IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. **55-7002**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

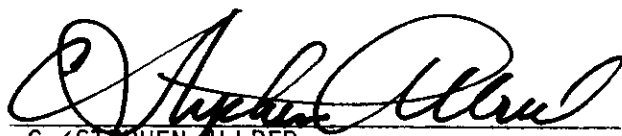

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

- 2 Source of water supply Shoo Fly Creek which is a tributary of E. Fk. Owyhee
3. a. Location of point of diversion is NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 26 Township 13 S
Range 1 E B.M. Owyhee County; additional points of diversion if any: _____

- b. If water is not consumed, it will be discharged into _____ at a point in _____ $\frac{1}{4}$
of _____ $\frac{1}{4}$ of Section _____ Township _____ Range _____ B.M.
- 4 Quantity to be appropriated:
a _____ cubic feet per second and/or
b 820 acre feet per annum will be stored.
- 5 Water will be used for the following purposes.
storage purpose from Sept. 1 to July 1 (both dates inclusive)
irrigation purpose from April 1 to October 31 (both dates inclusive)
_____ purpose from _____ to _____ (both dates inclusive)
6. Proposed diverting works
a. Description of ditches, flumes, pumps, headgates, etc. plans submitted previously

- b Height of storage dam 42 feet; active reservoir capacity 1075 acre feet, total reservoir
capacity 1100 acre feet, materials used in storage dam. earthfill

- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- 7 a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years.
b. Estimated construction cost is \$ 55,000.
8. Description of proposed uses.
a. If water is **not** for irrigation.
(1) Give the place of use of water _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.
(5) If water is to be used for other purposes describe. _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below

TWP	RANGE	SEC	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
13 S	1 E	26																40	40
		25									40	40	40	40	40	40	40	40	320

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

DECEMBER 31, 1979

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 55-7002 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MARCH 01, 1980. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

RITA FLECK

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

Sincerely,

DAVID R. TUTHILL, JR.
Supervisor, Water Allocations Section

Dear Mr. Jackson:

You recently submitted an extension of time request for Permit No. 55-7002. However, this permit is in the name of Riddle Ranches, Inc., and therefore, the corporation, as the owner, must request the extension of time.

We are, therefore, returning the extension request to you for modification. You must sign it as an officer of the Riddle Ranches, Inc., and return it to us before the March 1, 1975, due date.

If you have any questions, please let us know.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Permit No. 55-7002

Peter Jackson of Riddle, via Grasmere
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 55-7002.

That under the terms and conditions of said permit, work thereunder was required to be completed by March 1, 19 75.

That he has heretofore performed the following work described under said permit:
15-16 feet of dam height is completed - 50% dam fill

Costing \$ _____

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Had to shut down in 1973 due to
fuel shortage

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to March 1, 19 80.

Re: Permit No. 55-7002

Riddle Ranches, Inc.
Riddle,
Idaho

Gentlemen:

One of the conditions of approval of your water Permit No. 55-7002 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

OF THE
STATE OF IDAHO

In the Matter of Application for)
Permit No. 55-7002 in the name of)
RIDDLE RANCHES, INC.)

MEMORANDUM DECISION

Application for Permit No. 55-7002 was filed on April 17, 1969, by Riddle Ranches, Inc., Riddle, Idaho. The Application seeks a permit to store an additional 820 acre feet of water per annum by enlargement of an existing earth-filled dam and reservoir on Shoo Fly Creek, a tributary of the East Fork of the Owyhee River. The dam is located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 26, T. 13 S., R. 1 E., Owyhee County. Water is to be used for irrigation of 1,600 acres of land in T. 13 S., R. 1 E.; T 14 S., R. 1 E.; and T. 14 S., R. 2 E., B.M. Notice of the Application was published in the Owyhee Chronicle on May 15 and 22, 1969. A protest was received from the South Board of Control, Owyhee Project, and the Gem Irrigation District. On May 28, 1969, additional information was submitted regarding the items of protest.

