#### GENERAL INFORMATION ON PETAN RESERVOIR

Petan Company engaged Joe Thackaberry of Idaho Land & Map Service to survey the locations of their reservoirs after they were constructed. BLM surveyed the locations of the reservoirs at a later date and described the location of some of them as being different from the locations described by Mr. Thackaberry. Information obtained by this department indicates that the BLM survey was conducted by summer help and would therefore be more suspect than the survey done by Mr. Thackaberry who is an experienced surveyor. Locations found by Mr. Thackaberry have been visually confirmed by overflight in a helicopter and are the locations used in licensing. There are many other small stock water reservoirs in the same area; this might explain some of the differences in location and description when BLM and Thackaberry accounts do not agree.

Dear Mr. Watts:

I am writing in answer to your letter of November 7, 1967, concerning Petan Company water appropriation permits.

I was sorry that we could not make a field examination last year, due to the bad weather and muddy conditions in the inspection area. This year I hope that we do not have the same problem.

I would suggest that we plan to inspect at the earliest possible time and hope the weather remains good. This year, I am sure, and inspection could be completed in one day, with the use of our helicopter. I and the helicopter can be at your disposal for this purpose and I can take two men in the aircraft, if you feel more than one is necessary to do the job.

I hope to hear from you soon and also that the weather will not hinder us again.

Sincerely,

PETAN COMPANY

Dear Sir:

This department has issued nineteen permits for water appropriation that have been completed by Petan Company and need only field examination before water licenses can be issued.

We would like to arrange for someone familiar with the permits to go over the project with one of our examiners sometime in the near future. We would appreciate any suggestions you might have as to when and how the examinations could best be completed.

Very truly yours,

Dear Mr. Dorsey:

I'm sorry I wasn't in the office when you called last Friday,  
November 13th.

I would like to get some of the permits inspected if possible,  
but you know the country and conditions much better than I so  
I am leaving the date of inspection to your judgment. If you  
think we can get to some of the locations without any trouble,  
that will be fine. If you are doubtful, we will hold off  
until next year.

Please inform me when a favorable time would be.

Harley M. McDowell  
Box 2161  
Boise, Idaho

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. R-1130. The proofs are to be made at 10:30 o'clock A. M., on the 20th day of December, 1963, before Joan H. Bain, Notary Public.

As of this date we have mailed the Notice to the Owyhee Nugget, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

~~RECEIVED~~ CARL E. TAPPAN
