IN THE MATTER OF PERMIT NO. 72-07374)
)
IN THE NAME OF RICHARD J. ANDREWS) **ORDER OF**
) **REINSTATEMENT**
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before November 1, 1996; and,

WHEREAS, the Department notified the permit holder on August 31, 1996, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department sent the permit holder a lapse notice on November 8, 1996, since an acceptable proof of beneficial use or extension of time had not been received; and,

WHEREAS, Section 42-218a, Idaho Code, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on January 7, 1997;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 72-07374 is **REINSTATED** with an advance in priority to August 17, 1984.

DATED this 15th day of January, 1997.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 72-07374 Telephone No. 208-838-2211
2. Name(s) of Permit Holder(s): Richard J. Andrews / Suzanne H. Andrews
3. Mailing Address: Sunbeam Village, H.C. 67 Box 310, Stanley,
83278
4. Source of Water: Well If **GROUNDWATER** (well), Date Drilled: mo. 8 / yr. 3278
- a. Well Driller: Cole Drilling Co. Drilling Permit Number: ? - ? - ? - 1957
- b. **OPTIONAL:**
Pump Horsepower: Pressure (psi): Dynamic pumping level (ft):

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): 05 Stockwater (No. and type of stock):
Commercial (June-Aug.) 100
Irrigation (No. of acres): Other:

6. Total rate of diversion and/or volume for which proof is submitted: 100 cfs OR acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No ✓

Has the measuring device been installed? Yes or No ✓

Flow Measurement Port: Is a flow measurement port required? Yes or No ✓

Has the measurement port been installed? Yes or No ✓

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Jan-May Randy Sommerville - caretaker
June-Aug. Suzanne Andrews Telephone Number: 208-838-2211

Address: Sunbeam Village H.C. 67 Box 310 Stanley, Idaho 83278

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Suzanne H. Andrews - owner Date: Jan. 5, 1997

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Richard J. Andrews Phone 838-2211

Post office address Sunbeam Store, Stanley, ID 83278

2. Source of water supply Sunbeam Hot Springs which is a tributary of Salmon River
Groundwater --

3. Location of point of diversion is NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 19 Township 11N

Range 15E B.M. Custer County, additional points of diversion if any:

Groundwater: NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 19; NW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 20 T. 11N R. 15E

4. Water will be used for the following purposes:

Amount 0.05 cfs for Heating purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.04 cfs for Commercial purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount for Cooling purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.09 cubic feet per second and/or b. acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Artesian hot-water well & pipeline or
headbox & pipeline from springs to buildings and small spa. Well & pump for
cooling water for spa if needed.

b. Height of storage dam feet, active reservoir capacity acre-feet; total reservoir
capacity acre-feet, materials used in storage dam:

Period of year when water will be diverted to storage to inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is inches; proposed depth of well is feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation: E $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 19 Township 11N
(1) Give the place of use of water: W $\frac{1}{2}$ of NW $\frac{1}{4}$ of Section 20 Township 11N

Range 15E B.M.

(2) Amount of power to be generated: horsepower under feet of head.

(3) List number of each kind of livestock to be watered

(4) Name of municipality to be served , or number of families to be
supplied with domestic water

(5) If water is to be used for other purposes describe: Heating of commercial buildings, and
as a water supply for a small spa under commercial use.

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes as described above. _____

9. a. Who owns the property at the point of diversion Applicant, U. S. Forest Service

b. Who owns the land to be irrigated or place of use Applicant, "

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Applicant's possessory interest is as a leasee of Forest Service property at the store/resort complex.

10. Remarks Applicant plans to drill a geothermal well on his land; if this is not successful, water from the hot springs will be piped to the place of use.
This area is unsurveyed; legal descriptions are based on section projected by the U. S. Geological Survey.
Exact location of the proposed well(s) is unknown, as projected section lines divide the property into 4 parts.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 72-07374

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of November 1, 1996. Please note that the priority date has been advanced to August 17, 1984.

Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the **SOUTHERN** Regional Office in Twin Falls at (208)736-3033.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 72-07374

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1996. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

RICHARD J ANDREWS
SUNBEAM STORE
STANLEY ID 83278

PROOF DUE NOTICE

RE: PERMIT NO. 72-07374

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1996. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 72-07374

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Permission is hereby granted to Richard J. and Suzanne H. Andrews
of 16080 N. 59th Avenue, Glendale, AZ 85306
hereinafter called the permittee, to use subject to the conditions set out below, the following described
lands or improvements for the period of 20 years from the date thereof:

A parcel of land in unsurveyed NE¹/₄, Section 19, T. 11 N., R. 15 E., B.M.
as shown on map designated Sunbeam Store, dated December 14, 1966, which
is attached and made a part of this permit.

This permit covers approx. 3.8 acres and is issued for the purpose of:

Construction, operation, and maintenance of a resort including but not
limited to lodge, cabins, restaurant, store, trailer parking area,
interior roads, and parking areas.

