License No. 55-7117 Priority 07/30/1979 Amount CFS 1.0 AF

THIS IS TO CERTIFY, that U.S. Dept. of Interior, Bureau of Land Management

of Boise, Idaho, has complied with the terms and conditions of

Permit No. 55-7117 issued pursuant to Application for Permit dated 07/30/1979, and has

submitted proof to the Department of Water Resources on 07/09/1981, that he has applied water to a

beneficial use; and examination by the Department indicates that the works have a capacity for the

storage of 1.0 af of water from an unnamed stream

tributary to sinks, and that the permit holder has

applied to a beneficial use and established a right to use water as follows:

RATE OF DIVERSION	VOLUME	BENEFICIAL USE	PERIOD OF USE
n/a	1.0 af	Storage for Stockwater	06/16 - 09/22
n/a	1.0 af	Storage for Wildlife	01/01 - 12/31

OF APPLICATIONS FOR PERMIT NOS. 55-7116,
55-7117, 55-7118, 55-7119, 55-7120, 55-7121,
55-7122 AND 55-7123 IN THE NAME OF THE
BUREAU OF LAND MANAGEMENT

MEMORANDUM DECISION
AND ORDER

On July 30, 1979, the Bureau of Land Management applied to the Department of Water Resources for Permit No. 55-7116 to appropriate one acre-foot of water to be diverted and use within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 15, Twp. 10S, Rge. 5W, Owyhee County, and for Permit No. 55-7117 to appropriate one acre-foot of water to be diverted and used within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 28, Twp. 10S, Rge. 5W, Owyhee County. On August 15, 1979, the Bureau of Land Management applied to the Department of Water Resources for Permit No. 55-7118 to appropriate one-acre foot of water to be diverted and used within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 14, Twp. 12S, Rge. 4W B.M., Owyhee County and for Permit No. 55-7119 to appropriate one-acre foot of water to be diverted and used within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 4, Twp. 10S, Rge. 5W B.M., Owyhee County and Permit No. 55-7120 to appropriate one-acre foot of water to be diverted and used within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, Twp. 10S, Rge. 5W B.M., Owyhee County and Permit No. 55-7121 to appropriate one-acre foot of water to be diverted and use within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 28, Twp. 10S, Rge. 5W B.M., Owyhee County and Permit No. 55-7122 to appropriate one-acre foot of water with a point of diversion and place of use within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Twp. 10S, Rge. 5W B.M., Owyhee County and Permit No. 55-7123 to appropriate one-acre foot of water with point of diversion and place of use within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, Twp. 12S, Rge. 4W B.M., Owyhee County. All applications list the source as a side drainage, tributary to sinks, and the purpose of all applications is water for stock and wildlife.

Notice of Application Nos. 55-7116 and 55-7117 were published in the Owyhee Nugget, Marsing, Idaho on August 23 and 30, 1979. Notice of Application Nos. 55-7118 through 55-7123 were published in the Owyhee Nugget, Marsing, Idaho on August 30 and September 6, 1979. A protest against the approval of all of the applications was received from Eric Knehans in behalf of the South Board of Control, Owyhee Project on September 10, 1979.

On November 7, 1979, a conference was held in Homedale, Idaho. The applicant was represented by Joseph B. Brooks, field solicitor, and Alan D. Tripp

MICROFILMED

and Oscar E. Anderson, both from the Bureau of Land Management. The protestant was represented by Eric Knehans and Carroll Johnston. The major issue raised was whether the applications would reduce the amount of runoff water available to fill the Owyhee Reservoir. The arguments of all parties were heard at the conference and it was agreed that the Director should reach a decision in the matter based upon the information gathered at the conference, and upon the official files and records of the Department.

Based upon the information presented at the conference, the official files and records of the Department of Water Resources and the Director's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, Analysis and Order:

FINDINGS OF FACT

1) The Bureau of Land Management manages the lands on which the proposed diversions are to be made for the United States Government and the primary use of the land is livestock grazing and wildlife habitat.

2) The dams and reservoirs will be used to water approximately 150 head of livestock for three months.

3) The number of livestock will not be increased over what has previously used the area.

4) The dams are small and were constructed in the summer of 1978.

5) The history of the Owyhee Reservoir shows that even in years when the reservoir has not filled, there has been sufficient water in the reservoir to meet the irrigation needs of the lands served by the reservoir.

6) There are years when there is more water available in the drainage than can be stored in the Owyhee Reservoir which results in spill past the reservoir.