A hearing was set for August 25, 1969, and the parties duly notified. On August 14, 1969, a stipulation from the parties involved was received agreeing to vacate the hearing date. On August 26, 1969, an informal conference was held to discuss the issues involved. A hearing was held on September 20, 1969, in the office of the Department of Reclamation. The applicants were represented by William F. Ringert, Attorney at Law, Boise, Idaho. The protestants were represented by Maurice H. Greene, Attorney at Law, Boise, Idaho. The applicants presented evidence that they were presently storing spring runoff from Shoo Fly Creek when available, and were presently diverting all the water except during extremely high flows. The Application under consideration includes lands presently being irrigated and some new lands. The protestants presented evidence as to the topography of the proposed site of the reservoir and existing stock pond, and contended that the old dam was washed out prior to 1959 and had not been used since. On cross-examination, Mr. Jackson, representing Riddle Ranches, testified that water had been diverted at the old damsite since 1959.

The applicant called Mr. Keith Anderson, Professional Engineer, as a witness. Mr. Anderson gave testimony as to the hydrologic characteristics of the area involved in the application and information as to the water supply and records of the Owyhee Project. Mr. Anderson testified that, in his opinion, the proposed project would not significantly affect the Owyhee Project storage. The protestants called Mr. Tom Cotton, Manager of the Owyhee Project South Board of Control, who gave testimony regarding the water rights of the Project and his opinion as to the effects of the proposed appropriation. The Department of Reclamation took official notice of the records of the U. S. Geological Survey relating to storage of the Owyhee Reservoir and flows of the Owyhee River and tributaries. Four exhibits were submitted by the applicant. Exhibit A-1 was a map showing the drainage and location of the proposed reservoir. Exhibit A-2 was a letter from the Bank of Idaho to the effect that Peter Jackson, President of Riddle Ranches, had been granted an unsecured line of credit in the amount of \$200,000, of which \$85,000 had been used at the present time. Exhibit A-3 was a graph showing the end-of-month contents of the Owyhee Reservoir from 1936 through 1968. Exhibit A-4 was a schematic diagram of Lake Owyhee and Owyhee Reservoir, giving elevation of sluice gates, diversion tunnels and spillway, and maximum and minimum contents. The protestants submitted two exhibits. Exhibit P-1 was pictures of the proposed reservoir site, and Exhibit P-3 was data describing the amount of water used by the Owyhee Project, irrigated acreage of the Owyhee Project, and the amount of water spilled and maximum date of that storage of the Owyhee Reservoir.

Records of the Department of Reclamation show that the Owyhee Project's water right consists of three certificates issued by the State of Oregon which have been confirmed by the State of Idaho: (1) Storage certificate under Permit R-599 for 700,000 acre feet of water, issued on April 15, 1959; (2) Certificate for the diversion of 1,718 cubic feet per second, issued on April 15, 1959; and (3) Storage certificate under permit R-1764 for 420,000 acre feet of water, issued on April 15, 1959.

Protestants' Exhibit P-3 indicated that the reservoir spilled in 1951, 1952, 1957, 1958 and 1965, and indicated that only during the years 1955, 1956, 1962, 1963 and 1964 was there not a considerable holdover storage in the reservoir at the end of the season. However, it appears that even during those low holdover years

there was water above the outlet gate elevation. Records of the U. S. Geological Survey indicate that at the Rome, Oregon, gage on the Owyhee River located above Owyhee Reservoir, flows exceed the 1,718 c.f.s. an average $2\frac{1}{2}$ months per year. Average flow during the months of March through September for the period 1951-1960 was 1,272 c.f.s. Average flows for the months of March, April, May and June were 1,784, 3,767, 2,094 and 838 c.f.s., respectively.

In issuing a permit to appropriate the public waters of the State of Idaho, the State Reclamation Engineer must consider the amount of water which has been appropriated by reason of prior permits and associated works. He must also consider the amount of water which is available for that appropriation, and he is prohibited from issuing a License which would cause injury to prior rights. The State Reclamation Engineer must also consider three additional items, described in Section 42-203, Idaho Code: (1) That the water supply is sufficient for the purpose intended; (2) That the application is made in good faith and not for delay or speculative purposes; or (3) That the applicant has sufficient financial resources to complete the project. In the event that the application is found to be deficient in any of those points, the State Reclamation Engineer may deny the permit or issue it in part.

