Re: Permits Nos. R-376 and 16341

Mr. Earl P. Riddle,
Riddle, Idaho.

Dear Sir:-

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and affidavit of proof of publication from the Owyhee Nugget, all in connection with beneficial use proof under the above numbered permits.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination, so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees before the issuance of your license.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 16341

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 1, 1939, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Bruneau, Idaho before Howard Golden, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

Boise, Idaho,

June 1, 1930

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 13341

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Sept. 3, 1930. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request
