Will this transfer result in an ownership change? _____ Yes _____ No

2. Current Water Right**Part 2 Attached for Each Right**

	Origin/Basis	Rate	Volume	Acre Limit	Total Acres	Source
72-196	WR/Decreed	1.20			38.7	SALMON RIVER
72-197	WR/Decreed	1.20			38.7	SALMON RIVER

3. Purpose of Transfer (Change Proposed)**Part 3A Attached for Each Proposed Right****Part 3B Attached for Each Split Right**

Right	Split	POD	POU	Add POD	Period of Use	Nature of Use
72-196	NO	YES	NO	NO	NO	NO
72-197	NO	YES	NO	NO	NO	NO

Describe the reason for the proposed changes

Consolidate EF10 diversion with EF 11 diversion as part of project to build a more permanent diversion structure, designed by the USBR and will improve fish passage for migrating anadromous fish and bull trout and eliminate annual instream work to maintain the EF 10 diversion structure.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change

NOTICE OF PROPOSED CHANGE TO WATER RIGHTS

Notice is hereby given that two Applications for Transfer have been filed with the Idaho Department of Water Resources for changes to water rights within Custer County: TINA WEEKS, HC 82 BOX 4023; CHALLIS ID 83226 filed Application No. 70565 on February 6, 2003 for diversion of a combined total of 1.50 cfs from Morgan Creek tributary to Salmon River. Application is proposing to change a point of diversion on Morgan Creek. Point of diversion will be moved upstream to a better location for installing a required fish screen. Point of diversion and place of use for irrigation of 50.3 acres are located 11.5 miles north of Challis, Idaho. D. WAYNE &/OR MELODIE L. BAKER, HC 68 BOX 304; CLAYTON ID 83227 filed Application No. 70593 on May 2, 2003 for diversion of a combined total of 2.4 cfs. Transfer proposes changing the point of diversion of irrigation rights 72-196 and 72-197 to another existing diversion point located approximately 0.7 mile upstream on the East Fork of the Salmon River. Currently, the rights are diverted from the East Fork of the Salmon River used for irrigation of 38.7 acres approximately 22.75 miles south and 7.25 miles west of the Highway 75 and 93 intersection just south of Challis. For specific details regarding the application(s), please contact IDWR Southern Regional Office at 208-736-3033 or visit www.idwr.state.id.us with detail provided under "New Water Right Applications". Protests may be submitted based on the criteria of Sec 42-222, Idaho Code. Protests against approval must be filed with IDWR, Southern Region, 1341 Fillmore St.-Suite 200; Twin Falls, ID 83301 with a protest fee of \$25.00 for each application on or before June 16, 2003. The protestant must also send a copy of the protest to the applicant.

RE: Application for **Transfer No. 70593**, Water Right Nos. 72-196 & 72-197

Dear Applicants:

The Department of Water Resources acknowledges receipt of your application. Please refer to the number in all correspondence regarding the above referenced application.

This office has scheduled advertising the application in the **South Idaho Press on 5/29 & 6/5/03**. The advertisement will be published for two weeks, and a period of ten calendar days following the second publication will be allowed for the submittal of protests. **(June 16, 2003)**

If an application is protested, the applicant will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

State Office personnel will conduct a complete review prior to final processing of the application(s) and will notify the applicant regarding the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Mary A. Baldwin
Administrative Assistant

FYI &/or comment:

D. Wayne &/or Melodie Baker has filed Transfer No. 70593 in Basin 72 to change point of diversion on the East Fork, Salmon River.

