Original permit 72-07230 was filed for stockwater use by means of stock troughs. In the SRBA process, the Forest Service filed a beneficial use claim matching the point of diversion description and the claim was thus assigned the permit number. The claim, however, is a reflection of instream stockwatering, while stockwater use via the troughs has been confirmed by permit examination and still requires a license to be issued. Rather than re-numbering the SRBA claim, it was decided to re-number the permit. The new number assigned for the stock troughs is 72-07576 and all the original permit documentation can be found in the newly numbered file.

RE: Water Right No. 72-07576

Dear Water Right Holder:

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to §67-5243, Idaho Code. The preliminary order can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Please note that this water right was originally issued on March 23, 1983, as Permit 72-07230. When preparing to issue the license, we found that you had filed a beneficial use claim for the same water source, but not the same place of use, in the Snake River Basin Adjudication (SRBA). The claim appears to be for instream stock watering at the spring, while the permit covered the diversion of water to stock troughs located some distance from the spring. Although it is not our usual practice, for some reason your SRBA claim was numbered A72-07230 even though it was not based on Permit 72-07230. The SRBA court issued a partial decree for claim A72-07230 on December 29, 1997. Therefore, to avoid confusing the two water rights, Permit 72-07230 was renumbered and the license was issued as Water Right License 72-07576.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

DEC 14 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

This Permit is for stock use. It is for .02 cfs for 235 cows. The source is Wickiup Spring that is a tributary to Wickiup Creek. ^{The P/D} ~~It is~~ located in the ~~SW 1/4 of the NE 1/4~~ of the SW 1/4 of the SW 1/4 of section 29 in NW 1/4 Township 9N, Range 17E. GLS 6/98

The system consists of one spring and two troughs. The permit states three troughs, but the pictures show only two.

The amount requested is .02 cfs; the information sheet states .24 cfs which is over the permit. I am limiting it to .02 cfs. The number of cattle is 235. This is both on the permit and proof of beneficial use. The volume for 235 cows is 7.40 cfs. 1.3 acft GLS