1. Construction or occupancy and use under this permit shall begin within -- months, and
construction, if any, shall be completed within -- months, from the date of the permit. This
use shall be actually exercised at least 180 days each year, unless otherwise authorized
in writing.

2. In consideration for this use, the permittee shall pay to the Forest Service, U.S. Department of Agriculture, the sum of xxxxxx Dollars (\$xxxxxx) for the period from xxxxxx
xxxxxx 19xx, to xxxxxx 19xx, and thereafter
annually on xxxxxx Dollars (\$xxxxxx)
Provided, however, that the charges for this use shall be readjusted as of and effective on the beginning
of each 5-year period from the due date of the first annual payment in order to place the charges on a basis
commensurate with the value of use authorized by this permit.

3. This permit is accepted subject to the conditions set forth herein, and to conditions 72 to
72 attached hereto and made a part of this permit.

PERMITTEE	NAME OF PERMITTEE <u>Richard J. Andrews</u>	SIGNATURE OF AUTHORIZED OFFICER <u>Richard J. Andrews</u>	DATE <u>3/28/83</u>
ISSUING OFFICER	NAME AND SIGNATURE <u>R. F. Hoag Jr.</u>	TITLE <u>Acting Forest Supervisor</u>	DATE <u>4/5/83</u>

4. Development plans; lay-out plans; construction, reconstruction, or alteration of improvements; or revision of lay-out or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; provided that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

6. This permit is subject to all valid claims.

7. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

8. The permittee shall take all reasonable precaution to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

9. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the national forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

10. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

11. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

12. Except as provided in Clause 16 below, upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and the restoration of the site.

13. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner above provided is qualified as a permittee, and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises will be authorized by a permit to him, which may be for the unexpired term of this permit or for such new period as the circumstances justify.

14. The permittee may sublease the use of land and improvements covered under this permit and the operation of concessions and facilities authorized; Provided the express written permission of the Forest Supervisor has been secured. The permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

15. This permit may be revoked upon breach of any of the conditions herein.

16. If during the term of this permit or any extension thereof, the Secretary of Agriculture or any official of the Forest Service acting by or under his authority shall determine that the public interest requires termination of this permit, this permit shall terminate upon thirty days' written notice to the permittee of such determination, and the United States shall have the right thereupon to purchase the permittee's improvements, to remove them, or to require the permittee to remove them, at the option of the United States, and the United States shall be obligated to pay an equitable consideration for the improvements or for removal of the improvements and damages to the improvements resulting from their removal. The amount of the consideration shall be fixed by mutual agreement between the United States and the permittee and shall be accepted by the permittee in full satisfaction of all claims against the United States under this clause: *Provided*, That if mutual agreement is not reached, the Forest Service shall determine the amount and if the permittee is dissatisfied with the amount thus determined to be due him he may appeal the determination in accordance with the Appeal Regulation (36 C.F.R. 211.20 - 211.37) and the amount as determined on appeal shall be final and conclusive on the parties hereto; *Provided further*, That upon the payment to the permittee of 75% of the amount fixed by the Forest Service, the right of the United States to remove or require the removal of the improvements shall not be stayed pending final decision on appeal.

17. The permittee agrees that the improvements on the land described in this permit shall be used for the purpose of the permit and shall not be used for any other purpose. The permittee shall not transfer, assign, or otherwise dispose of the improvements or the land described in this permit without the written consent of the Forest Supervisor. The permittee shall not use the improvements or the land described in this permit for any purpose other than the purpose for which the permit was issued.

18. In case of change of address the permittee shall immediately notify the forest supervisor.

19. In the event of any conflict between any of the preceding printed clauses or any provision thereof and any of the following clauses or any provisions thereof, the following clauses will control.

OCT 27 1992

1. Gross Fixed Assets (GFA) is the total cost of improvements, equipment, and fixtures necessary and used to generate sales and other income during the permit year on the permitted area or within the development boundary shown in this permit.
 - a. Costs of the following items verified by a representative of the Forest Service to be in existence and used by the permittee are included:
 - (1) Expensed items that are identifiable structures, major equipment, such as road maintenance equipment, or land improvements which play a distinct role in generating sales.
 - (2) Identifiable permittee costs, whether capitalized or not, to provide utility services to the area.
 - b. Such items as the following are not a part of GFA:
 - (1) Assets that ordinarily qualify for inclusion in GFA, but which are out of service for the full operating year for which fees are being determined.
 - (2) Land.
 - (3) Expendable or consumable supplies.
 - (4) Intangible assets, such as goodwill, organization expense, and permit value.
 - (5) Improvements not related to the operation.
 - (6) Luxury improvements not used to generate sales.
 - (7) Improvements not located on the permit sites or within the development boundary.

As of December 31, 1981, the initial GFA under this ownership has been determined to be \$131,460 as shown in detail on attached schedule A.

2. Sales for the purpose of fee calculation include (1) revenue derived from all goods and services sold which are related to operations under this permit and (2) the value of gratuities not excluded by item g. Gratuities include such goods, services, or privileges as discounts, gifts, dividends, or benefits that are furnished to such individuals as stockholders, owners, creditors or other obligees, officers, employees or their families, at rates or under conditions not available to the general public. Such gratuities will be sales-priced by the permittee at the current price to the public.

