Michael Barrett

Dear Mr. Barrett:

We are in receipt of the correspondence concerning ownership of the above referenced water right license.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license, if the previous land owner did not exclude the water right from the sale. Therefore, we will place your correspondence in the file for future reference only and no further action will be taken.

If you have any questions, please let us know.

Water is diverted by a 1.5' by 2' wooden collection box into a 2" plastic line. The line is buried for 800' where it comes to a sink and shower. A 1" garden hose is connected to the sink and fills a 300 gallon storage tank. This water, from the storage tank, is used in drilling in the mine. During exam, owner stated that mining was only done during the summer months; around 100 days he stated.