7) The protestants stated they were not concerned about these particular applications because of their insignificant size, however, they are concerned that continued development in the Owyhee Drainage will eventually damage the water right held for the Owyhee Reservoir.

CONCLUSIONS OF LAW

1) There is unappropriated water in the Owyhee Basin that is in excess of the amount required to irrigate the lands under the Owyhee Project.

2) The livestock in the area in past years have watered at natural watering holes on sources in the Owyhee River Drainage and, therefore, the change in the place they water will have no detrimental effect upon the amount of water available to fill the Owyhee Reservoir.

3) None of the other items described in Section 42-203, Idaho Code, which may be considered by the Director in evaluating an application for permit were validly raised as issues at the conference.

4) The applicant is entitled to permits from the Department of Water Resources with certain conditions and limitations.

ANALYSIS

At the conference, the protestants stated they were not concerned about these filings of the Bureau of Land Management, particularly when it was made clear that the total storage of all eight reservoirs is approximately 4 acre-feet even though 8 acre-feet had been applied for. It was also pointed out that no additional livestock would be grazed in the area of these reservoirs and that they were constructed to provide easier access to water for the livestock. While there will undoubtedly be some evaporation loss and loss to deep percolation, this amount of loss will be minor and may be less than the loss that occurs in the stream and further will probably not have a measurable effect on the Owyhee Reservoir. Information was presented at the conference that in the 45 years through 1979, the reservoir has filled 24 times and has always provided sufficient storage for the lands within the Owyhee Project.

None of the reservoirs are located on flowing streams and will store water only during the early spring runoff conditions. Their construction in this fashion should not result in any conflict with natural flow irrigation rights in the Owyhee Basin.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Applications for Permit Nos. 55-7116, 55-7117, 55-7118, 55-7119, 55-7120, 55-7121, 55-7122 and 55-7123 be APPROVED subject to the following conditions:

- 1) These permits be and are subject to all prior water rights.
- 2) Proof of construction of works and application of water to beneficial use be submitted on or before September 1, 1981.

Dated this 7 day of August, 1980.

Gentlemen:

Re: Permit No's. 55-7116 to 55-7123

Enclosed are copies of your approved applications for permit along with a copy of the Memorandum Decision and Order. We direct your attention to the conditions of approval as set forth in the Memorandum Decision and Order.

Any person who does not agree with the decision of the Department may request a rehearing before the Director within twenty (20) days or may appeal directly to the district court within sixty days (60) days of the date the decision is mailed.

Sincerely,

A handwritten signature in cursive script that reads "L. Glen Saxton".

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTEST AGAINST APPROVAL)
OF APPLICATIONS FOR PERMIT NOS. 55-7116,)
55-7117, 55-7118, 55-7119, 55-7120,)
55-7121, 55,7122, & 55-7123 IN THE NAME)
OF BUREAU OF LAND MANAGEMENT)

NOTICE OF CONFERENCE

AND/OR HEARING

On June 30 and July 15, 1979, the Bureau of Land Management filed with the Department of Water resources applications to appropriate the public waters of the State of Iaho. On September 10, 1979 the Department received protests against approval of said applications from Erich Knehans, Secy,-Mgr. of the South Board of Control, Owyhee Project.

The Department has set the matter of protest for conference and/or hearing for Wednesday, November 7, 1979, at 10:30 a.m., at the Homedale Senior Citizens Center, Homedale, Idaho. Any hearing will be held in accordance with provisions of Chapter 2, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issued involved.

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

RECORDED
INDEXED

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties will be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 67-5211.

By written stipulation, the parties may waive compliance with Idaho Code, Section 67-5211. If the hearing is conducted by a hearing officer, the hearing officer will ask the parties at the close of the hearing whether they would like to make such a stipulation.

Failure to waive compliance with Idaho Code, Section 67-5211 will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 67-5211 is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the District Court.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department to dismiss without prejudice the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 15 day of October 1979.

Re: Applications for Permits #55-7116
and #55-7117

Dear Mr. Allred:

The South Board of Control Protest's the granting of Permits #55-7116 and #55-7117 to the U.S. Department of Interior, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702. Source: Side Drainage tributary to Sinks, Date Filed: 08/01/1979. Amount: 1.0 AC - Ft.

We Protest the use of this water as it infringes on the South Board of Control's water supply.

Sincerely,

Erich Knehans

RE: Application for Permit Nos. 55-7116, 55-7117, 55-7118, 55-7119, 55-7120,
55-7121, 55-7122, 55-7123

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to your Application No. See Above. The Department suggests you contact the protestant(s) directly in an effort to determine the nature of the protest(s) and to attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW
