Re; 72-7290

Dear Mr. & Mrs. Leaton

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Very truly yours,

Lloyd Payne

LAPSE NOTICE

RE: PERMIT NO. 72-07290

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated December 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

RE: PERMIT NO. 72-07290

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1989.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

DATE • November 5, 1987

FILE 72-7290

NAME OF PARTY Harold LeatonEMPLOYEE Kay WalkerRE: Water Rights

Mr. Leaton came in to the office this morning concerned that his water will be confiscated by other users. He has been the only user of the water he has been permitted to use (which is wastewater). We researched other rights in the area of his point of diversion and found that he has the only filing on wastewater in this area. (NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32) He also stated that his wastewater may actually be spring water or a comminglation of wastewater and spring water. There are no filings for spring water in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32 either.

Mr. Leaton has been the only person to perform any type of maintenance and/or cleaning of the ditch that he diverts his water into. He wants to save his water right and would like to feel that our Department will back him up if anyone tries to develop his water into another system.

Mr. Leaton and I filled out a proof of beneficial use form and he took it with him to submit when he had the fee to accompany the form.