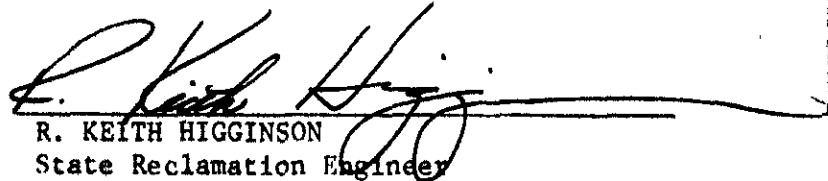

In this instance the applicant has submitted evidence to support those three points. The primary issue of contention was whether or not there was a water supply available for the appropriation. There appears to be conclusive evidence that the Owyhee Reservoir spills or releases water on occasion that is not applied to beneficial use by the protestants. Those spills or releases are at times the result of carry-over storage from the previous season or seasons of operation, and as a result it appears to the State Reclamation Engineer that there is unappropriated public water in the irrigation system during those times of spills or releases. Recognizing that these spills or releases are partly unused holdover water from previous seasons, it must follow that such waters have not been applied to beneficial use by the Owyhee Project and therefore no right to such water previously existed. The Department of Reclamation recognizes the importance of carry-over or holdover storage for providing water during periods of below-normal streamflow. However,

it also recognizes that the mere existence of a reservoir with a capacity to catch or hold more than the seasonal needs of an applicant is not in and of itself sufficient to substantiate an appropriation of the entire flow of that stream or river system. There must be a subsequent release of stored water and application of that water to beneficial use over a period of time.

After considering the evidence presented at the hearing, the State Reclamation Engineer finds that the protestants have failed to submit sufficient evidence to show that the storage use of water under Application No. 55-7002 would interfere with the protestants' ability to obtain sufficient water from the Owyhee Reservoir, its tributaries and other supplemental sources, to meet the beneficial requirements of the Project. It consequently will not interfere with their water rights.

IT IS THEREFORE ORDERED and the protest against the issuance of Permit No. 55-7002 is hereby DENIED.

Dated this 4TH day of March 1970.

R. KEITH HIGGINSON
State Reclamation Engineer

NOTICE OF CONFERENCE
AND/OR HEARING FOR PROTEST

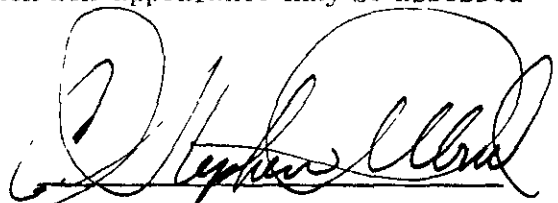

On April 17, 1969, Harley M. McDowell filed with the Department of Reclamation an application, in behalf of Riddle Ranches, Inc., to appropriate the public waters of the State of Idaho. On May 19, 1969, the Department of Reclamation received a protest filed by Gem Irrigation District and the South Board of Control, Owyhee Project, Homedale, Idaho.

A conference and/or hearing was previously set, on this matter, for August 26, 1969, but was vacated at the request of legal counsel, both for the applicant and the protestant. The Department of Reclamation has reset the matter of protest for conference and/or a hearing on September 30, 1969, at 10.30 a.m., at the office of the State Reclamation Engineer, State House Annex 2, Boise, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Reclamation. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

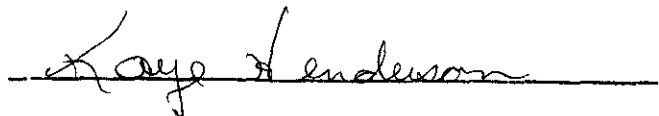

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department of Reclamation without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 12th day of September, 1969.

C. Stephen Allred, Assistant
State Reclamation Engineer

Re: Application of Riddle Ranches, Inc.,
for Permit No. 55-7002

Dear Mr. Allred:

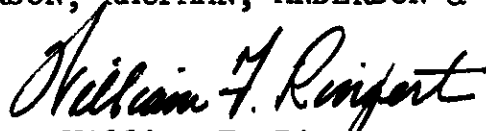

Herewith is Stipulation made by the applicant and the protestants to the effect that the application and protests may be set for hearing on September 30, which please file in the above entitled matter in your office.

Please reset the hearing date for September 30 in accordance with the Stipulation.

MEMO

Re: Permit Application No. 55-7002

A conference was held at the office of the Department of Reclamation, on August 26, 1969. The applicant was present and was represented by Eugene H. Anderson, Attorney at Law, Boise, Idaho. The protestant was represented by Peter Boyd, Attorney at Law, Boise, Idaho. The application was discussed and the point at issue appeared to be whether water was available and if it is available will this appropriation affect prior rights of the South Board of Control.

