Dear Mr. Patterson:

One of the conditions of approval of your water Permit No. 72-7014 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Patterson:

We are enclosing a copy of your application for permit.

At the time it was filed, under item 4 a specific quantity for stockwatering purposes on a year-round basis was omitted. Only a decimal point was shown on the application. The Department entered a quantity of water, being 0.02 c.f.s. for stockwatering purposes, which is more than adequate to serve the number of animals you propose. We also expanded the total under item 5a to include this rate of diversion. We believe at the time someone from the office telephoned you. However, we failed to make the necessary entries in the file. If you have no objection to the quantities entered, please advise us by return mail.

Your assistance in this matter is appreciated.

Very truly yours,

Dorian Clay,

Dear Mr. Patterson:

We are herewith returning your application for permit and personal check in the amount of \$10.00, numbered 92-297.

We find in reviewing this application that there are several questions that need clarification before we can take any action on the processing. Under item 1, please list your address. Also, please note under item 3a that the point of diversion should be listed by the 40-acre subdivision that it lies within. The ~~N $\frac{1}{2}$ NW $\frac{1}{4}$ that you have listed would cover two separate 40-acre subdivisions.~~ Under item 4, you have listed 0.12 c.f.s. for irrigation of five acres. As the Department considers .02 c.f.s., or one miners inch, to be a sufficient quantity for each irrigated acre, the maximum we could approve for appropriation under this application would be 0.1 c.f.s.

As soon as you have made these necessary clarifications and resubmitted the application, we shall begin its processing.

If we may be of any further assistance in this matter, please feel free to contact us.

Very truly yours,