MEMORANDUM

Date: May 20, 2003
To: Transfer 70593 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Transfer 70593 proposes changing the point of diversion for SRBA decreed rights 72-196 and 72-197 to another existing point of diversion located approximately 0.7 miles upstream on the East Fork of the Salmon River. The transfer is filed in an effort to consolidate diversions from the East Fork of the Salmon River. The transfer should be fairly straightforward, but a couple of minor items should be noted. Rights 72-196 and 72-197 appear to be overlapping rights for the irrigation of 38.7 acres, but were decreed with a condition limiting their combined use to 39 acres. This particular condition should be carried over into the transfer approval. The proposed point of diversion also serves as a possible point of diversion for rights 72-199, 72-200 (both owned by the applicants), and right 72-10534 (IDF&G right for bypass flow for a fish screen). However, note that 72-10534 was decreed in a different section, just across the section line, but remarks on the right clearly indicate that it is for the 72-199 and 72-200 point of diversion. It should also be noted that right 72-10493, another IDF&G right for bypass flow for a fish screen, exists at the current point of diversion for rights 72-196 and 72-197. An April 25, 2003 letter in the file from the IDF&G indicates that if the transfer is accomplished then there will no longer be a need for this right since the point of diversion will no longer be used. The Department may want to follow up with the IDF&G regarding right 72-10493, in order to remove it from the Department's records, or perhaps let the IDF&G know that possibly transferring the right may also be an option.