Previous to the conference, it had been stipulated and agreed upon by the department that a hearing would be held at a later date. At the conference, both parties stipulated and agreed that a hearing be held on September 23, 1969, at 10:30 a.m., in the office of the Department of Reclamation. They agreed to waive formal notice of the hearing and were advised that a notice would be sent on the 15th of September, 1969, if the department had not been notified that an agreement had been reached. The parties agreed to pursue the matter with a field inspection and attempt to reach an agreement among themselves.

Dated: September 4, 1969

Attn: Eugene H. Anderson

Dear Mr. Anderson:

Please be advised that on August 19, 1969, the Department of Reclamation received a signed stipulation from the legal council for the permit holder and protestant for the above referenced permit.

The Department of Reclamation hereby agrees to vacate the hearing set for August 26, 1969, at 11:00 a.m., in favor of an informal conference to be held at 1:30 p.m., August 26, 1969, in the office of the State Reclamation Engineer, Statehouse Annex 2, Boise, Idaho.

If the matters of the protest are not resolved, the Department of Reclamation shall have the option to schedule a formal conference and/or hearing to resolve the matters at hand.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer

Dear Sir:

Please be advised that on August 19, 1969, the Department of Reclamation received a signed stipulation from the legal council for the permit holder and protestant for the above referenced permit.

The Department of Reclamation hereby agrees to vacate the hearing set for August 26, 1969, at 11:00 a.m., in favor of an informal conference to be held at 1:30 p.m., August 26, 1969, in the office of the State Reclamation Engineer, Statehouse Annex 2, Boise, Idaho.

If the matters of the protest are not resolved, the Department of Reclamation shall have the option to schedule a formal conference and/or hearing to resolve the matters at hand.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer

Dear Mr. McEldowney:

Herewith are stipulations in the above captioned matters for conference at 1:30 o'clock P.M., August 26, 1969, at your office.

The parties feel that the conferences can be held successively during the afternoon since the parties are all the same.

I have your letter of August 15, 1969, setting Application No. 55-7002 for conference at 11:00 A.M. that day, but Mr. Greene advises that he will not be available until 1:30 P.M. so I respectfully request that you enter the order setting all of the above matters for conference at 1:30 P.M. on August 26.

Yours very truly,

ANDERSON, KAUFMAN, ANDERSON & RINGERT

BEFORE THE STATE RECLAMATION ENGINEER
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT)
NO. 55-7002 in the name of RIDDLE RANCHES, INC.)

NOTICE OF CONFERENCE
AND/OR HEARING FOR PROTEST

On April 17, 1969, Harley M. McDowell filed with the Department of Reclamation an application, in behalf of Riddle Ranches, Inc., to appropriate the public waters of the State of Idaho. On May 19, 1969, the Department of Reclamation received a protest filed by Gem Irrigation District and the South Board of Control, Owyhee Project, Homedale, Idaho.

The Department of Reclamation has set the matter of protest for conference and/or a hearing on August 25, 1969 at 1:30 p.m., in the Owyhee County Court House, Murphy, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Reclamation. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

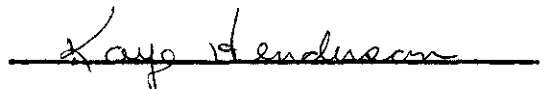

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department of Reclamation without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 16 day of July, 1969.

C. Stephen Allred, Assistant
State Reclamation Engineer

Mailed this 16th day of July, 1969, to Riddle Ranches, Inc., Riddle, Idaho certified no. 21139; Anderson, Kaufman, Anderson and Ringert, Attn: Eugene H. Anderson, Idaho Building, P.O. Re: Riddle Ranches Application for Permit
No. 55-7002

I write for Riddle Ranches, Inc.

I have before me your letter of May 26, 1969, with copy of letter of protest from Tom Cotton, secretary of South Board of Control and Gem Irrigation District.

The protest of Tom Cotton states: "We are protesting this on the same basis that we have submitted to your department on previous cases which involve waters of the Owyhee watershed."

I shall surely appreciate it if you will let me know what this "same basis" may be.

The protest does not set forth any grounds for protest.

