RE: License #72-07248

Dear Mike:

I received your letter regarding the above referenced license that was recently issued. I understand your concerns and questions regarding the development of the irrigation portion of your permit.

Let me explain first that the examiner did find and note the irrigated area around your home and shop. Only the irrigated areas minus roads, buildings etc. can be credited as irrigation. The examiner found approximately .5 acres total irrigation. This would seem to be consistent with your diagram.

The definition of Domestic use includes up to .5 acres irrigation. If irrigation does not exceed .5 acres, it is not included as a separate use. The volume authorized on your license includes additional volume for external use or irrigation. Remark #5 on the license describes the internal uses, irrigation of up to .5 acres is assumed.

I hope this explanation clarifies your right as authorized by the license. You should be aware that the field exam includes reference to the irrigation and also a photo of the area with sprinklers and grass. I will also place your map and letter in the permanent record for reference and update your address in our database.

If you have any further questions regarding this matter, please feel free to contact me directly at 327-7943 or by mail.

Sincerely,

Pamela Skaggs

RE: Water Right No. 72-7248

Dear Pamela,

I was looking over the water right license issued to me and realized that the use is limited to domestic use. Domestic use is defined on line #5 as "Domestic use is for a shop and 1 home".

When application for permit was made, I requested usage for 5 acres. Development for beneficial use was not completed for the entire 5 acres, but was developed for the lawn and orchard areas. This work was completed during the summer months between 1984 and 1986.

I'm enclosing a copy of a letter from the Department of Water Resources dated July 13, 1989 from Lloyd Payne regarding a field examination. To the best of my knowledge, I can't remember ever talking to a field inspector nor showing anyone proof of development. Could it be that I missed the inspector and he didn't see the developments that I had made?

I am also enclosing a drawing and square footage areas the were developed. These areas have underground sprinklers installed that operate from a timer set to irrigate at night.

Would you review this information please and help me get the water right adjusted to include the developed irrigated acres.

Thank you for your help in this matter.

Sincerely,

Mike Lewis

Re; Permit No. 72-7248

Dear Mr. Lewis,

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Very truly yours,

Lloyd Payne

RE: Permit No. 72-7248

Dear Permit Holder:

The department received your Proof of Beneficial Use form, however, before completing processing, additional information is needed.

If you have a well driller's report, please send a copy to the department. If you do not have one, please let me know who drilled the well and when it was drilled.

Please remit the requested information by September 29, 1988 to keep your permit from losing priority.

If you have any questions, feel free to call me.

LAPSE NOTICE

RE: Permit No. 72-7248

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated February 28, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: Permit No. 72-7248

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
