RE: WATER RIGHT NO. 72-07382

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

A handwritten signature in cursive script, reading "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Dear Mr. Keen:

As requested, we are submitting an Application for Amendment for Permit #72-07382. Some of the legal descriptions shown on the original application were incorrect and were not the same as those sent to the Twin Falls Office of Water Resources with the photos and maps. Per your telephone conversation with Betsy Rieffenberger, Forest Hydrologist, we have corrected the legal descriptions on the enclosed amendment. The legal description for the point of diversion has been amended to show only a 1/4, 1/4 section, as our field verification did not locate the spring down to 10 acres.

Also enclosed is a check for \$50 to cover the Application for Amendment. We need a receipt for this payment. Please send the receipt to Connie Walters at the address listed above. Or you can fax the receipt to her at 208-756-5151.

If you need any additional information regarding these water right claims, please contact Betsy Rieffenberger at 208-756-5108.

E. NARRATIVE/REMARKS/COMMENTS

This permit is for .02 cfs for 510 cows for Stock Use. The source is a spring going to Daugherty Gulch. The permit and Proof of Beneficial Use state that the point of diversion is in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 4 in Township 13N, Range 18E. The map and Attachment B proves it is actually in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of section 6 in Township 13N, Range 18E.

The permit originally listed one place of use. The map and Attachment B clearly shows 6 places of use. The permit should be amended to show the changes made.

The permit is for .02 cfs and the information given also shows .02 cfs. It was for 510 cows, but the Forest Service now states that there are 445 cows. The consumptive use is 5340 gpd. The volume will be 2.5 cfs.

All information given from the Forest Service is submitted for review. My contact was Betsy Rieffenberger from the Salmon/Challis National Forest in Salmon, ID.
