The south field in the E₂E₁SW₁ - 13 acres has only been irrigated the last 2 years, but the works were started immediately when the permit was allowed.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Gossi which has a decree from the East Fork of the Salmon River dated by the Court February 14th, 1938. The waters were not applied to this subdivision. Only they were mingled with them when irrigating other adjacent land belonging to my father and mother.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Anna M. Shindurling
Clayton
Idaho

Boise, Idaho

Dear ~~xxx~~ Madam:-

Under the terms of your permit No. 22211 you are required to complete your diversion works on or before June 23, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
