APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of IdahoApplication No. R 28061
Permit No. R 657

1. Name of Applicant: EARL P. RIDDLE

Postoffice address: Riddle

County Owyhee

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 1200 acre feet per annum.
3. Source of water supply is Payne Creek ~~Payne Creek~~, a tributary of Blue Creek ~~Payne Creek~~.
4. The outlet of the proposed reservoir is located (bearing) feet, distant from the corner of Section , Township , Range , B. M. and is in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 34 , Township 13 S. , Range 3 E. , B. M. County of Owyhee
5. Fill out either (a) or (b).
(a) The reservoir is located in the channel of Payne Creek ~~(Creek) (River)~~.
(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from the corner of Section , Township , Range , B. M., and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range , B. M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.
6. (a) The area of the high water line of the reservoir is 60 acres.
(b) The reservoir capacity is 1200 acre feet.
7. Height of reservoir dam 32 feet, length at top 265 feet, length at bottom 8- feet, size of outlet 2.5 feet by 2.0 feet. The dam is to be constructed of materials as follows:

Earth, stone and concrete

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of Payne Creek ~~(Creek) (River)~~? No.
(b) Water stored in reservoir will be carried in the channel of Payne Creek ~~(Creek) (River)~~ distance of $1\frac{1}{4}$ miles to point of diversion located N 50° 47' W. 1230 feet, distant from the W. $\frac{1}{4}$ corner of Section 3 Township 14 S. , Range 3 E. , B. M., and in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 4 , Township 14 S. , Range 3 E. B. M.
9. Amount of water claimed from (Creek) (River) (Spring) in addition to that stored in reservoir cubic feet per second.
10. Water is to be used for Irrigation and domestic purposes.
11. If for mining, milling, power or manufacturing purposes give:
(a) Point of use of water (bearing) feet, distant from Corner of Section , Township , Range B. M. and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range , B. M.
(b) Amount of power generated: H. P., under feet head.
(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section , Township , Range , B. M., in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range B. M.
12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: Canal

(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 2 feet, Height 3 feet.

16. Diversion Canal: Width at bottom 6 feet, width at water line 9 feet, depth of water $1\frac{1}{2}$ feet, Dimensions of Flume Diameter of Pipe inches; Length of Conduit $3\frac{1}{2}$ miles. Average grade per mile 6.4 feet.

17. Estimated cost of Works: Storage Works: \$ 3,500 Diversion Works: \$ 6,000

18. Time required for completion of work 5 years.

19. Time required for complete application of water to proposed beneficial use is 6 years.

20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

PERMIT NO. R-657

CERTIFICATE OF COMPLETION OF RESERVOIR AND RIGHT TO STORE WATER

Amount 760 Acre Feet

Priority Nov. 16, 1938

This is to certify that EARL P. RIDDLE, of Riddle, County of Owyhee, and State of Idaho, the holder of Permit No. R-657, issued upon Application No. R-26061, bearing date of priority of November 16, 1938, authorizing the construction of a reservoir and the right to store the waters of Payne Creek, a tributary of Blue Creek, County of Owyhee, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works as set out and described in said Permit; that said works are adequate for the storage of 760 acre feet of water annually; that the location of the outlet of said reservoir is in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 34, Township 12 S., Range 3 E, Boise Meridian; that a right to store the said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer and entered of record in Volume R-8 of Permits, at page 657, records of the Department of Reclamation, on the 19th day of November, 1943; that the right hereby confirmed dates from November 16, 1938; and that the amount of water to which said right is, by this certificate, entitled to store annually, shall not exceed 760 acre feet.

Witness the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 19th day of November, A. D. 1943.

15-157
P. O. Box 1051
Caldwell, Idaho
October 15, 1951

Mr. Earl P. Riddle
Riddle, Idaho

Dear Sir:

The volume of fill material required to raise your Payne Creek Dam four (4) feet as we staked it October 10, 1951, is 5,892 cubic yards.

Prepare the foundation and the portion of the dam to be covered by removing all brush, roots, humus and loose or broken rock. Scarify the foundation or roughen by plowing with furrows from 2 to 3 feet apart running in a direction parallel to the axis of the dam. Moisten if needed and compact the foundation before placing the first layer of fill material. Stair step the lower slope of the dam with 2 to 4 foot steps. Key the new fill to the top of the dam or plow furrows from 2 to 3 feet apart parallel to the axis of the dam. Moisten and pack the surface of the dam before applying fill material.

