RE: CONDITIONS OF APPROVAL - TRANSFER NO. 5173
Date: February 25, 1998

I discussed the conditions of approval of transfer No. 5173 with Norm Young this morning. His general direction was to continue to use the conditions of approval as we have done in the past.

In this specific case, Norm had no problem with deleting condition No. 1. and condition No. 5. We need to confirm, however, with our SRBA staff that Adjudication Bureau has reviewed the claim and is satisfied with it as Steenson states. On future transfers where the SRBA claim is still pending dept review, we should continue to use condition No. 5.

Please prepare and issue an amended transfer deleting conditions 1 and 5 and mail it out as an amended preliminary order. If the department receives another petition for reconsideration objecting to the conditions which we have not deleted, we will deny the petition.

Transfer 5173 changes the place of use under Rights 57-00084/00101/00111/00133/00146 and 57-02210A. The transfer is based on the SRBA Basin 57 current recommendations for these rights. The applicant is transferring 4 acres of irrigation developed on BLM land to his own land. The transfer is an effort to resolve SRBA objections and BLM has agreed with the proposal.

Diversion volume adjusted to current standards. Recommended conditions include watermaster control, measuring devices & lockable controlling works, irrigation overlap, combined right limits, supplemental groundwater and standard transfer conditions.
