STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, **Idaho Code**, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), **Idaho Code**. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that

Ryan Hunt

(Name of Claimant)

Bx 719 CHALLIS, IDAHO 83226
(Mailing Address)

(Mailing Address)

Telephone No. 879-4213

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 1970

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

WARM SPRING Cr.

tributary to

3A MON River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, gpd, AFA)		(Domestic, Irrigation, Stock, Etc.)		(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)
Quantity	4.0 cfs.	Use	Livestock	Period of Use From	11-1 to 4-1
Quantity	}	Use		Period of Use From	To

Dear Sir,

I am writing ^{Department of Water Resources} regarding water claims 72-4135 72-4134. I talked to Mr. Holman sometime ago, he stated there was no Time Limit in Protesting. These people are diverting the water out of Warm Spring Creek and bringing it down the west side of the area. They do not have access to the Salmon River. They are damaging the Challis Irrigation Canal, the Keyes Ditch also the Upper McCarson Canal. The Warm Spring Creek does run on the East side of the area and does run into the River.

I came on this side of the River in 1953, at that time there was 100 inches of water on this west side and the rest stayed in its proper place.

I personally have put the water back in the Warm Spring Creek many times when they have tried to put too much water on the west side. The 2 Claims is on the same property. I know for a fact these Claims are False. Other people know this to be correct.

Department of

RE: Claim No. 72-4135

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

ALLEN D. MERRITT
Senior Water Resource Analyst

Re: Claim to a Water Right No. 72-4135

Dear Mr. Hunt:

We are enclosing copies of affidavits in opposition to your claim to a water right, submitted by Cliff M. Hansen, Lynr. and Rose Johnson, and Cliff Hanse, Lynn Johnson and G. C. Westergard, stockholders in the Upper McGowan Ditch.

The following is a quote from the provisions under which this claim has been filed (section 42-243b, of the IDAHO CODE):

"At any time after filing a claim under the provisions of this section any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the Department the same as the original and for which no additional filing fee shall be required."

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearings or evaluate for confirmation or final censorship of the described rights.

If you have any questions regarding this matter, please contact us.

Very truly yours,

Loren O. Holmes
Southern Region Supervisor

A. Kenneth Dunn
Director of the Idaho
Department of Water Resources
1041 Blue Lakes Blvd, North
Twin Falls, Idaho 83301

APR 11 1983

Department of Water Resources
Southern District Office

Dear Mr. Dunn:

We are writing to protest the claim for stock water rights of #72-4135, Ryan Hunt and #72-4134 Glendon Hunt amount to 8 cfs's of water.

This is an excessive amount of water to be diverted from Warm Springs Creek with no outlet to the Salmon River. The only outlet for this water is to run thru his neighbors ranch, thru a subdivision, across the county road into the Lower McGowan Ditch in which the owners of this ditch refuse to accept this amount of water running into their canal.

The above applicants are stockholders in the Challis Irrigation Canal and the waste water could run down it, but the stockholders refuse to let any water run in their canal.

The 8 cfs's of water is more water than will be left in the original Warm Springs Creek Channel with the outlet to the river. If this amount is granted to these people there will not be enough water left in the Warm Springs Creek to fill the water rights that are on file at this time in your office from Warm Springs Creek.

Also if these application are allowed, there should be some statement as to how they propose to take the water to the river or back into the Warm Springs Channel.

Please refer to the controversy that was had this last December of 1982 that your representative, Terry G. Blau mediated as this will also be a problem.

Sincerely

Lynn Johnson

April 8, 1983

Dear Mr. Dunn:

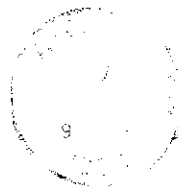

I would like to protest filing No. 72-4135 by Ryan Hunt & No. 72-4134 by Glendon H Hunt. The water they are filing on must be dumped into Upper Mc Lowan Ditch which is a privately owned irrigation ditch, of which I am a one-third owner. Water must travel in this ditch for approximately $\frac{1}{2}$ mile before it can continue on down the Warm Springs channel to the river. The water upon entering our irrigation ditch leaves an excessive amount of sediment & keeps water in the ditch at all times. This puts a great burden on all ditch owners as the sediment needs to be cleaned out. As ditch owners do we have to make our ditch available to Ryan & Glendon Hunt

or should they provide their
own ditch? I would appreciate
an answer to this protest.
Thank you.

Sincerely,
Cliff M. Hansen

Idaho Department of Water Resources
Southern District Office

Dear Mr. Dunn:

We, the undersigned shareholders in the Upper McGowan Ditch are filing this letter in protest to the claim for stock water rights of #72-4135, Ryan Hunt and #72-4134 Glendon Hunt amounting to 8cfs's of water.

This water if granted to the above applicants has no place to go except thru his next door neighbors ranch, across the county road and then spills into the Upper McGowan Ditch. The water fills the canal with silt and debris and causes the shareholders excessive cleaning bills in the spring over and above normal ditch maintenance.

The shareholders of this ditch absolutely refuse to accept this water in the ditch.

The above applicants are stockholders in the Challis Irrigation Canal and the waste water could run down it, but the stockholders refuse to let any water run in their canal.

This water runs down the Lone Pine flood plane channel which is susceptible to winter flooding when the weather is abnormal in January. With both the flood water and the waste water spilling into the canal, this causes many adverse conditions.

Sincerely

Undersigned Stockholders