Fill material shall be placed in uniform approximately horizontal layers not more than eight (8) inches deep. Each layer shall be adequately packed with a sheepsfoot roller or similar equipment before spreading the next layer. The spreading and packing equipment should travel parallel to the axis of the dam. The moisture content of the fill material shall be maintained to permit proper compaction by sprinkling in either fill or barrow area. All brush, roots, humus, and loose or broken rock shall be removed from the barrow area.

The down stream toe of the dam shall be drained by excavating a trench and filling it with rock or large gravel with the small particles removed or screened out, or by excavating a trench and laying four (4) inch drain tile set in gravel.

A reinforced concrete structure for the spillway will be designed to fit the conditions after the fill material is placed. This structure shall be tied into the main dam and down into the rock of the spillway.

12-1

Extend rock riprap two (2) feet above the new water surface. To qualify for A.C.P. assistance the extension of the outlet conduit must be of concrete or steel pipe with cutoff walls not more than 15 feet apart. Cutoff wall shall extend at least 2 feet from the pipe in all directions.

Very truly yours,

Wilson D. Baldridge

Re: Permit No. R-657

Mr. Earl P. Riddle
Riddle, Idaho

Dear Mr. Riddle:

We enclose herewith License and Certificate of Water Right issued under the above numbered permit, confirming your right to construct a reservoir and store and appropriate 460 acre feet per annum of the waters of Payne Creek, Owyhee County, with point of outlet in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 13 South, Range 3 East, B.M., and point of re-diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Township 14 South, Range 3 East, B.M., for irrigation and domestic use, with priority date of November 16, 1938.

We also enclose Departmental Receipt # 19723 for the \$5.00 fee paid by you in connection with this proof.

Very truly yours,

MARK H. KULP
State Reclamation Engineer

Re: Permit No. R-657

Mr. Earl P. Riddle
Riddle, Idaho

Dear Mr. Riddle:

We acknowledge receipt of the depositions of yourself and two witnesses, and also the affidavit of publication in the Owyhee Nugget, all in proof of beneficial use under the above numbered permit.

We also have on file the report of the Field Engineer an examination of this project.

Since these samelands are included in your former Permit No. 376, the only fee due at this time will be \$5.00 for examination of the works- upon receipt of which a License will be issued for an additional 460 acre feet.

