Ans. SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10, T.8 N., R. 2 W., B. 1.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2.02 cubic ft. per second, when I have seen conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic. 10 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 11; 15 acres NW $\frac{1}{4}$ NW $\frac{1}{4}$, 25 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$, 20 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$, 15 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$ and 15 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 12; same township and range; 20 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 10, same township and range. All cultivated.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation and domestic use only.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Volcanic ash; all the water allowed under the terms of the permit are required for its profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All of the water has been used since 1920 annually during the months of April, May, June and July.

Deponent further states that under the terms of her permit which was approved by the State Engineer on October 18, 1923, the whole of the works described in the application were to be completed by October 18, 1923. She states that these irrigation works comprising four diversion dams and five ditches, the latter being respectively one and a quarter miles, three-quarters of a mile, and two hundred yards and two ditches one-half mile long, were completed prior to October 18, 1923 but that she received no official notice to the effect that proof of completion of works had been made. As deponent had in mind the approximate date for the final proof, or proof of beneficial use which

was approximately five years later, and as deponent knew that all the terms and conditions of the permit had been met up to the present time she did not realize that it was necessary for her to appear and swear to the facts in connection with the completion of the works until she had occasion to refer to the details of this water permit in connection with an application which she has just made in the United States Land Office which required reference to her water permit. Upon discovering that proof of completion of works was due last fall deponent proceeded immediately to make such proof and is submitting this affidavit to explain why the proof was not submitted prior to October 18, 1923 altho the works had been fully completed prior to that time.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Margaret J. Nettleton,
Murphy, Idaho.

Boise, Idaho,
July 11, 1923.

Dear Sir:—

Under the terms of your permit No. ~~14342~~ you are required to complete your diversion works on or before ~~Oct. 18, 1923.~~ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. SWENSON.
