CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right, when considered with all other rights common to the same grazing allotment, shall be limited to the quantity of water beneficially used by the number of stock within the allotment.
6. Place of use also known as Headback Reservoir, Project 6584.
7. Stockwater use is for 250 range cattle.

RE: Application for Permit 55-07430

Dear Mr. and Mrs. Morgan:

I was able to contact Dana Danzer of the Bureau of Land Management, who felt that the BLM would be willing to withdraw their protest against this application, accept assignment and complete the perfection of the water right by filing necessary proof.

I have enclosed the Assignment of Application for Permit form. It is completed except for your signature. The document requires a notarized signature.

I have also solicited the protest withdrawal from Jay Carlson, and advised him of your pending assignment.

Please sign, notarize, and forward the form to me at your earliest convenience.

Thank you for your cooperation.

Sincerely,

Cindy Hodges

RE: Application for Permit #55-07430 in the name of Walter and Grace Morgan

Dear Mr. Carlson:

Last week, Mr. and Mrs. Morgan visited our office to discuss this filing. While reviewing the file and your protest letter, I read a statement that said the BLM intended to file on this development in the Snake River Basin Adjudication (SRBA). Unfortunately, because actual development of the reservoir occurred both after the 1971 mandatory permit date for surface water, and after your permit #55-07322 for the project had lapsed, a filing in the SRBA which includes the reservoir is not possible.

Since a water right permit is still required for this project, I asked the Morgans if they would be willing to assign their application to the BLM. They agreed. You, however, must withdraw your protest from the application before assignment can be effected.

I spoke to Dana Danzer by phone yesterday, and explained the implications of the assignment, namely, that the BLM would be responsible for filing timely proof in order to perfect the water right. The application has been advertised, and permit approval is pending. He felt that you would be willing to withdraw protest and accept the assignment.

Accordingly, I have solicited the assignment document from the Morgans. I have also enclosed with this letter a withdrawal form which you may use to withdraw your protest. Please return it to my attention at this office.

I advised Dana that the BLM may still file an SRBA claim on instream stockwater use in all reaches of the stream above and below the reservoir, using the priority which dates back to the first allotment privileges.

Please feel free to call me at 334-2190 if you have any questions.

Sincerely,

Cindy Hodges

Re: Application for Permit No. 55-7430

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Please contact this office if you have questions regarding this procedure.

Sincerely,

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Dear Sir:

Enclosed is a copy(s) of the above-referenced
application(s) for permit which may be of interest to your
agency. Please review the application(s) and submit any
comments you may have.

This office normally completes the processing of an
application within a six-week period and is required to take
final action shortly thereafter, however, if your agency
desires to file a formal protest against the approval of this
application(s), your written protest must be received in this
office by May 4, 1992.

If you have any questions regarding the application,
please contact this office.

Sincerely,