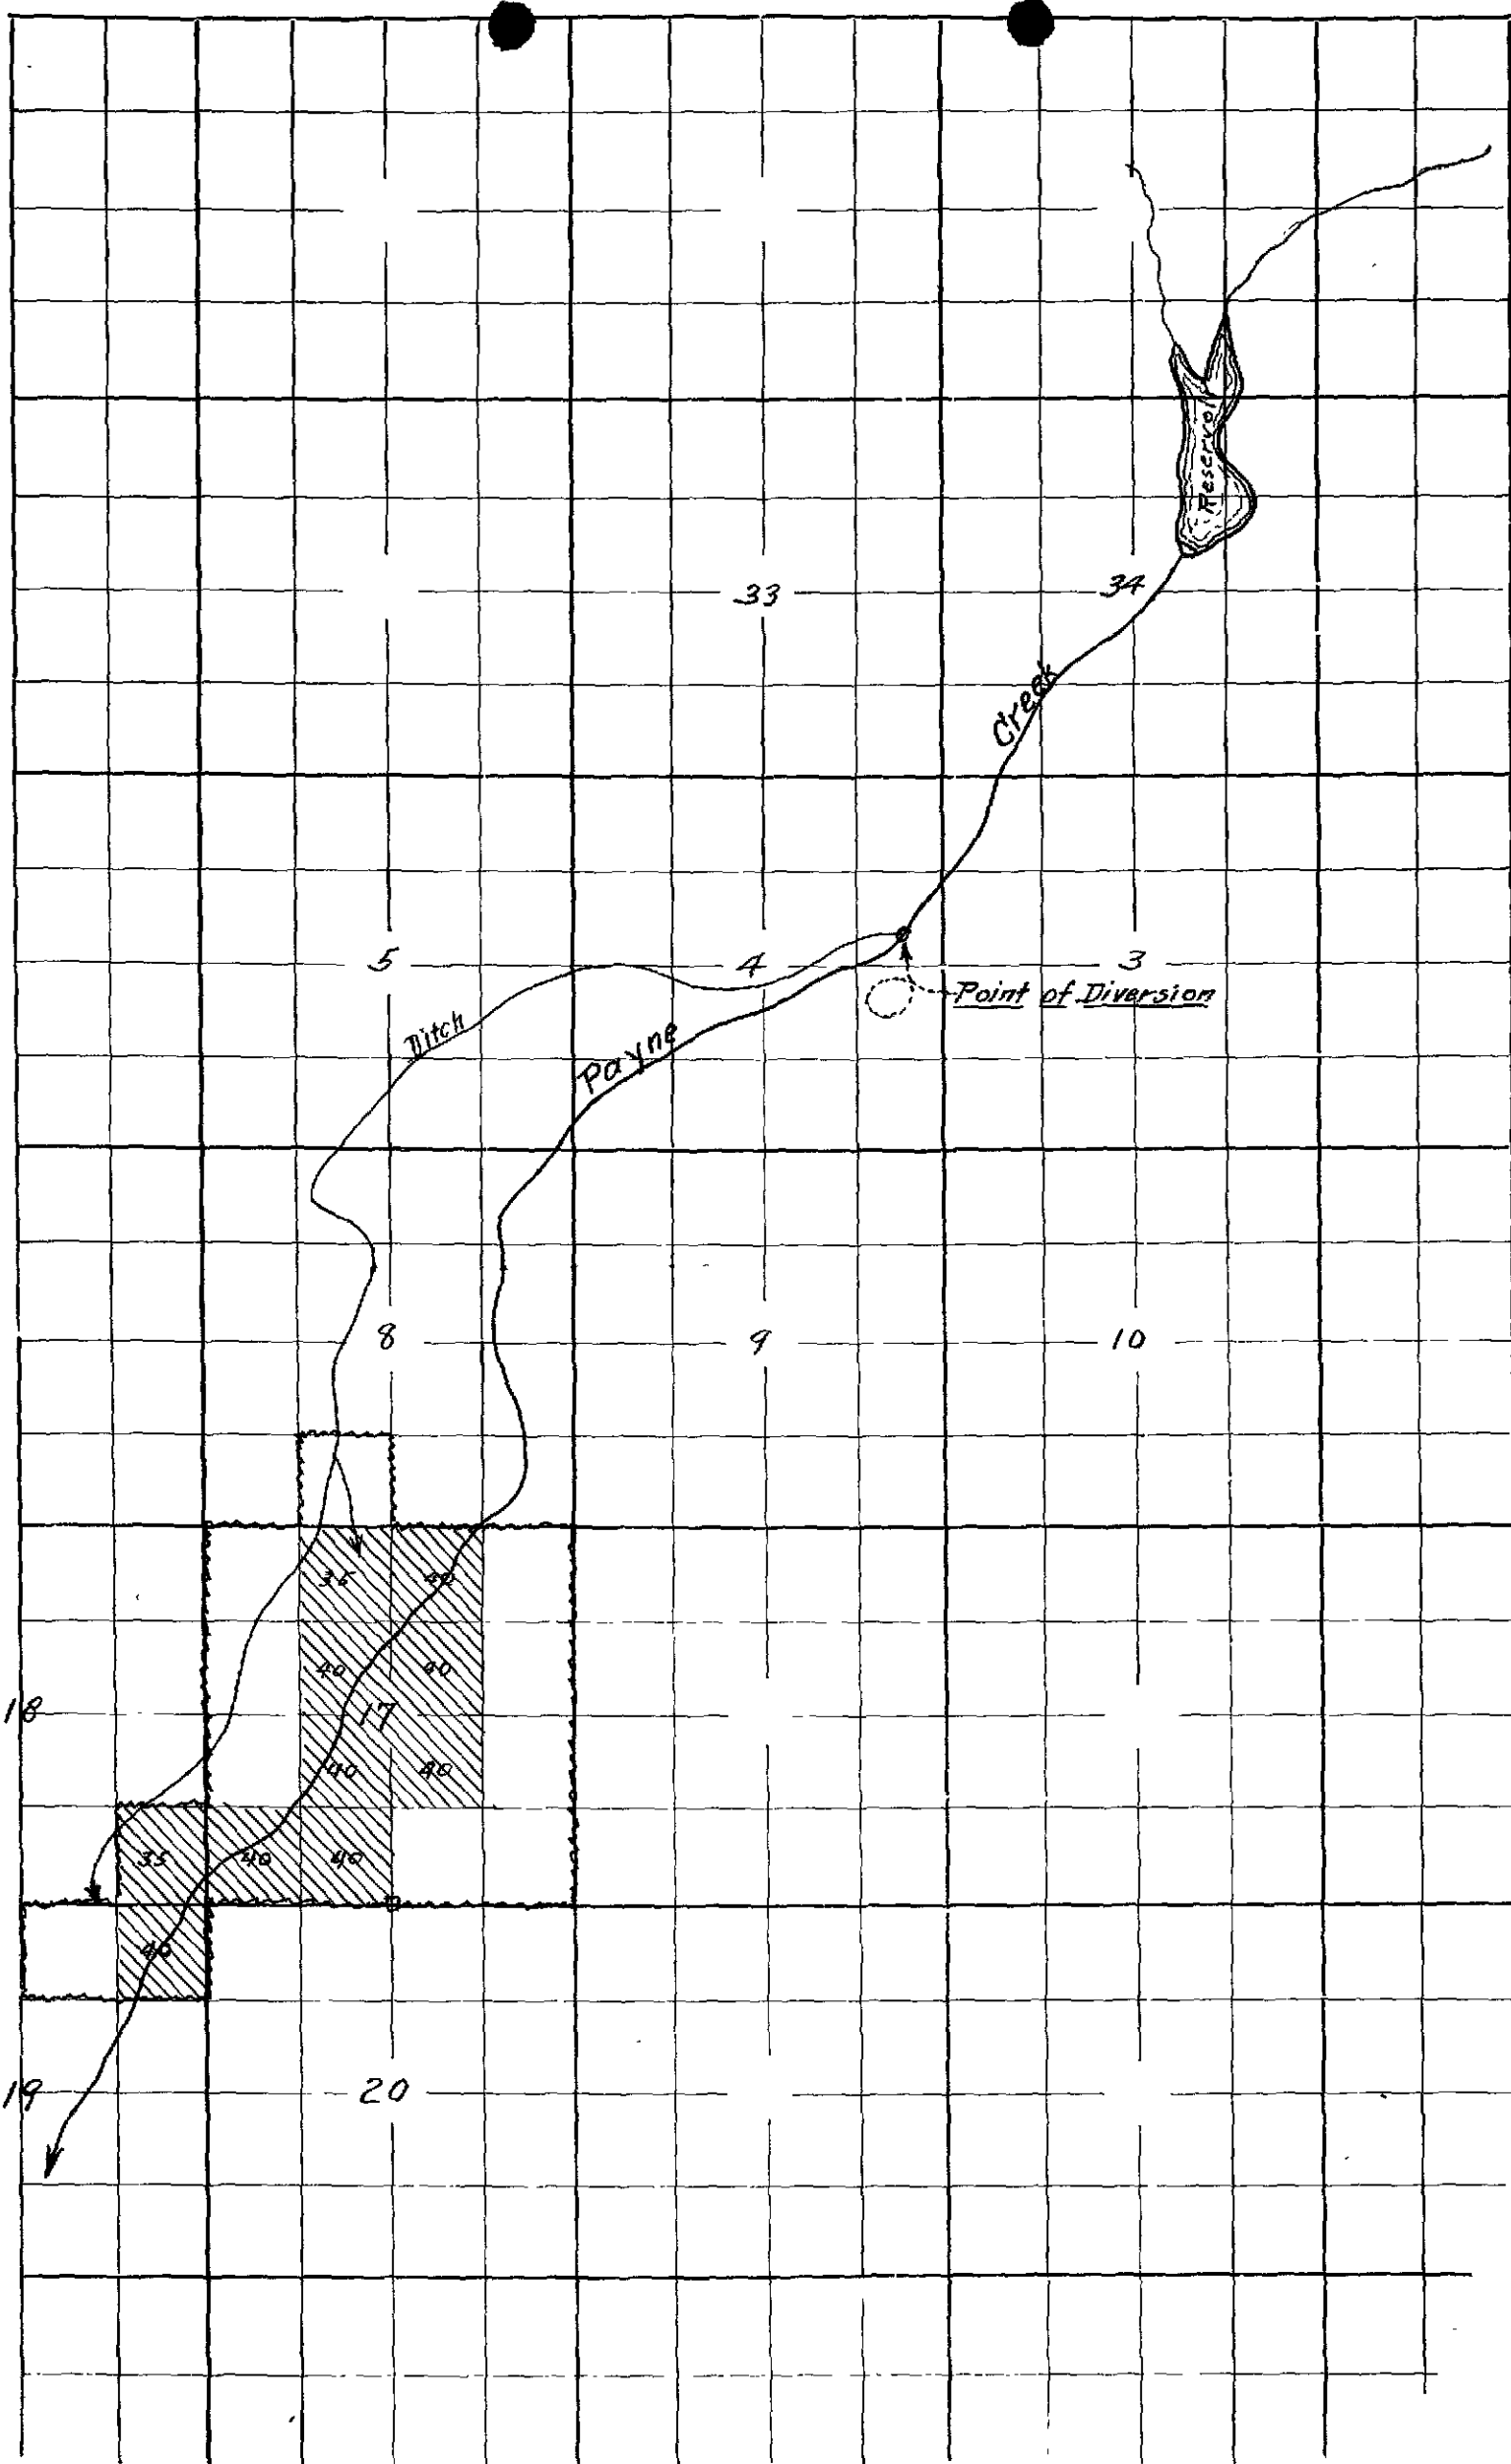

Very truly yours,

MARK R. KULP

BOISE, IDAHO, October 21, 1946

Re: Permit No. R-657
Carl P. Middle

Mr. C. P. Anderson
Notary Public
Mountain Home, Idaho

DEAR SIR.

