In re: Permit 12193.

William McDonald,

Wilson, Idaho.

Dear Sir:

This will acknowledge receipt, at this department, of depositions showing proof of application of water to beneficial use under the above numbered permit.

It will be necessary for you to forward to us the proof of publication - our records show that notice was published in the Empire Press at Homedale, Idaho.

Before a license can issue under the permit, it will be necessary that the statutory examination be made by a representative of this department.

Yours very truly,

T. G. SWENSON,

Commissioner of Reclamation,

In re: Permit #12193

William McDonald,
Wilson, Idaho.

Dear Sir:

Some time ago, Mr. Lindsey of Boise, forwarded to this Department the enclosed notices for publication to commence proof of application of water to beneficial use under your permit. He did not designate therein, the proof taking official, and consequently, the same was returned to him to insert the person before whom the proof was to be submitted.

Today we are in receipt of a letter to Mr. Lindsey from J. E. Keith, which letter was evidently in answer to a letter from Mr. Lindsey to Mr. Keith making inquiry as to the name of a Notary Public in that vicinity. In that letter, Mr. Keith advised Mr. Lindsey that Chas. Simmons is the notary public in your vicinity and resides at Guffey, Idaho. I note from the map that Guffey is some distance from Wilson and I take it that you do not desire to travel with your witnesses any further than it is necessary to submit this proof.

The proof may be submitted before a notary public or before a justice of the peace. I am returning the notices to you, in order that you may fill in the name of the person before whom you desire to make proof and upon the receipt of the notices in this Department, showing the name of proof taking officer, the same will be ordered published.

Yours very truly,

In re: Permit 1919

I have received,
also a letter.

Dear Sir:

Some time ago, Mr. Lindsey of Boise, forwarded to this department the enclosed notices for publication to commence proof or examination of water to beneficial use under your permit. He did not designate them as the proof of an official, and consequently, the same was returned to him to insert the same before the proof was to be submitted.

Today we have received of a letter to Mr. Lindsey from J. E. Keith, which letter we evidently in answer to a letter from Mr. Lindsey to Mr. Keith making inquiry as to the dam of the water in the vicinity. In that letter, Mr. Keith advised Mr. Lindsey that Class. Division is the water in the vicinity of the dam at Shilo, Idaho. I note from the same that the dam is some distance away also and I take it that you do not desire to travel with your witnesses any farther than it is necessary to submit this proof.

The proof will be submitted before a Justice of the Peace or before a Justice of the Peace. I am not ruling the matter to you, but as to that you will be the name of the person before whom you desire to make proof. If you do not receive the notice in this department, should the same be proof to an officer, the same will be of no obligation.

Very truly,

OFFICE OF THE STATE ENGINEER OF THE STATE OF IDAHO.

In the Matter of the Re-instatement
of Permit No. 12193, under the
Provisions of H.B. 53, Session Laws,
1917.

DECISION and ORDER.

Permit No. 12193 lapsed on the 27th day of May,
1917, by the failure of the holder to make proof of completion of the works
of diversion, required by law, and as set forth in the permit itself.

Notice that such proof was due was regularly given the holder by this
office on the 5th day of March, 1917.

On the 2nd day of August, 1917, notice to show
cause why said permit should not be cancelled under the terms of H.B. 53,
Session Laws, 1917, was duly served on the holder in accordance with law.

Whereupon, the holder made appearance within the required time and
submitted affidavits showing that the said works were completed within the
required time, to-wit: on the 27th day of May, 1917.

And, after examination of said affidavits and proofs, the State Engineer
is satisfied that the holder of the said Permit No. 12193 has pro-
ceeded in good faith, and has completed works of diversion and made use of
water therein for beneficial purposes.

Whereupon, without further proceedings or hearing in the matter,
it is ordered that said Permit No. 12193, be, and the same is,
hereby reinstated and that a certificate of completion of works thereunder
be issued immediately.

WITNESS, My hand and the seal of my office at Boise, Idaho, this

30th day of March, 1918.

Fred H. McKie

State Engineer.

DANIEL A. DUNNING

BOISE, IDAHO

Boise, Idaho,

September 10, 1917.

The Honorable
The State Engineer,
Boise, Idaho.

Sir:

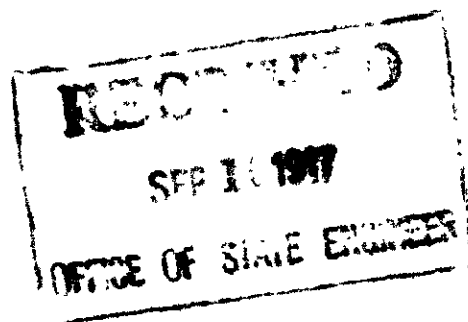

Reference is had to the matter of Permit Number 12192
Willie McDonald.

Some time ago the permit holder received notice
directing him to show cause why his said permit should
not be cancelled for failure to make proof of completion
of work within the time fixed by the permit.

I represent Mr. McDonald in the matter and hereby
enter my appearance and ask ten days within which to
make the showing required.

Respectfully,

Dunning
Attorney for Willie McDonald.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Wm. McDonald,
Wilson, Idaho

Boise, Idaho,

Dear Sir—

Mar. 5, 1917

Under the terms of your permit No. 12193, you are required to complete your diversion works on or before May 27, 1917. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5 00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,
