In re: Permit: 11551

Charles E. Holverson
Bruneau, Idaho

Dear sir:

This will acknowledge receipt at this Department of depositions showing proof of water put to beneficial use under the above numbered permit.

I note that you state that you have reclaimed the NE 1/4, Sec. 36, Twp. 9 S., R. 2 W. B. M., among other lands; our records show that the lands to be irrigated are described as follows: the NE 1/4, Sec. 31, Twp. 9 S., R. 1 W. B. M., which is also the lands irrigated as described by the notice of publication.

If you desire to embrace the above described forty acres under your list of lands to be reclaimed under the permit, it would be necessary for you to submit an application for amendment, but it would also be necessary for you to republish the proof, inasmuch as the forty acres was not described in the publication. If the notice had not been published, it would have been possible for you to make the amendment, without going to the extra expense of republication. It would not be necessary for you to submit another proof, as this Department will accept the proof as submitted; but the proof taking officer would be required to submit an affidavit to the effect that no protest had been filed with him protesting against the taking of said proof or the issuance of license thereunder.

It will also be necessary for you to submit to this Department the proof of publication.

Kindly advise relative to the above matter.

Yours very truly

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Charles E. Holverson,

Bruneau, Idaho.

Boise, Idaho,

June 21, 1917.

Dear Sir:—

Under the terms of your permit No. ~~11551~~-----, you are required to complete your diversion works on or before ~~Aug. 25, 1917.~~ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,

State Engineer.
