Department of Water Resources
Water Right License
WATER RIGHT NO. 55-02064

Priority: June 12, 1915

Maximum Diversion Rate: 0.58 CFS
Maximum Diversion Volume: 101.5 AF

This is to certify, that RIDDLE RANCHES INC
HC 86 BOX 37

BRUNEAU ID 83604-9402 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated June 12, 1915; and
has submitted Proof of Beneficial Use on January 21, 1919. An examination indicates
that the works have a diversion capacity of 6.700 cfs of water from:

LITTLE BLUE CREEK tributary to BLUE CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	0.58 CFS	101.5 AF

LOCATION OF POINT(S) OF DIVERSION: SWSW , Sec. 20, Township 13S, Range 03E
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
13S	03E	19	NESE 3	NWSE 10	SWSE 10	29
			SESE 6			

Total number of acres irrigated: 29

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
NO. 55-02064 IN THE NAME OF	)	ORDER ADVANCING
RIDDLE RANCHES	)	PRIORITY
_____	)	

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No 55-02064 for issuance of a license, the Department finds, concludes, and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No 55-02064 (permit) to appropriate the public waters of the State of Idaho with a proposed priority of June 12, 1915.
2. On June 25, 1987 the Department advised George M. Bertschy (permit holder) that a license examination fee was required before an examination could be conducted to confirm the extent of the use of water developed under the permit.
3. On July 9, 1987, the Department received an examination fee information sheet indicating that the permit holder used no more than 0.04 cubic feet per second (cfs) of water. An examination fee was not required for water uses not exceeding 0.04 cfs.
4. In 1993 Department staff conducted a field examination to confirm the extent of beneficial use of water developed under the permit. The examiner reported that water in excess of 0.04 cfs is diverted for irrigation purposes.
5. On July 9, 1998, the Department notified the permit holder that an examination fee is due.
6. On July 13, 1998, the Department received an examination fee information sheet and an examination fee of \$150.00.
7. The license examination fee was received 4 day(s) late.

MICROFILMED

JUL 22 1998

CONCLUSIONS OF LAW

- 1 Pursuant to the provisions of Section 42-217, Idaho Code, the Director shall advance the priority date of the permit one day for each day the license examination fee is late.
- 2 The date of priority of the permit should be advanced 4 day(s).

ORDER

IT IS HEREBY ORDERED that the date of priority of Permit No. 55-02064 is advanced to June 16, 1915

Dated this 26th day of August, 1998.

A. Glen Saylor
Chief, Water Allocation Bureau

No. 16514.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant: George M. Bertschy.

Postoffice address: Kiddle,

County: Owyhee

State: Idaho

I. If applicant is a corporation, give

(a) Date and place of incorporation:

(b) The amount of capital stock:

(c) The amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are: (a) Cash on hand:

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

2. The quantity of water claimed is Three (3) #2: One Sec. ft. #1: Two Sec. ft. cubic feet per second.

3. Source of water supply: #1: Little Blue Creek; # 2 Unnamed Springs.

4. Location of point of diversion: # 1 NW. 1/4 of NE. 1/4, Section 20; # 2 S.W. 1/4 of S.W. 1/4, Section 21: Twp. 13 South, Rng. 3 East, Boise Mer.
County of Owyhee.

5. To be used for: Irrigation

I. Irrigation and domestic use: (a) Amount of land to be irrigated: One hundred sixty (160) acres.

(b) In the following legal subdivisions: S 1/2 of S.W. 1/4: S. 1/2 of SE. 1/4 : Section 20: Twp. 13 South, Rng. 3 East, Boise Mer.

II. Mining, milling, power, manufacturing, transportation or other purposes:

(a) At what point:

(b) Amount of power to be generated:

H. P. under ft. head

(c) Is water to be returned to any stream?
return:

(d) If so, name stream and locate point of

6. Estimated cost of works: \$150.00

7. Description of works for diversion:

I. Kind of works: Ditch.

II. Dimensions of works:

(a) Height of dam

feet, length of dam at top

length of dam at bottom

feet. Material used in construction:

(b) Capacity of reservoir

acre feet. (c) Size of headgate, width

feet,

Height

feet. (d) Conduit

Ditch

width at bottom 1 1/2 feet,

width at water line 3

feet, depth of water 1 foot

feet; diameter of pipe

inches; average grade per mile is

5.6

feet. Length of conduit is 1 1/2 miles,

and it crosses the following quarter sections:

S.W. 1/4 Sec. 21: N.E. 1/4: S.E. 1/4: S.W. 1/4 Sec. 20: Twp. 13 South,
Rng. 3 East, Boise Mer.

8. The time required for the completion of the construction of such work is Two (2) years.

9. Time required for the complete application of the water to the proposed use is Two (2)
additional years.BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters
of the State of Idaho as herein set forth.

George M. Bertschy

Applicant.

By Stanton Park.

Agent.

Date of first receipt at office of State Engineer 9:00 A M June 12, 1915.

Returned to applicant for correction

Corrected application received

APPROVAL OF STATE ENGINEER

The number of this permit is 11342.

Recorded in Book 38 Page 11342 Approved July 17, 1915.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions.

Bond in the sum of to be filed on or before

Work to begin on or before September 16, 1915 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before July 17, 1916.

The whole of said work to be completed on or before July 17, 1917.

Beneficial use of water appropriated in accordance herewith, to be made on or before July 17, 1919.

Witness my hand this 17th day of July, 1915.

J. H. Smith,
State Engineer.

Remarks:

Springs, for which appropriation is herein sought, are situate on unappropriated unreserved public land.

Proof of completion of works made June 21, 1917.

Certificate of completion of works issued July 7, 1917.

Permit No. 11342.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:

This is to certify that George M. Bertschy, of Riddle, County of Owyhee, and State of Idaho, the holder of Permit No. 11342, issued upon Application No. 16514, bearing date of priority of June 12, 1915, authorizing the diversion of two (2) second feet of the waters of Little Blue Creek and one (1) second-foot of the waters of unnamed springs, County of Owyhee, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use three (3) second feet of Little Blue Creek and unnamed springs; that the points of diversion of said waters are as follows: From Little Blue Creek in the NW $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 20; from unnamed springs in the SW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 21, all in T. 13 S., R. 3 E., B. M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: SE $\frac{1}{4}$ of SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 20, T. 13 S., R. 3 E., B. M.

Witness my hand this 7th day of July, A. D. 1917.

J. H. Smith,

State Engineer of the State of Idaho.

HC 86 BOX 37
BRUNEAU ID 83604-9402

RE: WATER RIGHT NO. 55-02064

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

SEP 10 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

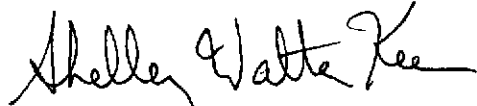

MICROFILMED

SEP 24 1998

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

A handwritten signature in cursive script, reading "Shelley W. Keen".

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

TO: File 55-02064

FROM: Sharla

DATE: August 25, 1998

RE: Recommendation Adjustment(s)

The adjustments to licensing recommendations for Permit No 55-02064 are as follows:

C. DIVERSION AND DELIVERY SYSTEM

1 Point(s) of Diversion

T13S, R3E, S20 - SWSW

2 Place(s) of Use

T13S, R3E, S19 - NESE (3 acres), NWSE (10 acres), SWSE (10 acres),
SESE (6 acres)

H. RECOMMENDATIONS

Irrigation	4/1 - 10/31	0.58 cfs	101.5 afa
------------	-------------	----------	-----------

As explained in the narrative portion of the field report, the diversion that takes place in Section 20 is by means of a ditch that is used to irrigate lands in the SE $\frac{1}{4}$, Section 19. There is no actual diversion from Little Blue Creek that is injected into Blue Creek and then rediverted at points along Blue Creek for irrigation of the entire place of use listed by the examiner. In a discussion on this date between Shelley Keen and Jan Shurte, it was decided that the license should be issued for only the point of diversion and place of use described above. The rate and volume parameters have been changed accordingly.

Exam Date: November 2, 1993
Examiner: Jan Shurte

E. NARRATIVE/REMARKS/COMMENTS

This permit had proof of beneficial use submitted in 1919 for one pt. of diversion from Little Blue Creek in the NWNE, S. 30. The only existing diversion pts from Little Blue Creek today are the dam location for the Little Blue Creek reservoir located in the DEDK, S. 17, and a ditch that diverts from Little Blue in the SWSW, S. 30 to irrigate lands in Sec. 19. The water from the outlet of the dam flows down Little Blue Creek, injects & commingles with Blue Creek in the SWSE, S. 19. This commingled water is then redirected all along Blue Creek which is where the permissible place of use of the 3,062 acres comes from. The 3.0 cfs amount on the permit can be diverted from either the dam outlet or the ditch in the SWSW, S. 30, plus from the redirection points. At the time proof was submitted, the permit holder stated that the ditch was 1' deep and 3' wide with a slope of 5.4' per mile. Using this information for the Manning equation to estimate ditch capacity, plus a roughness coefficient of .035, the ditch was capable of carrying 6.7 cfs. See next pg. for calculations. This is included only to justify the 3.0 cfs at the time proof was submitted in 1919. At this time, the 3.0 cfs can easily be diverted from either pts of diversion from Little Blue or the redirection pts from Blue Creek.

Have conditions of permit approval been met? ☒ yes ☐ no

Additional Computation Sheets Attached

MANNING'S EQUATION

$$Q = \left[\frac{1.49}{n} R^{2/3} S^{1/2} \right] X A$$

$$\phi = \left[\frac{1.49}{.035} \times .1 \times .53 \right] \times 3$$

$$Q = 10.7 \text{ eV}$$

 $R = .15'$
$$S = 1.06 (5.6 / \text{mile} \div 5280')$$

$n = .035$ (FROM CHART FOR EARTH DITCH/ROCK SIDES)

$A = 350 \text{ FT} (1' \times 3')$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 160 \times 3.5 \text{ AF} = 560 \text{ AFA}$$

$$V_{DB} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 3.0 \text{ cfs} \times 2140 \text{ days} \times 1.9835 = 1273.4 \text{ AFA}$$

$V = \text{Smaller of } V_{IB} \text{ and } V_{RB} = 560 \text{ AFA}$

2 Volume Calculations for Other Uses: *None*

REMARKS: ¹USE OF THIS RIGHT WITH RIGHT NO'S. 55-02016, 02035, 02039, 02064, 02174, 02211, 02435, 02002, 02009 & 13480 is LIMITED TO THE IRRIGATION OF A COMBINED TOTAL OF 3,626 ACRES IN A SINGLE IRRIGATION SEASON.

③ THIS RIGHT IS LIMITED TO THE IRRIGATION OF 160 ACRES WITHIN THE PACE H. RECOMMENDATIONS OF WE DESCRIBED ABOVE IN A SINGLE IRRIGATION SEASON.

DESCRIPTION OF DIVERTING WORKS - BLUE CREEK, LITTLE BLUE CREEK,
SHOOFLY RESERVOIR & BYBEE RESERVOIR
55-02009, 55-02016, 55-02035, 55-02039, 55-02064, 55-02174, 55-
02211, 55-02435, 55-07002, 55-07009 & 55-13480

Diversions begin with Blue Creek Reservoir which is a 29' high on stream dam in the NESE, S11, T13S, R2E, resulting in a reservoir capacity of 2050 AF. Water is rediverted from Blue Creek via diversion dams, dikes, ditches and gravity irrigation. Little Blue Creek water comes from Little Blue Creek Reservoir which is a 32' high dam in the SESE, S17, T13S, R3E, resulting in a reservoir capacity of 2,100 AF. Water is diverted directly from Little Blue Creek in one diversion below the dam in the SWSW, S20, T13S, R3E and injected into Blue Creek in the SWSE, S19, T13S, R3E. The comingled Blue Creek and Little Blue Creek is diverted via Blue Creek as explained above and the two sources irrigate lands in Secs. 19, 29, 30, 31, 32, T13S, R3E, Secs. 12, 13 & 14, T14S, R2E, prior to the injection point of Bybee & Shoofly Reservoir water as explained below.

Shoofly reservoir is an on-stream reservoir on the West Fork Shoofly Creek and has a 38' high dam located in the NESW, S26, T13S, R1E, with a reservoir capacity of 1100 af. Water is rediverted from the West Fork Shoofly Creek for irrigation in Sec. 25, 26 & 36, T13S, R1E. It is then rediverted for irrigation of a portion of Sec. 1 & 12, T14S, R1E. In the SENE, S12, T14S, R1E, Shoofly Reservoir water injects into Shoofly Creek and comingles with Bybee Reservoir.

