6. cskinner 4/15/2005 Legal Notice Remarks

Comment: This application proposes the diversion and use of water from a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because it is for an agency of the United States.
