Two springs, each with a storage component, provide stockwater for 300 cattle, 4 months/year. The second spring, N. of spring #1, sits approx 200' SW of the old cabin, which also appears on the map. This spring was dug out with a backhoe to provide a rectangular and small "pond" for stock. This spring also flows in a natural drainage.

Dear Mr. Ferris:

Re: Permit No. 55-7058

Enclosed is the proof of beneficial use form submitted to this office on June 1, 1987.

Please be advised that the proof was originally submitted on October 24, 1977 and that it is not necessary to resubmit proof. The next step is for the department to conduct a field inspection. If you wish to have this process completed, feel free to contact our Western Regional office at 334-2190.

If you have any questions concerning this matter, please feel free to contact this office.

Dear Mr. Shurtliff:

Re: Permit Nos. 55-7058 and 55-7105

Pursuant to your letter of September 23, 1982, I have reviewed the department's records concerning the status of the above-referenced files.

Permit No. 55-7058 for stockwater of 300 head of cattle is in good standing. The next step is for the regional office to conduct a field examination of the water distribution system. This can be done by contacting our Western Regional office at 334-2190 and making an appointment with a field examiner.

Permit No. 55-7105 has permanently lapsed. There is no means by which it can be reinstated. A new application can, however, be filed showing the exact same information. This would renew the use into the department's records. As soon as this filing is approved, I suggest the permit holder submit the statement of beneficial use since the project is fully developed.

Finally, enclosed are the seven Application for Permit forms along with an instruction sheet.

If I can be of further assistance, please feel free to contact me.

Sincerely,

RITA I. FLECK
Sr. Secretary

Re: Donald J. and Grace H. Ferris, Star Route,
Jordan Valley, Oregon 97510, Permit Numbers
55-7058 and 55-7105

Dear Sirs:

Permit Number 55-7058 was approved November 7, 1972. It may have lapsed. Would you be so kind as to inform me in that regard?

Permit Number 55-7105 was approved April 26, 1977. By your letter of May 6, 1982, Mr. and Mrs. Ferris were notified that it had lapsed. In that regard, Mr. Ferris was confused and thought that everything had been done to complete the application and licensing process in regard to that permit. I am aware of your letter of May 6, 1982, and the statutes you refer to. We do not question that you correctly acted in causing Permit Number 55-7105 to lapse; however, we would appreciate being informed as soon as possible as to the course of action that will be required of Mr. and Mrs. Ferris to reinstate or renew that application. All of the work has been completed on that permit and the terms of the initial Permit Number 55-7105 have been complied with. Your advice and assistance in this regard will be appreciated.

Finally, I would appreciate your providing six (6) Application for Permit to Appropriate the Public Water of the State of Idaho forms.

Thank you.

Sincerely yours,

M. KARL SHURTLIFF

Dear Mr. Ferris:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Dear Mr. Ferris:

One of the conditions of approval of your water Permits, referenced above, was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977 (see last page of approved permits). Enclosed is an affidavit form which must be used to submit the required proof of beneficial use on each of the above permits.

If you have not fully completed your projects, and you have not previously received an extension of time, you may request extensions of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavits or requests for extensions of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
