Dear Ms. Baker:

Enclosed are forms and information to assist you in filing on water.

Since you did not indicate in your letter of June 6, 1979, whether you currently are using water, both an application for permit and a claim form are enclosed.

If water was diverted and used on your property in the past, a claim to a water right should be filed. If you plan to expand the usage of water or if a new use of water is planned, an application for permit should be filed.

The brochure explaining the claims program gives more detailed information which will help you to decide whether to file an application or a claim.

If you have any questions, please contact this office.

Very truly yours,

Dear Sirs:

I am writing in response to a certified letter from you (# 13180) Dated August 12, 1986. It was my understanding that it was mandatory to file for a water right- which we did on January 23, 1980. A \$20.00 fee was paid- receipt # 17081. Since then I have responded to all your correspondence- filling out all forms mailed to me- some of which stated that an examination would be made by your office. Now you write and tell me that I must pay a \$50.00 fee to have this examination made. I feel that this is unfair as I felt that I had done everything I needed to and that the matter was taken care of.

Should I have filed a claim to a water right instead of a permit. After reviewing all the information sent me again- a copy of which I enclose to you_ the information contradicts itself.

Please help me in this matter as I feel I should not have to pay you a \$50.00 examination fee to see if I am doing what I said I was. Am I right in thinking that you waited until such legislation was passed making it mandatory for me and no longer the responsibility of your office?

Also a listing of qualified persons to examine my pump would be appreciated.

I am anxiously awaiting your reply. Thank you,

Cheryl Baker

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

JAN 23 1989

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.
