We tried to assist Mr + Mrs Ivie in filing the claims; however, it appears that the best thing to do is send them a copy of a USGS Quad Map and help them locate their land. Also note request for information in remarks section of one of the claim forms.

Dear Mr. Ivie:

Please find enclosed the claims you recently filed with our office. I am returning both of your claims for the following reasons as we discussed in our May 25, 1982, phone conversation:

- 1) On both claims Item #5 describing the point of diversion must agree with the point of diversion as shown on the map.
- 2) On both claims Item #6 describing the acres irrigated must agree with the acres shown as being irrigated on the map.
- 3) On both claims you indicate that you water 50 sheep, however, under Item #3 you only list irrigation use. You might consider including under Item #3 an amount for stockwater with a period of use of possibly 1/1 to 12/31 if used all year long.

Please correct these items and return your claims to our office. Please find extra forms enclosed if you might need them. If you need help in figuring the proper acreages to complete item #6 you might consider contacting the SCS Office in Challis. In completing the map on the claims you might consider attaching an aerial photo showing the point of diversion, and acres irrigated and all appropriate section corners, etc.

If you have any questions, please feel free to contact me at my office.

Sincerely,

ALLEN D. MERRITT
