Dear Mrs. Sterling:

Re: Permit No. 72-7268

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal, an acceptable request for an extension of time or a response to Rita Fleck's letter of November 15, 1988.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

Dear Ms. Sterling:

Re: Permit No. 72-7268

Returned is the proof of beneficial use form along with your check No. 462 in the amount of \$15. Before the department can accept the proof, more information and a proper licensing exam fee is required.

Please indicate the rate for which proof is submitted. The permit was issued for 0.19 cfs (approximately 85 gpm). If this is the rate the system will produce when running at maximum capacity, then indicate the amount on the proof form. Note the instruction sheet/fee schedule. For the diversion of water greater than 0.04 cfs but less than 0.20 cfs, the licensing exam fee is \$50.

Also, if you wish the permit to show your new name, then you should complete and return the assignment form conveying the permit from Gary Martonen or Dolly Martonen to Dolly Martonen Sterling. The assignment should show your address, permit number, and be signed before a notary public.

In association with the water right process, the department is trying to follow up on well driller's reports. The department cannot locate a report for this well, please send us a copy if you have one or the name of the well driller if that's available.

Please return the forms and driller's information within thirty days. if you have questions concerning your water right, please feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: PERMIT NO. 72-07268 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