Yours very truly,

ANDERSON, KAUFMAN, ANDERSON & RINGERT

Mr. Keith Higginson
State Reclamation Engineer
State Department of Reclamation
Boise, Idaho

Dear Mr. Higginson,

I wish to furnish you a more detailed explanation of the South Board of Control, Owyhee Project and Gem Irrigation District protest to the Notice of Application For Water, application No. 55-7002 made by Riddle Ranches, Inc.

Our original letter of protest was sent to you May 16, 1969 and this letter should be considered as supplemental to that.

The Owyhee River and its tributaries are fully appropriated except for years when the Owyhee Reservoir fills and spills. In the past 23 years this fill and spill condition has happened six times, which includes this year. There was one span of six years when it did not fill at all, (1959 through 1964).

The Owyhee Project waterrights are filed in Oregon and have also been established for water originating in Idaho. This was verified by a letter dated September 8, 1960 from George Carter who was at that time State Reclamation Engineer.

Our storage certificate allows for 715,000 acre feet of live storage plus 420,000 acre feet of dead storage. The certificate for diversion allows for 1718 cubic feet per second.

The South Board of Control directors do not feel that there is sufficient water to allow anymore diversion from the Owyhee River or its tributaries.

Yours very truly,

Tom Cotton

Re: Application for Permit No. 55-7002

Riddle Ranches, Inc.
Riddle, Idaho

Gentlemen:

Enclosed you will find a protest filed against the issuance of permit pursuant to your Application No. 55-7002, by Mr. Tom Coston in behalf of South Board of Control, Owyhee Project.

As you are aware, the following are the only provisions which can be evaluated in connection with official protests:

1. Whether or not the source of water supply is public water and is subject to appropriation.
2. Whether or not there is sufficient water supply at anytime during a five (5) year period for this application under its proposed priority.
3. Whether or not the application is made in good faith or for delay or speculative puposes.
4. Whether or not the lands to be irrigated are covered by a perfected water right which provides 1/50 cubic foot per second of water per irrigated acre and/or 5 acre feet per annum per irrigated acre.

It will be necessary in the hearing for you to make a minimum showing concerning each of these points. Legal council is not mandatory, although you may desire to employ an attorney. You may also, if you so desire, submit a written answer to the protest within ten (10) days.

The State Reclamation Engineer may reject such application and refuse issuance of permit therefor, or may partially approve and grant permit for a

55 7002

Riddles Ranches, Inc.
Page 2

less quantity of water than applied for or may grant permit upon conditions.

A permit issued by this office does not in anyway convey or establish right-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by individuals through action outside of the water right proceedings.

If you have any questions, please contact this office.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

C
Mr. Tom Cotton, Secty, Magr.
South Board of Control, Owyhee Project
Gem Irrigation District
Homedale, Idaho

O
Dear Mr. Cotton:

We are in receipt of your correspondence concerning the above referenced. The following are the only provisions which can be evaluated in connection with official protests:

- P
Y
1. Whether or not the source of water supply is public water and is subject to appropriation.
 2. Whether or not there is sufficient water supply at anytime during a five (5) year period for this application under its proposed priority.
 3. Whether or not the application is made in good faith or for delay or speculative purposes.
 4. Whether or not the applicant possesses sufficient financial resources to complete the project.
 5. Whether or not the lands to be irrigated are covered by a perfected water right which provides 1/50 cubic foot per second of water per irrigated acre and/or 5 acre feet per annum per irrigated acre.

If you cannot substantiate an official protest based on the above reasons, you may wish to file a letter of concern which could be evaluated in final action on the above referenced. A letter of concern should identify a specific appropriator, and the water right document by number. It must also set forth in detail your reasons for concern as connected with this water right document. Also in order for your letter of concern to be properly evaluated at anytime in the future, it should take affidavit form.

Please bear in mind that the State Reclamation Engineer may reject such application and refuse issuance of permit therefor, or may partially approve

Mr. Tom Cotton
Page 2
May 26, 1969

and grant permit for a less quantity of water than applied for or may grant permit upon conditions.

A permit issued by this office does not in anyway convey or establish rights-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by the individuals concerned through action outside of the water right proceedings.

If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Application for Permit No. 55-7002-Riddles Ranches, Inc.

Owyhee Chronicle
Homedale, Idaho

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney
