B.M., instead of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ (or Lot 2) as described in your permit and proofs.

Before license is issued it will, therefore, be necessary to file the enclosed application for amendment to change the point of diversion to the place where it is actually located.

Dear Sir,

When the Field Engineer gets ready to go up there I wish he would let me know - as far in advance as he possibly can - as I'm not always at home here. You see I'm irrigating another place about 40 miles up the country around Flint, as well as this place. Furthermore we get our mail only twice a week.

Dear Mr. Liddle:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Owyhee Nugget all in proof of beneficial use under Permit No. 10688.

Before final action is taken in the matter the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Mr. Archie D. Hym,
Irrigation Engineer, U.L.O.,
Salt Lake City, Utah.

Dear Sir:-

Referring to your letter of the 31st ult, also wire received this morning, would say that William H. Pfeiffer and Charles E. Pfeiffer made proof of completion of works under the above numbered permit and received certificate therefor but the final proof of beneficial use of the water was never made hence the final license has never been issued.

This final proof will be accepted when made at a later date than specified in the permit but the date of priority under the permit will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date said proof is actually made.

For your further information we are mailing you herewith a copy of this permit.

Very truly yours,
GEO. H. CARTER