Bybee reservoir is an on-stream reservoir on the main Shoofly Creek with a 52' high dam located in the NESW, S31, T13S, R2E, with a reservoir capacity of 7,970 af. Water is rediverted from Shoofly Creek to irrigate portions of Sec. 6 & 7, T14S, R2E, and portions of Sec. 1 & 12, T14S, R1E. In the SENE, S12, T14S, R1E, Bybee Reservoir water comingles with Shoofly Reservoir water after the Shoofly Reservoir water is injected into Shoofly Creek. Both sources flow down Shoofly Creek and are diverted in the NWSE, S15, T14S, R2E, irrigating lands in the SW1/4, S14 and the NW1/4 S23, before injecting into Blue Creek in the NE1/4 S23, T14S, R2E. At this point all four sources are comingled, Bybee Reservoir, Shoofly Reservoir, Blue Creek and Little Blue Creek waters. These are rediverted from Blue Creek to irrigate lands in Sec. 23, 26 & 35, T14S, R2E.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

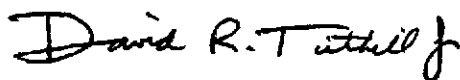

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The license examination fee schedule, on the back of the enclosed information sheet, shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be returned to this office. If you have questions or concerns please feel free to call at (208) 334-2190, or to visit the office at our new location near the airport, at 2735 Airport Way.

Sincerely,

DAVID R. TUTHILL, JR., P. E.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Re Permit 11342.

Mr. Phil S. White,
Silver City, Idaho.

Dear Sir:--

At the request of Mr. Geo. Bertschy,
of Brunson, I am enclosing herewith report and
map forms and authorize you to make the required
examination for proof of use of water under the
above permit. You will please arrange with the
holder of the permit for your fees for services.

Very truly yours,

FRED A. WILKIN,

State Engineer.

The State Engineer
Boise, Idaho, AI

Gentlemen: Complying with your suggestion in your letter to Mr. Reynolds of December 13, last, I would suggest that you necessary blanks and map for report upon my water works to Philo S. White, Silver City, Idaho. He will perhaps not be able to get in there for several weeks, but as he is familiar with that country and has done much of the work there, I imagine he would be as good a man as could be secured.

P.S.--²²Address Mr. White in care of the Florida Mountain Mines Co.

Very truly yours,

George Bertochy

NOTICE FOR PUBLICATION
Notice of Proof of Application of Water
to Beneficial Use.

Notice is hereby given that at 10 a.m. on the 18th day of January, 1919, at Bruneau, County of Owyhee, State of Idaho, before Charles Pascoe, U. S. Commissioner, proof will be submitted of the application to beneficial use of two (2) cubic feet per second of the waters of Little Blue Creek and unnamed springs in accordance with the terms and conditions of Permit No. 11342 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are George M. Bertschy, Riddle, Idaho.

2. The use to which said water has been applied is irrigation and domestic use.

3. The amount applied to beneficial use is two (2) second feet.

4. The place where said water is used (if for irrigation give full and accurate description of the lands irrigated) $8\frac{1}{2}$ SW $\frac{1}{4}$ and $8\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 20, T. 13 S., R. 3 E., B. M.

5. The date of the priority which said user is prepared to establish is June 12, 1915.

FRED A. WILKIE.

State Engineer.

First publication December 19, 1918.

Last publication January 9, 1919.

Affidavit of Publication

STATE OF IDAHO
County of Owyhee

Charles Pascoe

being duly sworn, deposes and says that he is the Publisher of OWYHEE NUGGET, a weekly newspaper published at Bruneau, Idaho; that the said newspaper is in general circulation in Owyhee County; that a copy of the above notice, as per clipping attached, was published in the regular and entire issue of said newspaper for four consecutive weeks beginning with the issue of December 19, 1918, and ending with the issue of January 9, 1919.

PERMIT No. 11342**Proof of Application of Water to Beneficial Use****DEPOSITION OF HOLDER**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George M. Bertschy, 32, Bruneau, Idaho, rancher, Bruneau, Idaho,
formerly Riddle, Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 11342, July 17, 1915; June 12, 1915.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. 1 Little Blue Creek & 2 unnamed springs; 1st NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 20;
2d SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 21, T.13 S., R.3 East, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Ditch 1 $\frac{1}{2}$ ft on bottom, 3 ft at water line, 1 ft deep plowed.
Will carry 150 inches water to place of use. No name

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, of the S. $\frac{1}{2}$ SE $\frac{1}{4}$ and S. $\frac{1}{2}$ SW $\frac{1}{4}$ Sec 20, T.13S. R.3 E.
All cultivated; all fenced with 2-wire fence, house, corrals, store
house for grain, of which the yield has been good as a result of
cultivation and irrigation

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. 150 inches miners' inches, that is

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Filed on water myself--no other interested

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Since 1915 have used the water from springs with 25 inches from Little Blue Creek; hereafter will need all the water from both springs and creek for the enlarged cultivated area.