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. R-657

DEPOSITION OF PERMIT HOLDER. DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On November 1st, 1946, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Mountain Home, Idaho before C. P. Anderson, Notary Public

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

Re: Permit No. 657

Mr. Carl P. Riddle
Riddle, Idaho

Dear Mr. Riddle:

Some time ago Mr. Tolman, our Field Engineer, handed us duplicate notice of your intention to make beneficial use proof under the above numbered permit on September 1st.

In checking this to send to the Owyhee Nugget for publication, we notice that September 1st comes on Sunday.

Shall we change this date to August 31st, or a later date in September?

Very truly yours,

MARK A. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. R-657

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Earl P. Riddle, residing at Riddle, Idaho; occupation-farmer
postoffice address: Riddle, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. acting as individual owner

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. R-657

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Payne Creek and Riddle Reservoir; N50°47'W. 1230 ft. distant from $\frac{1}{4}$ corner, Sec 3&4 T14S. R3E; SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 4, T14S, R3E B. M. in Owyhee County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Reservoir dam 30 feet high; diversion dam 6 feet high and canal.

6.6 cubic feet per second

Frank W. Riddle ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes; supplemental water for sections 8-17-18-19 T14S, R3E. Owyhee County covering same lands as in permits Nos. R-376 and 16341 land is cultivated and natural meadowland; land has been cleared from sagebrush and put into hay and grain. Ditches have been built

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. not applicable

R-657

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 760 acre feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. applicant is owner, originally issued to Carl P. Riddle

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. total amount used since May 15, 1940 for domestic and irrigation purposes

760 acre feet used on 450 acres.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. natural flow right by location notice of 1902 on record in State Reclamation Dep't and ~~xxxxx~~ storage right under permit No. R-376 to full extent of supply. The original location notice was by Frank W. Riddle. Storage dam under permit R376 has been enlarged by permit No. R-657 to 760 acre feet, an average height of 10 feet.

PERMIT NO. R657

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Grant Martin; age 23; residence Mountain Home, Idaho
occupation-stage driver; postoffice address; Mountain Home, Idaho

Ques. 2. Are you acquainted with Earl P. Riddle, the holder of Permit No. R-657? How long have you known him and where does he reside?

Ans. yes, I have known him for 23 years. He resides at Riddle, Idaho

Ques. 3. Have you read or heard read said Permit No. R-657, and are you familiar with its provisions and conditions?

Ans. yes,

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. from Payne Creek into Riddle Reservoir, 2 or 3 miles from Reservoir
works consists of reservoir dam approximately 30 feet high with
diversion dam and canal

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. about 6.6 cu feet. I have seen canal full of water

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. domestic and irrigation purposes for 400 to 500 acres of land belonging
to Earl P. Riddle. Land is cultivated and meadowland. I helped put in the
last 150 acres under cultivation by clearing and putting in ditching

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. not applicable

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. this land is sandy and in flat country and a full supply of water is
used to irrigate 400 to 500 acres.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have worked on land and project since it was in sagebrush to time it
was put under irrigation. Approximately 4 years.

(Signed) Yuan Martin

PERMIT NO. R-657**Proof of Application of Water to Beneficial Use****Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ben Crabb, age 60, residing at Mountain Home, Idaho, occupation
mail carrier, postoffice address Mountain Home, Idaho

Ques. 2. Are you acquainted with Earl P. Riddle, the
holder of Permit No. R-657? How long have you known him and where does he reside?

Ans. yes. I have known the applicant for 54 years and he resides at
Riddle, Idaho

Ques. 3. Have you read or heard read said Permit No. R-657, and are you familiar
with its provisions and conditions?

Ans. yes, I have

Ques. 4. State source of water supply, place of diversion, and describe works for conveying
water from point of diversion to place of use.

Ans. source of water is on Payne Creek to Riddle Reservoir and is a reservoir
dam approximately 30 feet high. A diversion dam and ditch has been built

Ques. 5. How many second feet of water do you estimate said works will safely conduct to
place of use, and how much water have you seen being so conveyed?

Ans. approximately 6.6 cu feet per second and I have seen this ditch
full

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give
each subdivision in which water has been used and number of acres irrigated in each subdivision.)
State whether cultivated or natural meadow land and the nature of all improvements which have
been made as a direct result of said use.

