(L. J. Givens)
Dear Sir:-

Referring to the fact that the snow was persisting late in melting this year, the roads were impassable until too late for me to move onto my duck and get a crop in in time to make beneficial proof of water by the time required in my Chevrach, No. 14914, which is July 5, 1921.

Therefore I am writing to ask for an extension

of one year on time for
making beneficial profit,
is possible?

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Nellie P. Foreman,
Greene, Idaho.

Dear Sir:—

Under the terms of your permit No. 14114 you are required to complete your diversion works on or before July 5, 1920. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