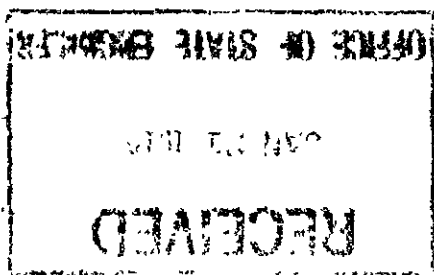

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) George M. Bertschy

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Bruneau, Idaho, County of Owyhee State of Idaho, on this 18th day of January A. D. 1919

Charles Parco
U.S. Commissioner

11342

Permit No. 11342

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George Portlock, 48, Bruneau, Idaho, laborer, Bruneau, Idaho

Ques. 2. Are you acquainted with George M. Bertschy, the

holder of Permit No. 11342? How long have you known him and where does he reside?

Ans. Yes, and have known him continuously ever since; Bruneau, Idaho

Ques. 3. Have you read or heard read said Permit No. 11342, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Little Blue Creek and unnamed springs; diversion from Blue Creek NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 20, and from springs in SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 21, T.13 S. R.3 E., B.M., and water is conveyed by means of ditch made with plow.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 150 miners' inches; about a third of this amount in use--carried

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of the S $\frac{1}{4}$ SE $\frac{1}{4}$ & S $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 20, T.13 S., R. 3 E., all the land being cultivated and upon which good crops of grain have been harvested; is fenced, has dwelling, grain house, corrals and barn.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam cleared of sagebrush; requires all the water filed on for its proper and successful cultivation

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In spring of 1918 saw about 20 acres under water.

(Sign)

George Portlock

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Bruneau, County of Owyhee, State of Idaho, on this 18th day of January A. DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joe Patterson, 38, Bruneau, Idaho, laborer, Bruneau, Idaho

Ques. 2. Are you acquainted with George M. Bertschy, the

holder of Permit No. 11342? How long have you known him and where does he reside?

Ans. Yes, have known him for twenty years

Ques. 3. Have you read or heard read said Permit No. 11342, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From Little Blue Creek and springs; water from the creek is taken out of it NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 20, and from the springs in SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 21, T.13 S., R.3 E., and is carried to the place of use by ditch made with a plow.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 150 miners' inches, have seen about 50 inches in it and carried.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of the S $\frac{1}{2}$ SE $\frac{1}{4}$ & S $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 30, T.13 S., R.3 E., where the land is all cultivated land, and none of it is natural meadow. Good crops of grain have been raised. place is fenced, has house, corrals, barn and grain house, etc.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam cleared of sagebrush; it needs all the water filed on for cultivation of land in cultivation and that being prepared.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In the fall of 1917 saw water upon about 15 acres, and saw nearby several acres of growing crops where water had been undoubtedly used a short time before

INSTRUCTIONS

PROOF OF BENEFICIAL USE

BOISE, IDAHO,

January 2, 1919.

Geo. M. Bertschy,
c/o Charles Pascoe,
Bruneau, Idaho.
DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under Permit No. 11542.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights.

1. On January 18, 1919, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to at Bruneau, before Charles Pascoe, U.S. Comm.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice. When these have been received, together with report of examining engineer, you will be further advised as to fees due before issuing license.

Yours truly,

Pred A. Wilkie,
State Engineer.

11-342

December 13, 1918.

Re Permit 11342-G.M.Bertschy.

Mr. M. E. Reynolds,
Bruneau, Idaho.

Dear Sir:--

Replying to your letter of the 11th inst., relative to proof under the above permit, would say that I have set January 18th as the date for proof and notice has today been mailed to the Bruneau Nugget for the required four weeks publication. Deposition blanks will be mailed to Chas. Pascoe later.

It will also be necessary to have an examination made by an engineer, or some one familiar with such work. If the holder can send us the name of some engineer near him who can do this work for him, the necessary blanks for report and map will be furnished.

Very truly yours,

FRED A. WILKIE,

State Engineer.

ENGINEERING DEPARTMENT
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Geo. M. Bertchey,
Riddle, Idaho.

Boise, Idaho,

Dear Sir:—

May 1, 1917.

Under the terms of your permit No. 11342-----, you are required to complete your diversion works on or before July 17, 1917. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,

State Engineer.
