Re: No Change of Address

The post office returned the mail to Bruce & Sherrill Stephens twice, both time with new addresses. Bruce called today and informed me that he didn't know how we got his son's address, and he informed me that he has not moved. He called to make sure that the department did not change his mailing address in our records. It appears that the post office made a mistake when it returned the permit holder's mail and showed the son's addresses.

The database has not been changed.
