CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 100 horses and cattle.
6. Commercial use is for rodeo grounds and county road shop.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Well is owned & operated by Custer County Maintenance Dept.
County shop is open all year. Rodeo grounds close in winter.
Rodeo has up to 100 horses maybe 10 days a summer, with sporadic use otherwise.
Restroom in rodeo serves maybe 300 people 10 days a summer.
County shop has 7 employees 5 days a week. - restroom
Well has no water in it from Feb 1 - May 1.
In June of 1991, a second well was added to the system under Permit 72-91-S-012. In addition, a weed shed & mechanism for filling trucks for weed spraying was added (maximum use 800 gpd according to Board member Jim Hawkins). The second well & additional use are not covered by this water permit. Second well is about 50' deeper than old well, & should provide water all year.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P72-07460

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit No. 72-07460

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Challis Messenger on 2/1 & 2/8/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,