OCT 27 1992

20. (A-13) - A late payment charge in addition to the regular fees shall be made for failure to meet the fee payment due date or any of the dates specified for submission of statements required for fee calculation. The late payment charge shall be \$15, or an amount calculated by applying the current rate prescribed by Treasury Fiscal Requirements Manual Bulletins to the overdue amount for each 30-day period or fraction thereof that the payment is overdue, whichever is greater. If the due date falls on a nonworkday, the late payment charge will not apply until the end of the next workday.
21. (A-7) - For purposes of recording and reporting sales, and sales-related information including the cost of sales, the activities of the concessioner are divided into:

Grocery. Includes the sale of items usually associated with grocery stores such as staple foods, meats, produce, household supplies, and drug articles. This item also includes the sale of bottled soft drinks, wine, and beer when included in the grocery operation.

Service, Food. Includes the serving of meals, sandwiches, and other food materials either consumed on the premises or prepared for carryout. Snackbars are included here, as well as the sale of nonalcoholic drinks, wine, and beer, served in conjunction with food.

Service, Cars. Includes servicing and the sale of fuels, lubricants, and all kinds of articles used in servicing and repairing autos, boats, snowmobiles, aircraft, etc.

Merchandise. Includes the sale of miscellaneous clothing, and such items as hardware, souvenirs, and gifts. Bait, fishing rods, reels, boats, motor and boating accessories are included as well as other sporting equipment and clothing sales. Where a "Service, Cars" category of business is not established by this permit, the sale of auto accessories is included in this category.

Service, Liquor. Includes the sale of alcoholic drinks for consumption on the premises and other sales ordinarily a part of a bar or cocktail-lounge business. Where a bar is operated in conjunction with a restaurant or overnight accommodations, liquor and beer sales are recorded separately from the other sales and included in this category. The sale of alcoholic beverages for consumption off the premises is also included in this item, except as indicated in "Grocery" and "Service, Food".

Service, Room. Includes lodging where daily room service is furnished.

Rentals and Services. Includes the rental of furnished or unfurnished cabins, cottages, housekeeping rooms, condominiums, motel units, (where daily maid service is not furnished by the permittee), etc., and the rental of camping space, trailer space, horses, trailers, and other equipment rentals.

MICROFILMED

OCT 27 1992

h. Franchise receipts. (See definition below.)

i. Commissions. (See definition below.)

3. Franchise Receipts are defined as amounts paid the permittee by sublessees, as determined at the time franchise operations are authorized, solely for the opportunity to do business at a specific location in addition to a stated rental fee. Franchise receipts may be in the form of fixed amounts of money or reduced prices for the franchiser's product or service. No franchise operations will be undertaken until approve, in advance, by the Forest Supervisor.

4. Commissions are payments received by the permittee for serving as an agent or providing services, such as those described in items e. and f.

22. (A-8) - The annual fees due the United States for those activities authorized by this permit shall be calculated on sales according to the schedule below.

Kind of Business	Breakeven Point		Balance of Sales Rate (Percentage)
	(Sales to GFA) (Percentage)	Rate Base (Percentage)	
Grocery	70	.75	.85
Service, Food	70	1.25	1.50
Service, Cars	70	1.30	1.60
Merchandise	70	1.50	1.80
Service, Liquor	60	1.80	2.15
Service, Room	40	4.00	5.30
Rentals & Services	30	4.50	5.95

A weighted-average breakeven point (called the breakeven point) and a weighted-average rate base (called the rate base) will be calculated and used when applying the schedule to mixed business. If the permittee's business records do not clearly segregate the sales into the business categories authorized by this permit, they will be placed in the most logical category whenever possible. If sales with a different rate base are grouped, it will be necessary to place them all in the rate category that will yield the highest fee. The fee on sales below the break-even point will be calculated using 50 percent of the rate base. The fee on sales between the breakeven point and twice the breakeven point will be calculated using 150 percent of the rate base. The fee on sales above twice the breakeven point will be calculated using the balance of sales rate. Form 2700-19 will simplify computation.

OCT 27 1992

The following items will be excluded from gross receipts or revenue to arrive at sales:

- a. Refunds from returned merchandise and receipts from sales of real and non-rental personal property used in the operation. Sales of property such as rental equipment previously used for generating operating revenue, when sold on the premises, are to be included in gross receipts. Examples of this are rental items such as boats and motors, which may be sold periodically and replaced. If such equipment is traded in or sold off-premises, the value or revenue will be excluded from sales.
- b. Rents paid to the permittee by sublessees, even if based on sales. (The gross sales of sublessees are included as provided under item (1).)
- c. Amounts received for goods sold, services rendered, or privileges granted at a price lower than the permittee's current price to the public. (The full value is included as provided under item (2).)
- d. Sales taxes paid or payable to taxing authorities and Federal and State gasoline taxes on sales of gasoline collected from customers.
- e. Amounts paid or payable to a Government licensing authority or recreation administering agency from sales of hunting or fishing licenses and recreation fee tickets.
- f. Value of sales where the permittee is serving as a collection or sales agent for businesses not directly associated with the permitted operation. This includes such things as bus- or sightseeing-ticket sales for trips not related to activities on the permitted area, telephone-toll charges, and accident-insurance sales.
- g. Items listed in a policy statement prepared by the permittee pertaining to gratuities previously approved in writing by the Forest Supervisor. The policy may provide for those furnished to persons present in the interest of public safety; those whose presence will significantly increase sales by publicity for the operation; competitors, judges, and other officials of organized competitive or exhibition events; officials responsible for inspection and administration of the permitted use; and other similar purposes. The policy statement will describe how gratuities are to be recorded. A record of all gratuities will be kept by the permittee as a part of the record under this permit.

MICROFILMED
OCT 27 1992

To the above basic fee will be added the fee for commissions calculated by applying the weighted average fee rate to revenue derived by dividing the total basic fee by sales.

To the above fees will be added 50 percent of franchise receipts.

The minimum annual fee for this use, which is due in advance and is not subject to refund, will be equal to the fee that would result when sales are 40 percent of the break-even point. This fee will be calculated and billed by the Forest Service during the final quarter of the permittee's fiscal year using the most recent GFA figure and previously reported sales data for the current year, plus, if the operating season is still active, estimated sales for the remainder of the year.

23. (A-10) - Upon determination by the Chief of the Forest Service that sufficient changes have occurred in conditions relating to specific kinds of business to warrant review, break-even points and rates will be re-examined and, if appropriate, new schedules will be prepared by the Forest Service to be effective in all permits authorizing such business or businesses. The charges for this permit will be developed according to the new schedule, as of, and effective on, the beginning of the permittee's business year following approval of the revised rate scheduled.
24. (A-12) - Reports and deposits required as outlined above shall be tendered in accordance with the schedule below. They will be sent or delivered to the Collection Officer, Forest Service, USDA, at the address furnished by the Forest Supervisor. Checks or money orders will be payable to "Forest Service, USDA".

The permittee will:

- (1) During the final fiscal quarter, pay within 15 days of billing by the Forest Service, the annual minimum fee for the next year.
- (2) The permittee must send to the Forest Supervisor on or before January 31 of each year a statement of sales as defined in the Sales Clause of this permit for itself and each sublessee for the same period. The permittee must also provide within three (3) months after close of its operating year a balance sheet representing its financial condition at the close of its business year, an annual operating statement reporting the results of operations including year-end adjustments for itself and each sublessee for the same period, and a schedule of gross fixed assets adjusted to comply with the terms of this permit in a format and manner prescribed by the Forest Service.
- (3) Within 15 days of receipt of a statement from the Forest Supervisor, pay any additional fee required to correct fees paid for the past years' operation.

OCT 27 1992

All fee calculations and records of sales and GFA are subject to periodic audit. Errors in payment will be corrected as needed in conformance with those audits.

25. (A-14) - For the purpose of administering this permit (including ascertaining that fees paid were correct and evaluating the propriety of the fee base), the permittee agrees to make all of the accounting books and supporting records to his business activities, as well as those of sublessees operating within the authority of this permit, available for analysis by qualified representatives of the Forest Service or other Federal agencies authorized to review the Forest Service activities. Review of accounting books and supporting records will be made at dates convenient to the permittee and reviewers. Financial information so obtained will be treated as confidential to the extent allowed in the Freedom of Information and the Privacy Acts (5 U.S.C. 552 and 552a, respectively).

The permittee will retain the above records and keep them available for Forest Service review for 3 years after the end of the year involved, unless disposition is otherwise authorized by the Forest Service in writing.

26. (A-15) - The permittee shall follow generally accepted accounting principles in recording his financial transactions and in reporting results to the Forest Service. When requested by the Forest Service, the permittee at his own expense will have his annual accounting reports audited by a public accountant acceptable to the Forest Service. The permittee will require his sublessees to comply with these same requirements. The minimum acceptable accounting system will include:
- (1) Systematic internal controls and recording by kind of business the gross receipts derived from all sources of business conducted under this permit. Receipts should be recorded daily and, if possible, deposited into a bank account without reduction by disbursements. Receipt entries should be supported by such source documents as cash-register tapes, sale invoices, room-rental records and cash accounts from other sources.
 - (2) A record of all disbursements, including capital items, and a permanent record of investments in facilities.
 - (3) Bank accounts will be maintained separately for the businesses conducted under this permit and not comingled with those for other businesses of the permittee.
27. (B-2) - During the performance of this permit, the permittee agrees:
- a. In connection with the performance of work under this permit, including construction, maintenance, and operation of the facility, the permittee shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin.

