent a blank affidavit. At this point our records do not indicate any other correspondence until June 10, 1930, when a second field examination apparently was made. No reference is made to having ever received the requested affidavit.

On the 12th of June, 1930, a letter reporting the findings of the second field examination was sent to the applicant making no reference to the errors in the point of diversion. It requested a license fee and stated that the license would be issued. On June 21, 1930, a transmittal transmitting the license and certificate of completion of works along with the department receipt were sent to the applicant.

At the present time, water license 15114 shows the point of diversion in SE¹/₄SW¹/₄ Sec. 3, T. 5 S, R. 1 E, B.M. This is the only point of diversion listed on the license. This administration is unable to determine the thoughts of the State Reclamation Engineer at the time the license was issued. As more information is not available, the water license will remain as originally issued.

RECEIVED

Department of Reclamation

Attention: Donald W. McEldowney

Gentlemen:

Please be advised that the undersigned hereby requests a review of your water permit No. 15,114 in District 14A, being for Castle Creek in Owyhee County, State of Idaho, Castle Creek being a tributary to the Snake River.

My interest in this matter is that I am the successor in interest to a water permit originally issued to T. A. Foreman for diverting the waters of Castle Creek to what is commonly known as the Foreman Reservoir, and which is also used by me for the irrigation of my lands and for diverting waters decreed to the lands which I now own.

It is my understanding, and I have been advised that the designated point of diversion for said water permit No. 15,114 is in error and that also the time allowed by law, with any extensions thereof, for the completion of the diversion works has long expired.

You are further advised that I am sure an investigation of the proposed diversion works for your water permit No. 15,114 would disclose that no use whatsoever has been made of said diversion works and ditch since about the year 1931, and therefore, would have been abandoned.

Please advise me of the result of your review, and please consider this letter as a formal protest and objection to the granting of any permit whatsoever involving the use of my present irrigation ditch conveying the irrigation water to the Foreman Reservoir.

Also, I will be very happy to meet with you and furnish any evidence you might require to substantiate the facts set forth in this letter.

Very truly yours,

Bob D. Collett

RE: Permit No. 15114

Mr. Samuel D. Johnston
Castle Creek, Idaho

Dear Sir:

The report of our examining engineer on proof of beneficial use of water on your above numbered permit shows your point of diversion to be in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10 instead of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, Twp. 5 S., Range 1 E.. In order to credit the records in this particular it will be necessary for you to file an affidavit for change of point of diversion, blank for which is inclosed.

Upon receipt of such affidavit, together with fees in the sum of \$2.00 license will be issued you.

The report of our examining engineer shows only 20 acres under irrigation situated in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3.

Re: Permit No. 15114

Mr. Samuel D. Johnston,
Oreana, Idaho.

Dear Sir:-

Referring to yours of the 15th inst., enclosing notices for proof of completion of works, would say that the notices should have been for beneficial use of water as proof of completion of works has already been made under this permit and the certificate issued. We have, therefore, transferred the notice to the correct form, setting March 2nd as the date for making proof, at Oreana before Lynn Bachman, notary public. Unless otherwise advised by you within the next week or ten days, notice for the required four weeks publication will be mailed to the Oryzae Nugget. Deposition blanks for holder and two witnesses will later be mailed to the notary public.

Very truly yours,
GEO. W. CARTER,
Commissioner of Reclamation.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Samuel D. Johnston
~~Samuel Johnston~~

Boise, Idaho, Jan. 12, 1925

Dear Sir:—

Under the terms of your permit No. 15114.....you are required to complete your diversion works on or before. ~~Apr. 11, 1925~~ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
