Re: Permits Nos. R-375 and 16341

Mr. Earl P. Riddle,
Riddle, Idaho.

Dear Sir:-

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and affidavit of proof of publication from the Owyhee Nugget, all in connection with beneficial use proof under the above numbered permits.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination, so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees before the issuance of your license.

Very truly yours,

JAMES DUFFORD

Dear sir

Do you have in your office
the application for permit made on this
same reservoir by my father

Frank W. Riddle, he made application
for this same amount of storage
and completed the dam to 300 acre
ft capacity. If you have his
original application on record could
you let me have it by mail
as I wish to cover the same
lands, use the same diversion
as he did and his permit would
help me a lot in completing
my application. I think he made
his filing in 1925. I don't know
the No of his permit but you gave
me R-26061

Thanking you for any assistance you
can give me

Very Truly Yours

Bruneau, Idaho

Boise, Idaho,

June 1, 1930

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. R-376.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Sept. 3, 1930. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
