GENERAL INFORMATION ON PETAN RESERVOIR

Petan Company engaged Joe Thackaberry of Idaho Land & Map Service to survey the locations of their reservoirs after they were constructed. BLM surveyed the locations of the reservoirs at a later date and described the location of some of them as being different from the locations described by Mr. Thackaberry. Information obtained by this department indicates that the BLM survey was conducted by summer help and would therefore be more suspect than the survey done by Mr. Thackaberry who is an experienced surveyor. Locations found by Mr. Thackaberry have been visually confirmed by overflight in a helicopter and are the locations used in licensing. There are many other small stock water reservoirs in the same area; this might explain some of the differences in location and description when BLM and Thackaberry accounts do not agree.