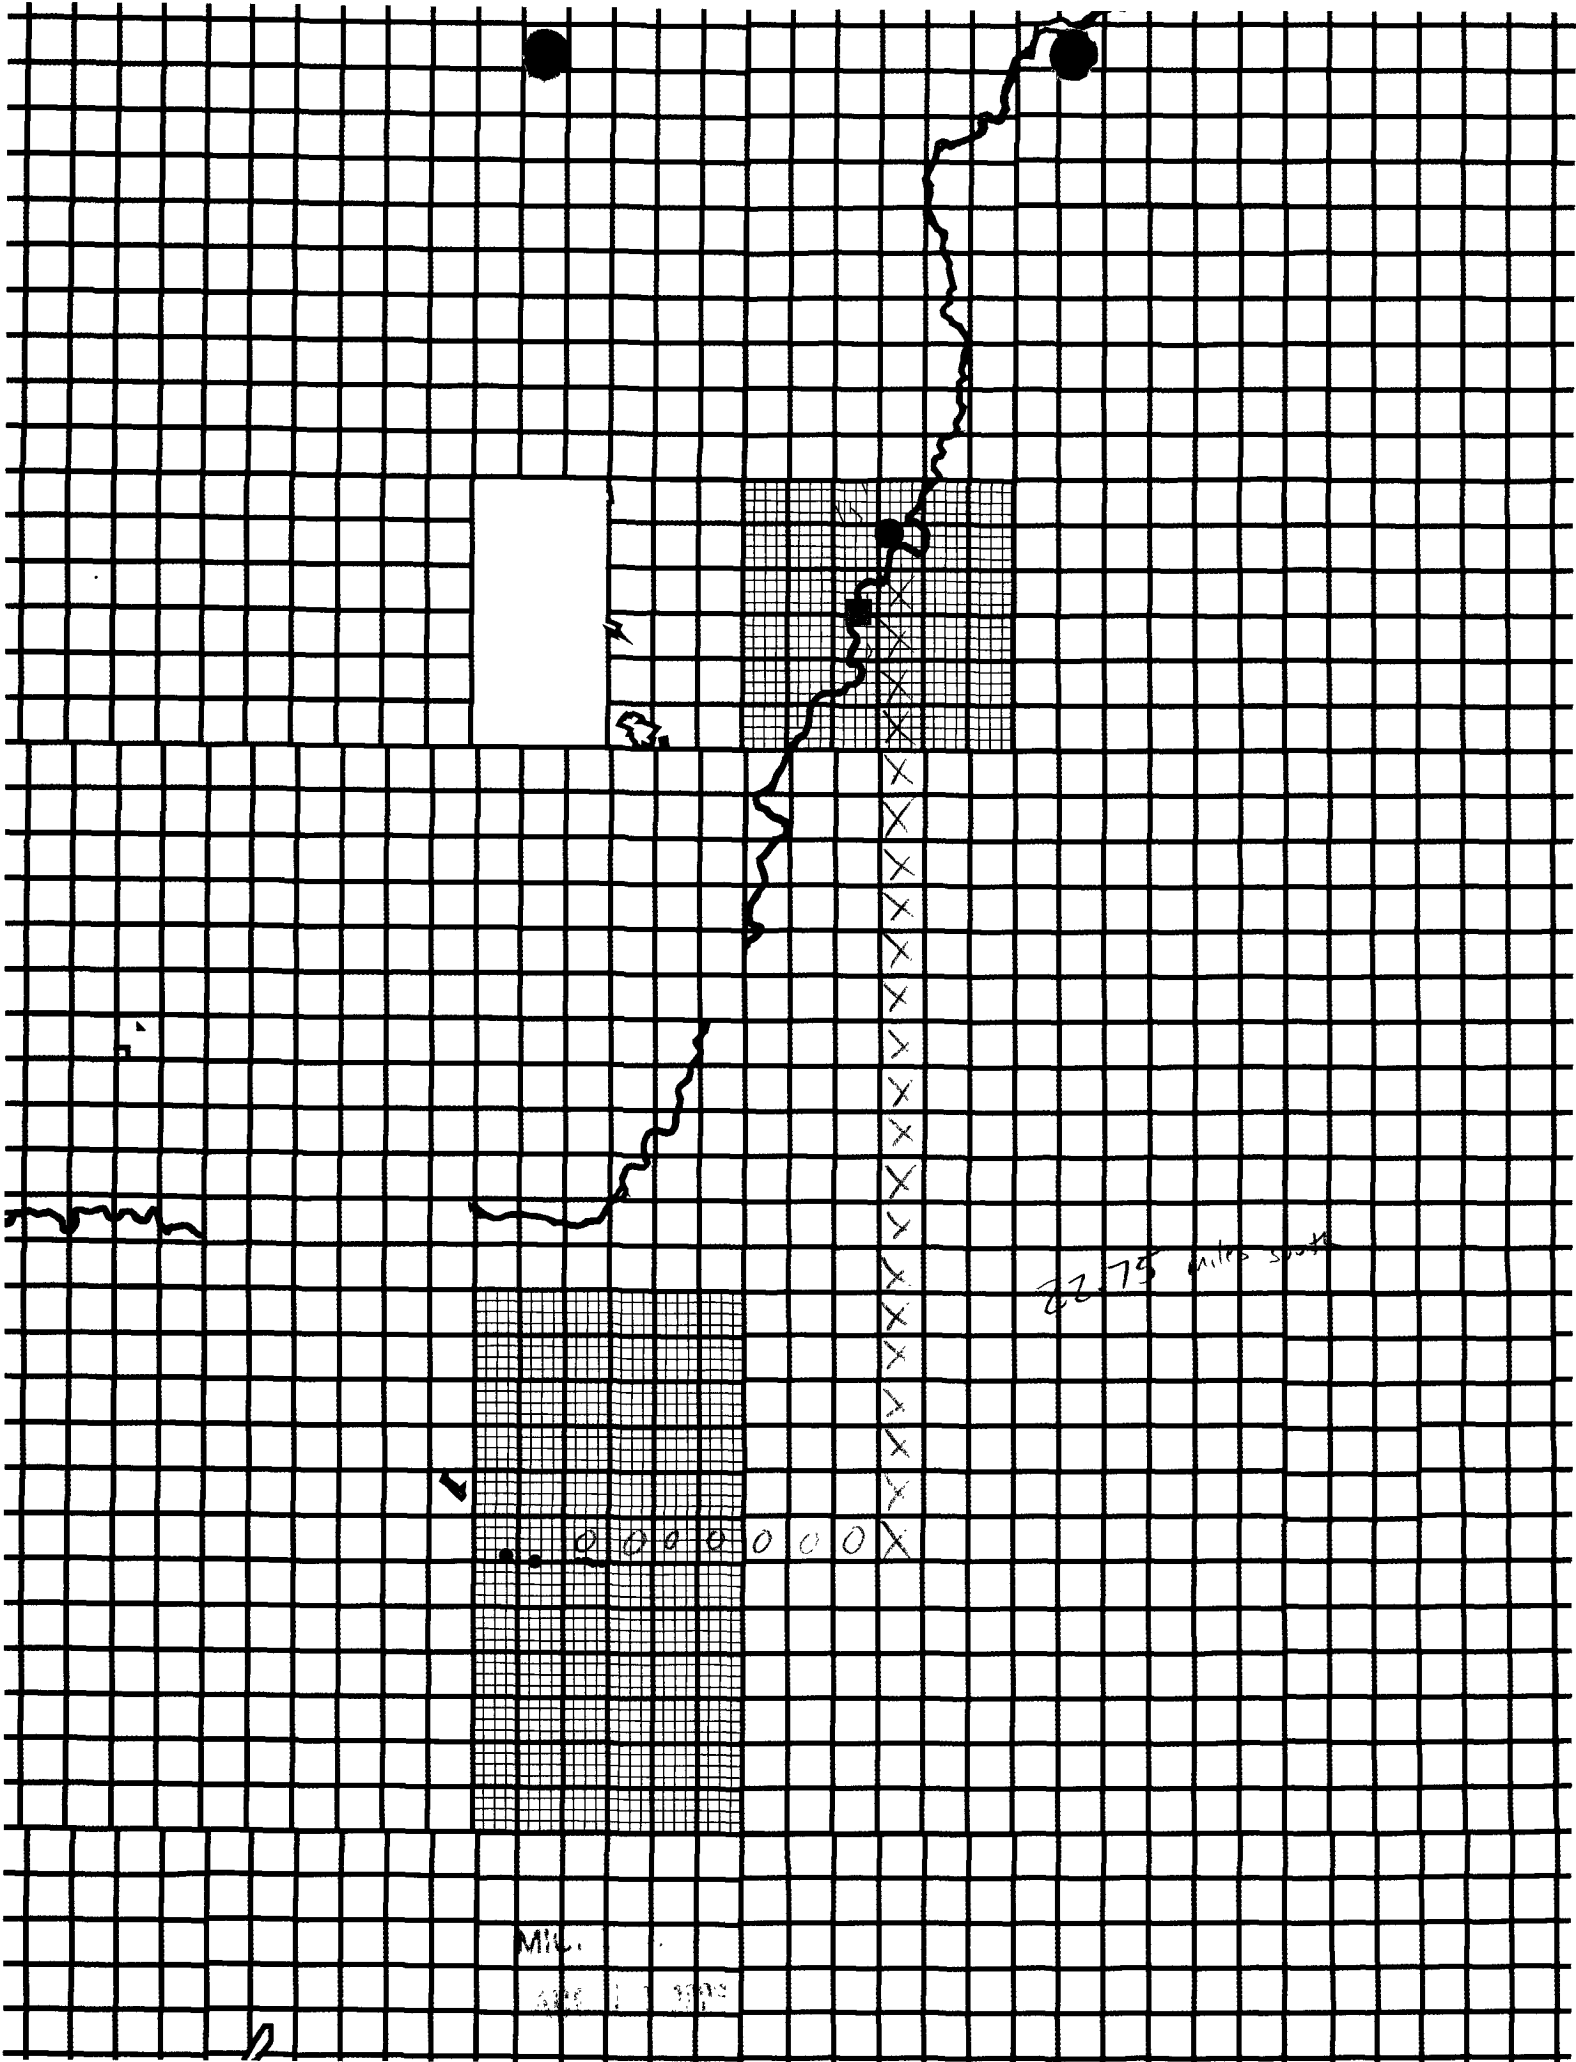

- **Authority to File:**
Applicant listed as owner of rights being transferred on IDWR records and recent SRBA decrees.
- **Water Right Validity:**

Rights have been recently decreed. Forfeiture does not appear to be an issue.
- **Injury to Other Water Rights:**
Transfer proposes transferring right 0.7 mile upstream. Water to be used for original use (irrigation) in same general area as historically used.
- **Enlargement of Use:**
None apparent.
- **Local Public Interest:**
Consolidating points of diversion should be to the benefit of the local fish population and in the local public interest.
- **Beneficial Use/Conservation of Water Resources:**
Consolidating points of diversion should help conserve water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
