comprising 19,669.60 acres of State lands.

The purpose of this exchange is to acquire State of Idaho endowment lands which have high public values for recreation and wildlife.

Included in this exchange are offered lands within the Owyhee Canyonlands Wilderness Study Area and the proposed Owyhee Canyonlands Wild and Scenic River designation. Wildlife values on the offered lands include approximately 6,600 acres of mule deer winter range, 4,800 acres of pronghorn habitat, and 14,000 acres of sage grouse habitat of which 2,500 acres are used for nesting. River otter, red band trout, and California bighorn sheep are three sensitive species found on the offered lands. The selected lands contain approximately four miles of red band trout habitat, 19,000 acres of mule deer summer range, and 6,600 acres of sage grouse habitat.

The value of the lands to be exchanged are approximately equal; equalization of values will be by deletion of State or Federal lands. The public interest will be served by completing this exchange.

Publication of this notice in the Federal Register segregates the public lands from the operation of the public land laws, including the mining laws for a period of two years from the date of first publication.

Further information concerning the exchange, including the environmental assessment is available for review at the Bureau of Land Management, Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.

For a period of 45 days from the date of first publication, interested parties may submit written comments to Martin J. Zimmer, Bureau of Land Management, Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.
