1. E Retelle 8/26/2004 Protest

Comment: Cherry Woodbury came to the office today to ask that she and others in her subdivision be notified if Bruce and Sherril Stephens, other land owners in the subdivision, applied for a water right. It was found that they already had obtained a permit, developed a diversion in the wetland, and submitted proof of beneficial use.

2. dnelson 4/20/2001 12:16:28 PM General Comments/Analysis

Comment: Water right 65-13610 overlaps the place of use but it is for a different pond. This applications is for a new pond on lands owned by the applicant. The point of diversion is from a spring tha originates on the applicants property. However, 65-13610 may use some of the water from that spring to fill their pond.

3. dnelson 4/20/2001 12:16:28 PM Legal Notice Remarks

Comment: Applicant agrees to mitigate consumptive use in the future as needed.
