CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 3.0 afa per acre for the lands above.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Lawn in front of house (maybe 1/3 of total) appears to be in NE/NE Sec. 9. Mrs. Neustaedter told me by telephone that the land in front of the house is in the highway right-of-way, & is not owned by them. They do water this ground, however, so I am recommending it as part of the P/U a couple of times a year. When I told Mrs. Neustaedter that a licensing amendment would be needed, she said that they would not irrigate the Sec. 9 land in the future from Valley Creek. They might use their domestic well in the future, however. Entire property is about 1 1/4 acres, but most is not irrigable (hillside, bare gravel, home, etc.).

Domestic well is covered by Claim A71-10077. Unknown to what extent well is used to water lawn. Valley Cr. pump is probably main supply, however.

PROOF DUE NOTICE

RE: PERMIT NO. 71-07134

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Application #71-07134

Dear Jim:

Department personnel have reviewed the Neustaedter's application for 0.02 cfs of irrigation water from Valley Creek and have no objections to the issuance of a permit. We would recommend that they screen their intake to prevent fish losses.

Thank you for the opportunity to comment on this matter.

Sincerely,

Herbert A. Pollard, II

Re: Application for Permit No. 71-07134

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Challis Messenger on 1/18 & 1/25/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
