Walter B. Jenson
Box 506
Challis, ID 83226

Dear Mr. Jenson:

One of the conditions of approval of your water Permit No. 72-7044 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Re: Application #72-7044
Walter B. Jenson

Dear Mr. Steele:

This letter was forwarded to our office in Pocatello for comments since the application for water is from an area in our region.

I have already been to the site, and went over the program for reworking of tailings. Mr. Jenson's plan is to divert the water and, after using it, put it into the numerous holes, etc. which are in the vicinity; therefore, he will have no effluent to the stream.

There are, therefore, no comments or objection to this application.

Yours very truly,