OCT 27 1962

- b. The permittee and his employees shall not discriminate by segregation or otherwise against any person on the basis of race, color, religion, sex, or national origin by curtailing or refusing to furnish accommodations, facilities, services, or use privileges offered to the public generally.
 - c. The permittee shall include and require compliance with the above nondiscrimination provisions in any subcontract made with respect to the operations under this permit.
 - d. Signs setting forth this policy of nondiscrimination to be furnished by the Forest Service will be conspicuously displayed at the public entrance to the premises, and at other exterior or interior locations as directed by the Forest Service.
28. (B-8) - The permittee shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.
29. (B-10) - The permittee shall have in force public liability insurance covering: (1) property damage in the amount of ten thousand dollars (\$10,000), and (2) damage to persons in the minimum amount of one hundred thousand dollars (\$100,000) in the event of death or injury to one individual and the minimum amount of three hundred thousand dollars (\$300,000) in the event of death or injury to more than one individual. The coverage shall extend to property damage, bodily injury, or death arising out of the permittee's activities under the permit including, but not limited to, the occupancy or use of the land and the construction, maintenance, and operation of the structures, facilities, or equipment authorized by this permit. Such insurance shall also name the United States as a co-insured and provide for specific coverage of the permittee's contractually assumed obligation to indemnify the United States. The permittee shall require the insurance company to send an authenticated copy of its insurance policy to the Forest Service immediately upon issuance of the policy. The policy shall also contain a specific provision or rider to the effect that the policy will not be canceled or its provisions changed or deleted before thirty (30) days written notice to the Forest Supervisor, 1525 Addison Avenue East, Twin Falls, Idaho 83301, by the insurance company.

Rider Clause (for insurance companies). It is understood and agreed that the coverage provided under this policy will not be canceled or its provisions changed or deleted before thirty (30) days written notice to the Forest Supervisor, 1525 Addison Avenue East, Twin Falls, Idaho 83301, from the insurance company.

30. (B-11) - The operation and maintenance of all sanitation, food service, and water supply methods, systems, and facilities shall comply with the standards of local and state authorities and the Environmental Protection Agency of the United States. The permittee shall dispose of all garbage and refuse in a place and manner specified by the Forest Officer in charge.

OCT 27 1992

31. (B-18) - The permitted area will be maintained to present a clean, neat, and orderly appearance. Trash, debris, unusable machinery, improvements, etc., will be disposed of currently. Building materials, firewood, etc., will be neatly stacked.
32. (B-20) - The permittee shall dispose of refuse resulting from this use, including waste materials, garbage, and rubbish of all kinds, in the following manner, and shall guard the purity of streams and living waters:

The refuse shall be disposed of at the Stanley Sanitary landfill.

33. (B-31) - Natural phenomena in the Forest, such as avalanches, rising waters, high winds, falling limbs or trees, and other hazards present risks to the permittee's property which the permittee assumes. The permittee has the responsibility of inspecting his site, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions and, after securing permission from the Forest Service, of removing such hazards, in order to protect his improvements.
34. (C-1) - As a part of this permit, a schedule for the progressive development of the permitted site and installation of facilities shall be prepared jointly by the permittee and the Forest Service. Such a schedule shall be prepared by September 30, 1983, and shall set forth an itemized priority list of planned improvements and the due date for completion. This schedule shall be made a part of this permit. The permittee may accelerate the scheduled date for installation of any improvement authorized, provided the other scheduled priorities are met; and provided further, that all priority installations authorized are completed to the satisfaction of the Forest Service and ready for public use prior to the schedule due date.

All required plans and specifications for site, improvements, and structures included in the development schedule shall be submitted to the Forest Service at least forty-five (45) days before the construction date stipulated in the development schedule.

In the event there is agreement with the Forest Service to expand the facilities and services provided on the areas covered by this permit, the permittee shall jointly prepare with the Forest Service a development schedule for the added facilities prior to any construction. Such schedule shall be made a part of this permit.

35. (C-2) - The permittee shall prepare site plans to show the location of all buildings, service areas, roads, and structures. Site plans will be drawn to a scale to be determined during joint discussion between the Forest Supervisor or his authorized representative and the permittee. The permittee is encouraged to consult with the Forest Service during the preparation of all site plans to ensure that they are adequate and to gain multiple use compliance. No construction shall be undertaken by the permittee prior to site plan approval.

NOV 27 1992

36. (C-3) - The permittee agrees to deliver and maintain a surety bond in the minimum amount of 50 percent of the total value of any new construction authorized by the Forest Service. If the permittee has a contractor perform services, he may require the contractor to furnish a bond. If the bond is in sufficient amount and the Forest Service is named as co-obligee on the bond, the Forest Service may accept the contractor's bond. Prior to undertaking any alteration work or when the improvements are to be removed and the area restored, the permittee shall deliver and maintain a surety bond in an amount set by the Forest Service, which amount shall not be in excess of the estimated loss which the Government would suffer upon default in performance of this work.

