Dear Mr. Ferwick:

A representative of this Department has made an examination of the works covered by your Permit No. ~~33008/55-2154~~ and has found the following:

Quantity of water diverted: 1.27 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.27 cfs

The maximum quantity diverted shall not exceed 344.5 acre feet per year.

Beneficial use: For irrigation of 137.21 acres
(See Attached Land List)

Point of diversion: NE 1/4, Sec. 26, Twp. 5 S, Rge. 6 W, B.M.

Priority date established: July 15, 1966

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing ample time for you to submit to us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact the Department of Water Administration immediately.

The expense of the publication is to be paid by E. C. Fenwick, Jordan Valley,
Oregon, to whom you should furnish
an affidavit of publication.

Very truly yours,

Donald W. McEldowney

Dear Mr. Fenwick:

One of the conditions of approval of your water Permit No. G-33008/55-2154 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 15, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

ATT: Bob Hamilton:

As you know, Ernest Fenwick, owner of the old Staples ranch just East of Jordan Valley, has a permit from your office for drilling & developing a well on this place. This work has been in use this summer, and at Ernest's request, I measured the discharge 9-22-70. We installed a portable Standard dipper, weir, 18" crest, & with proper contraction, in the channel below pump discharge. Below this in same channel, we cleaned a section for use of a pigmy meter, with calibrated staff. Pump was started at 12⁴⁰ PM, and operated until 9 PM.

10 Gage readings on crest of weir were taken - during this period.

#1 - $H = .56'$ $Q = 2.12$ CFS

12⁴⁰ PM

#10 $H = .53'$ $Q = 1.95$ CFS

3⁰⁰ PM.

H of .53' remained constant for the last 2 hr pumping - Ernest checked the pump lift at this time as 103 ft. Demand load on meter was 33.6 KW - 95 HP.

At 3 PM - Weir disch of 1.95 CFS - Current Meter Disch = 1.996 CFS.

(Two types of measurements checking this closely sounds impossible, but we double checked both units)

Will you please inform Ernest as to further procedure for license

Respectfully,
John Turner

ATT: Mr. Hamilton

Department of Water Administration

As you know Ernest Fenwick, owner of the old Steiner ranch just East of Jensen Valley, has a permit from your office for drilling & developing a well on this place - This well has been in the ground since 1950 at Jensen Valley. I have been in charge of this well. We installed a portable Standard dipper, weir, 18" crest, with proper contraction, in the channel below pump discharge. Below this in same channel we placed a pump for use of a pump truck, with capacity of 500 gpm. It was operated until 9:15 PM.

10 ft. sample on crest & weir were taken -

#1	H = 1.56'	Q = 2.15 CFS	12" PM
#10	H = 1.53'	Q = 1.95 CFS	5" PM

It was found that the pump was not working properly -
The pump was replaced with a new one -
The new pump was tested and was found to be working properly -

At 5:15 PM the pump was tested - 1.95 CFS - 12" PM for
1.97 CFS - 5" PM -

(The pump was found to be working properly -
Should be important, but we could not find the pump.)

The pump was found to be working properly -
The pump was found to be working properly -

Respectfully,
John Turner

Re: Permit No. G-33008/55-2154

Mr. E. C. Fenwick
Jordan Valley,
Oregon

Dear Mr. Fenwick:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dorian Clay,
Appropriation Examiner