Ans. domestic and irrigation purposes used on the property of Earl P. Riddle
This land is cultivated and meadowland and has been cleared of sagebrush and
put under irrigation with ditches being built

R-657

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. no other purposes except domestic and irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. the ^{land} ~~area~~ is flat, soil is sandy with no rocks, I would estimate 760 acre
feet of water on 450 acres and supply all used.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the land from the time it was sagebrush land to its
prresent state of cultivation and improvement.

Re: Permit No. R-657

Mr. Earl P. Riddle
Riddle, Idaho

Dear Mr. Riddle:

We have sent to the Owyhee Nugget, at Marsing, Idaho, a copy of the notice that beneficial use proof would be made under the above numbered permit, at Mountain Home, Idaho, at 10:00 o'clock A.M., November 1st, before C. P. Anderson, Notary Public.

They have been instructed to publish it once a week for four consecutive weeks prior to that date, and to send you the affidavit of publication, together with statement of costs.

About ten days prior to November 1st, we shall send to Mr. Anderson the proper forms of deposition, consisting of one for yourself and one for each of two witnesses, so that he may have them in ample time for the proof.

At the time set, you should appear before Mr. Anderson, together with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

Re: Permit No. R-657

Mr. Earl F. Riddle
Riddle, Idaho

Dear Mr. Riddle:

Complying with your request of our Mr. Tolman, we enclose herewith the forms required for making notice of proof of beneficial use.

Both forms should be filled out, setting the time sufficiently far ahead to allow for the statutory four weeks publication, and naming the Notary Public, or other official authorized by law to administer oaths, before whom the proofs will be made.

Both copies of the notice to be returned to this department, together with Form 11, which is your authorization for us to have the notice published at your expense in the newspaper that you designate.

We shall then send a copy of the notice to the newspaper, with instructions in regard to publishing.

Very truly yours,

MARK R. KULP

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Carl J. Hille
Riggle, Idaho

Boise, Idaho November 1, 1944

Dear Sir:-

Under the terms of your permit No. ~~2-657~~-----you are required to complete your diversion works on or before ~~January 30, 1944~~----. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