Should any surety or any bond delivered under this permit become unsatisfactory to the Forest Service, the permittee shall, within thirty (30) days of demand, furnish a new bond with a surety that is solvent and satisfactory to the Forest Service. In lieu of surety bond, the permittee may deposit into a Federal depository, as directed by the Forest Service, and maintain therein, cash in the amounts provided for above, or negotiable securities of the United States having a market value at time of deposit of not less than the dollar amounts provided above. As soon as security for the performance of the work for which the bond was provided, or for settlement of claims incident thereto, is no longer necessary, deposits which may have been made in lieu of surety bond shall be returned to the permittee, or appropriate notice shall be given to the surety.

37. (C-4) - The permittee shall prepare grading plans, profiles, and cross-sections to show precise elevations, excavations, and other details related to the installation of buildings, structures, or improvements on the permitted-use area. Such plans shall include provisions for drainage, retaining structures, seeding, and planting, to be made for the prevention and control of erosion on the permitted area and the National Forest lands adjacent to the permitted area, insofar as the latter may be influenced by the permitted use.
38. (C-5) - The permittee shall submit planting plans to reasonably restore or protect all areas disturbed during construction of the resort. Such plans will identify plant material by botanical name, size, and location. Each stage of construction will be considered complete only upon completion and acceptance of the successful seeding and planting in the vicinity of construction. All seeding and planting required on the permitted area shall be completed according to the development schedule.
39. (C-6) - All plans and specifications for buildings shall be prepared by an architect licensed in the State in which the building will be located. The plans shall be in accordance with the current uniform Building Code. Building plumbing shall be in accordance with the National Plumbing Code. The electrical system shall be in accordance with the National Electrical Code. Other systems shall be designed in accordance with recognized standards.

RECEIVED
OCT 27 1992

Plans shall be submitted to the Forest Service for approval prior to beginning of construction.

The permittee shall submit to the Forest Service a certification by the architect or engineer who inspected construction that the building has been constructed in accordance with the approved plans before the building is approved for use.

40. (D-2) - No waste or byproducts shall be discharged if it contains any substances in concentrations which will result in substantial harm to fish and wildlife, or to human water supplies.

Storage facilities for materials capable of causing water pollution, if accidentally discharged, shall be located so as to prevent any spillage into waters, or channels leading into water, that would result in substantial harm to fish and wildlife or to human water supplies.

41. (D-3) - The permittee shall protect the scenic esthetic values of the area under this permit, and the adjacent land, as far as possible with the authorized use, during construction, operation, and maintenance of the improvements.
42. (D-4) - The permittee shall take reasonable precautions to protect, in place, all public land survey monuments, private property corners, and Forest boundary markers. In the event that any such land markers or monuments are destroyed in the exercise of the privileges authorized by this permit, depending on the type of monument destroyed, the permittee shall see that they are re-established or referenced in accordance with (1) the procedures outlined in the "Manual of Instructions for the Survey of the Public Land of the United States", (2) the specifications of the county surveyor, or (3) the specifications of the Forest Service.

Further, the permittee shall cause such official survey records as are affected to be amended as provided by law.

43. (D-5) - The permittee will take reasonable measures to prevent and discourage vandalism or disorderly conduct, and when necessary, will call in the appropriate law-enforcement officer.
44. (D-7) - The permittee shall be responsible for the prevention and control of soil erosion and gulying on the area covered by this permit and lands adjacent thereto, resulting from construction or operation of the permitted use, and shall provide preventive measures as required by specifications designated by Forest officer in charge.
45. (D-9) - All earth cut or fill slopes favorable to revegetation or other areas on which ground cover is destroyed in the course of construction will be revegetated to grasses or other suitable vegetation as required by the Forest Supervisor.

RECEIVED
OCT 27 1992

46. (D-10) - Topsoil shall be stripped from the permitted area and be deposited in storage piles apart from other excavated material. After the desired amount of material has been removed, and the resulting pit has been trimmed and smoothed as required, the stored topsoil shall be evenly spread over exposed subsoil to the extent that may be practicable, and shall be revegetated.
47. (D-11) - Seeding or planting will be done at a time of the year, in a manner, and with species which the District Ranger considers offer the best chance of success and will be repeated annually until such areas are accepted in writing by the District Ranger as satisfactorily revegetated and stabilized.
48. (D-14) - All butane, propane, or other liquified-petroleum-gas equipment shall be installed and operated in accordance with the laws and regulations of the State.
49. (D-15) - The permittee shall take reasonable precautions to prevent pollution of or deterioration of lands or waters which may result from the exercise of the privileges extended by this permit.
50. (E-7) - No trailer may remain on the concession area for more than thirty (30) days in any one calendar year, except at sites specifically designed for storage in nonuse. At least 50 percent of developed trailer spaces will be reserved for use by visitors planning to stay for less than fifteen (15) days.
51. (E-8) - Any lands described in this permit which have been withdrawn for waterpower purposes under the act of March 3, 1879, or act of June 25, 1910 (or are embraced in an application or license under the Federal Power Act of June 10, 1920), or have been withdrawn under the Reclamation Act of June 17, 1902, are subject at any time to use in connection with the development of waterpower or for reclamation purposes. This permit, therefore, is issued with the specific understanding that (1) its use shall not interfere with such waterpower or reclamation development and that (2) the permit may be, if necessary, terminated upon ninety (90) days notice when in the judgment of the Federal Power Commission, or of the Bureau of Reclamation in the event of reclamation withdrawals, the lands occupied are needed for use in connection with the generation of hydroelectric power, reclamation developments, or other purposes contemplated by the act or acts under which the lands have been withdrawn. No claim shall be made against the United States or power licensees for or on account of prospective profits or for any injury or damage to properties, improvements, or operations due to such development. The permittee will be allowed ninety (90) days in which to remove his improvements.

