HC 63 Box 1770

Department of Water Resources

Dear Mr. Chamberlain:

You recently called our office regarding the possible irrigation of land located in the North ½ of the Northwest ¼ of Section 06, Township 13 North, Range 20 East with Challis Irrigation Company water. As you recall, in March of 1999, the Challis Irrigation Company filed water right transfer #5514 to add this land to the Challis Irrigation Company service area. During the processing of this application, the Department changed computer systems, and transfer application #5514 was renumbered to transfer #66934.

This application was approved on June 11, 2001, essentially allowing a change of the boundary of the area where the Challis Irrigation Company could utilize their water rights for irrigation purposes. However, the original acre and diversion rate limitations of the water rights prior to the transfer are still limiting factors for the use of the water. Basically, the company could irrigate new ground, inside their new designated service area, as long as an increase in diversion from the river, or an increase in the actual number of irrigated acres did not occur. This could be accomplished by no longer irrigating ground that had been historically irrigated and included in the acre limits of the company's water rights.

I have included a copy of approved transfer #66934 (renumbered from transfer #5514) for your reference. It should be noted that the transfer approval document does not list the location of the lands that make up the Challis Irrigation Company's service area. Examining the transfer approval document reveals conditions of approval placed on the water rights involved with the transfer that state...

"Place of use is described as the Challis Irrigation Company service area located within T13N, R19E and 20E, and T14N, R19E".

Please note that pursuant to §42-219, IDAHO CODE, water rights for an organization such as the Challis Irrigation Company, who delivers surface water to more than five water users in an area of less than 25,000 acres, can have a place of use description that provides a "general description" of the area within which the total number of irrigated acres are located. The Department considers the map that was included with transfer #66934 (renumbered from transfer #5514) as the "official" map of the Challis Irrigation Company's service area. I have included a scanned copy of this map from the Department's records in our State Office in Boise, for your reference. This map shows a boundary (in yellow) that includes the North ½ of the Northwest ¼ of Section 06, Township 13 North, Range 20 East, which is the land you were inquiring about. Therefore, this land can be irrigated with Challis Irrigation Company water, and be in compliance with the company's water rights, as long as the diversion rate and acre limitations outlined in the enclosed transfer approval document (#66934) are not exceeded.

If you have any questions, or need any further assistance, feel free to contact our office at your convenience.

Sincerely,

Corey Skinner, PE
Water Resource Engineer

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.