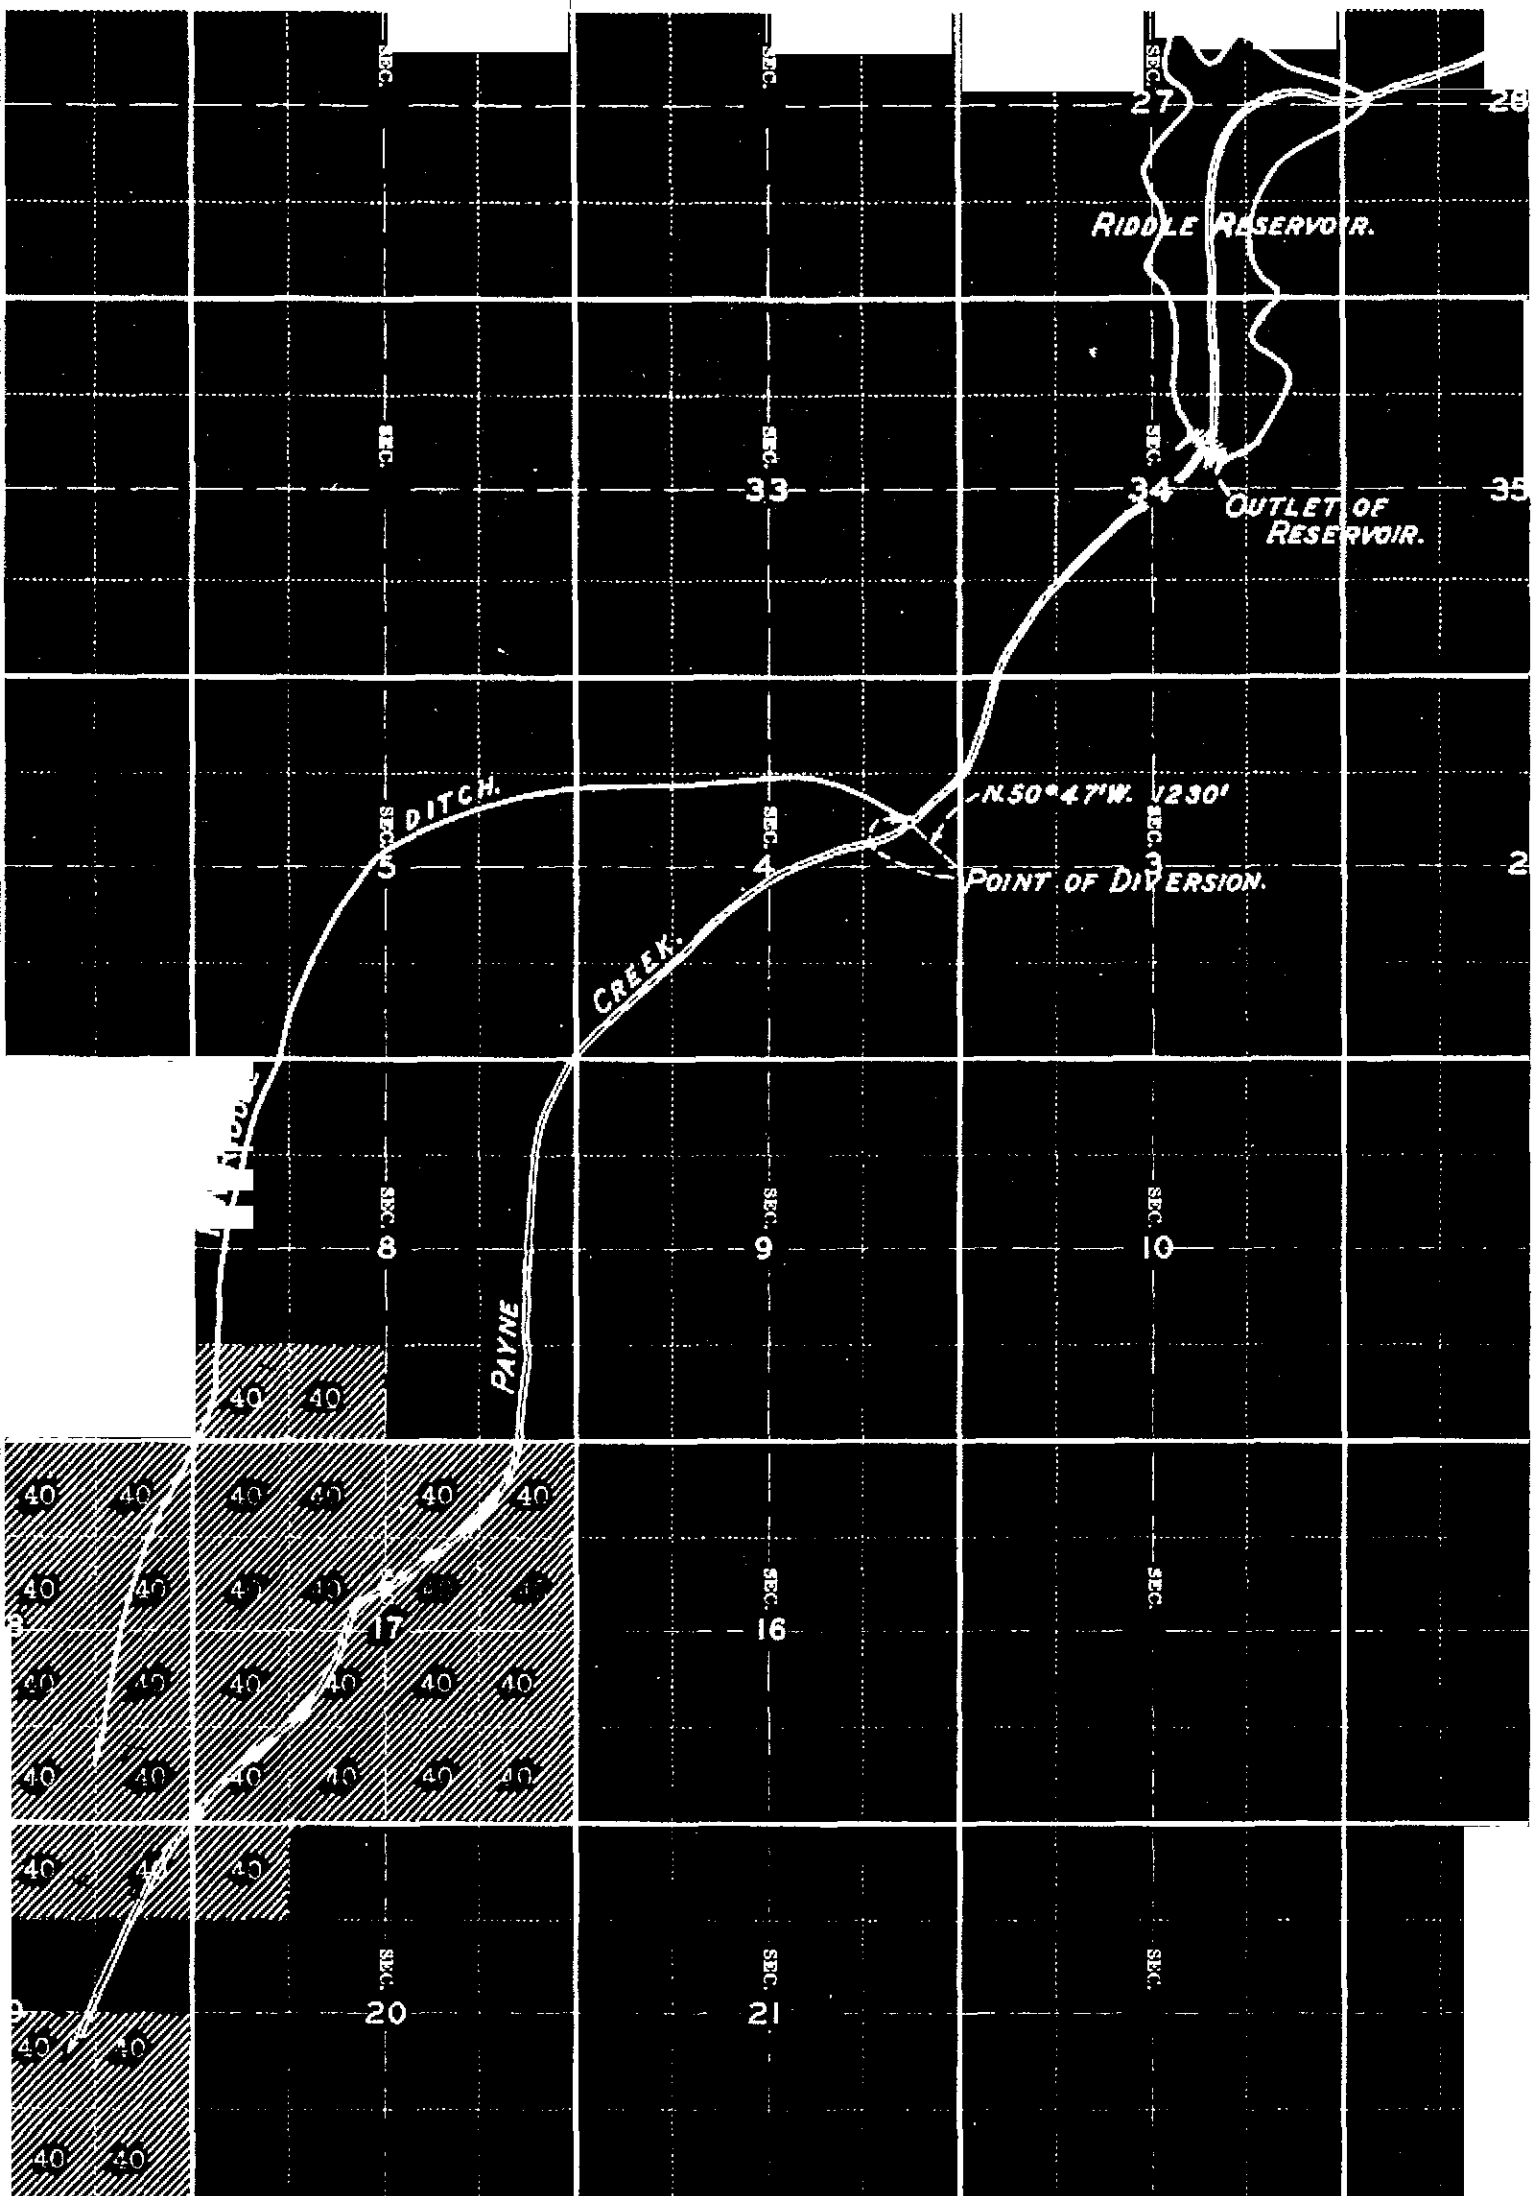

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. M. L. L. O. G. D.

State Reclamation Engineer

October 15, 1938

Mr. Earl Riddle
Riddle, Idaho

Dear Sir:

We have your letter of October 10 regarding the enlargement of your reservoir on Payne Creek.

After examining the records, we find that Frank W. Riddle made a filing on Payne Creek for twelve hundred (1200) acre feet, area of the reservoir for such capacity to be sixty (60) acres. Certificate of completion of works was issued on March 2, 1931 for three hundred (300) acre feet and does not show the area of the reservoir for such capacity. From the figures which you quote, we judge this to be the reservoir to which you refer.

In order to enlarge this reservoir, it would be necessary for you to make a new filing. Inclosed you will find forms and instructions for making such filing.

Very truly yours,

R. E. FARIS
Commissioner of Reclamation