In the event the lands are needed for the withdrawn purposes, clause 16 of this permit is inoperative.

52. (F-4) - Open fireplaces shall be equipped with spark screens.
53. (F-5) - The roof shall be kept reasonably clear of leaves, twigs, and other debris.

OCT 27 1992

54. (F-6) - All electrical equipment and facilities installed and operated shall conform to the National Electric Code and the equipment must have been approved by the American Insurance Association.
55. (F-7) - The permittee shall install fire extinguishers and fire-fighting apparatus of types, of capacities, in numbers, and at locations approved by the Forest Supervisor. This equipment shall be in readiness at all times for immediate use, and shall be tested each year, at such times as may be required by the Forest Supervisor.
56. (F-25) - No fireworks shall be stored or used on the land covered by this permit, or in the structures thereon.
57. (X-3) - Nothing in this permit shall be construed to imply permission to build or maintain any structure not specifically named on the face of this permit, or approved by the Forest Service in the form of a new permit or permit amendment. Additional structures requiring specific approval shall include, but are not limited to: signs, fences, nameplates, mailboxes, newspaper boxes, boathouses, docks, pipelines, and television antenna.
58. (X-5) - The land herein described is subject to certain rights reserved by or outstanding in parties other than the United States, and nothing herein shall abridge said rights or authorize prevention or obstruction of the reasonable exercise thereof.
59. (X-7) - No animals or fowl, other than household pets, shall be kept upon the premises.
60. (X-22) - The Forest Service shall have the authority to check and regulate the adequacy and type of services provided the public and to require that such services conform to satisfactory standards. The permittee may be required to furnish the Forest Service a schedule of prices for sales and services authorized by the permit. Such prices and services may be regulated by the Forest Service: Provided, That the permittee shall not be required to charge prices lower than those charged by comparable or competing enterprises.
61. (X-24) - Gambling or gambling machines or devices will not be permitted on National Forest lands regardless of whether or not they are lawful under State law or county ordinances.
62. (X-26) - The sale of liquors, beer, and wine is allowed under this permit. However, if conditions develop as a result of this privilege which, in the judgment of the Forest officer in charge are undesirable, the sale of such liquor, beer, and wine shall be discontinued. In the event that this action becomes necessary, the permittee will be informed in writing by the Forest Service.
63. (X-28) - The permittee shall restrict all parking to areas approved by the Forest Service.

RECEIVED
OCT 27 1992

64. (X-29) - No signs or advertising devices shall be erected on the area covered by this permit, or highways leading thereto, without prior approval by the Forest Service as to location, design, size, color, and message. Erected signs shall be maintained or renewed as necessary to neat and presentable standards.
65. (X-30) - The permittee, in his advertisements, signs, circulars, brochures, letterheads, and like materials, as well as orally, shall not misrepresent in any way, either the accommodations provided, the status of his permit, or the area covered by it or tributary thereto.

The fact that the permitted area is located on the Sawtooth National Forest shall be made apparent in all of the permittee's brochures and advertising regarding use and management of the area and facilities under permit.

66. (X-42) - The permittee, in the exercise of the privileges granted by this permit, shall require that its employees, sublessees, contractors, subcontractors, or renters and their employees comply with all applicable conditions of this permit and that the conditions of this permit be made a part of all subleases, contracts, subcontracts, or rental agreements.
67. (X-92) - The permittee, if a corporation, shall notify the Forest Service within fifteen (15) days of changes listed below:
- a. Names of officers appointed or terminated.
 - b. Names of stockholders who acquire stock shares causing their ownership to exceed 50 percent of shares issued or who otherwise acquire controlling interest in the corporation.
68. (X-93) - The permittee, if a corporation, shall furnish the Forest Supervisor a copy of the articles of incorporation, a copy of the corporation's bylaws and, in addition, an authenticated copy of a resolution of the board of directors specifically authorizing one certain individual or individuals to represent the permittee in its dealing with the Forest Service. Also, the permittee will furnish the Forest Supervisor a list of officers and directors of the corporation and their addresses and promptly notify him of any changes. A certified list of the stockholders and amount of stock owned by each will be furnished the Forest Supervisor on his request.
69. Drinking water testing shall be accomplished by the permittee in accordance with Federal, State, and local regulations, or as directed by State health officials. As a minimum, a sample of the drinking water shall be submitted by the permittee to a certified laboratory for microbiological contaminant analysis prior to opening the seasonal system to public use, and at a rate of one test per calendar quarter during the season of operation. Copies of all test results will be forwarded to the Forest Service representative, and the permittee will take appropriate action to correct any deficiencies as may be deemed necessary by the Forest Service and/or State or local health officials.

OCT 27 1992

In addition, the permittee shall submit a drinking water sample to a certified laboratory for nitrate analysis in accordance with State regulations but not less often than once every three years and submit results to the Forest Service representative. Nitrate (as nitrogen) levels in excess of 1 milligram per liter will not be supplied to the public unless otherwise approved.

70. Pesticides may not be used to control undesirable woody and herbaceous vegetation, aquatic plants, insects, rodents, trash fish, etc., without the prior written approval of the Forest Service. A request for approval of planned uses of pesticides will be submitted annually by the permittee on the due date established by the Forest Supervisor. The report will cover a 12-month period of planned use beginning 3 months after the reporting date. Information essential for review will be provided in the form specified. Exceptions to this schedule may be allowed only when unexpected outbreaks of pests require control measures which were not anticipated at the time the annual report was submitted, at which time an emergency request and approval may be made.

Only those materials registered by the U.S. Environmental Protection Agency for the specific purpose planned will be considered for use on National Forest Systems lands. Label instructions will be strictly followed in the application of pesticides and disposal of excess materials and containers.

71. (X-123) - The permittee and the Forest Service shall jointly prepare an operations plan covering the activities and the operation of facilities under provisions of this special use permit.

The provisions of the operations plan and any revisions thereto will become a part of this permit and will be signed by the Forest Supervisor and the permittee or his designated representative.

72. (X-18) - This permit supersedes a special-use permit designated: PWT Management Services, Inc., Sunbeam Resort, dated 5/7/81.

Re: Application for Permit No. 72-7374

Dear Mr. Andrews:

This office has been advised by the Sawtooth National Forest that the possibility of a special use permit for your proposed diversion from Sunbeam Hot Springs is being researched.

We will continue to hold your application pending that determination.

If you have questions, or if this office can be of any assistance, please contact us.

Very truly yours

Dear Loren,

This letter is to serve as documentation of my phone conversation with you on October 11, 1984 regarding an application for permit, (Application for permit No. 72-7374) on file at your office, from Richard J. Andrews, Sunbeam Resort, Stanley, Idaho 83278.

We are currently in the process of determining if a special use permit can be issued for the diversion and hot springs source Mr. Andrews has requested. Until this decision is made, I am requesting that your office hold Mr. Andrews application.

Thank you for your cooperation.

Sincerely,

STEVEN E. LIPUS
Recreation Assistant

Re: Application for Permit No. 72-7374

Dear Mr. Andrews:

This office is currently holding your application for permit.

We have received a letter from the Sawtooth Nation Forest, copy enclosed, opposing your application. The letter was not received in time to be heard as a protest.

However, before receiving a permit, you must obtain a special use permit or right of way to drill wells or build diversion works on forest land.

We will continue to hold your application for 30 days to allow time for you to make the necessary application to the Forest Service. Please notify this office when you have applied to the Forest Service.

Once we have received notice that you are pursuing permission to construct diversion works, we will hold further action until either a permit or a final denial is issued by the Forest Service.

Please contact his office if you have any questions.

Very truly yours,

Loren O. Holmes
Southern Region Supervisor

Re: Application for Permit No. 72-7374 - Richard J. Andrews

Gentlemen:

This office is in receipt of your letter dated August 16, 1984 protesting application 72-7374.

The protest was received after the August 6, 1984 date specified in the legal notice of the application for filing protests.

The statutes make no provision for hearing of a protest received after the specified deadline date.

The following issues which must be considered by the Department in granting or denying a permit are as follows:

- 1) Will the proposed use reduce the quantity of water under existing water rights?
- 2) Is the proposed water supply insufficient for the purpose intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?
- 5) Will the proposed use conflict with the local public interest?

In addition, the applicant must obtain permission from the Forest Service to construct diversion works on forest land before a permit will be issued.

Dear Mr. Dunn:

The Sawtooth National Forest wishes to protest water right application 72-7374 by Andrews, Richard J., Sunbeam Store, Stanley, Idaho 83778.

Whereas the application is for a hot springs, this brings it under Code of Federal Regulations dealing with Part 3200 - Geothermal Resources Leasing; General.

Under subpart 3201.1-3, Department of Agriculture.

Leases for public, withdrawals or acquired lands administered by the Forest Service, may be issued by the Secretary of Interior only with consent of "the head of the Department."

Subpart 3201-6, Excepted Areas.

Leases shall not be issued for lands which are "within a National Recreation Area."

ROLAND M. STOLESON
Forest Supervisor

Re: Application for Permit

Dear Mr. Andrews:

Per our conversation of June 5, 1984, we have prepared an application for permit to replace the one you submitted in April without a filing fee.

The new application requests 23 gpm for heating use and 18 gpm for commercial use in the spa. Based on the availability of 169° water, these amounts should be sufficient for your needs.

If the application is satisfactory, please return the signed application and filing fee of \$30.00 to this office for further processing.

If you have questions concerning this matter, please feel free to contact this office.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
