SUPPLEMENT TO THE FILE

TERRY BLAU, IDWR STREAM CHANNEL SPECIALIST, STATED THAT CONSTRUCTION OF THIS PROJECT WAS DONE IN THE EARLY SEVENTIES. TERRY USED TO WORK FOR THE FOREST SERVICE AT THAT TIME AND REMEMBERS THE WORK THAT WAS DONE. HE ALSO THOUGHT THERE WAS A PROPOSAL TO FILL IN THE DITCHES TO CREATE A WETLAND.

VALDON HANCOCK, FOREST SERVICE HYDROLOGIST, REMEMBERS THE PROPOSAL BUT THOUGHT THAT THE PLAN HAD BEEN DUMPED. ROBIN GARWOOD, WILDLIFE SPECIALIST FOR THE SNRA, STATED THE HECLA MINING COMPANY DID FILL IN SOME DITCHES THERE, BUT NOT THE ONES THAT ARE ON THIS PERMIT. THEY LEFT THE OPEN WATER DITCHES ALONE.

USE FOR WATERFOWL HABITAT WAS NOT DONE UNTIL THE EIGHTIES.

E. NARRATIVE/REMARKS/COMMENTS

This permit is for 2.2 cfs for wildlife storage and wildlife from storage. It is surface runoff that feeds Yot Creek that feeds Alturas Lake Creek. There are seven points of diversion. There are ditches that contain culverts with valves. The valves close to allow the ditches to fill. This provides waterfowl habitat. The points of diversion are illustrated on Attachment "A" and the culverts can clearly be seen in the photos.

Construction was done in 1987. Veldon Hancock, hydrologist for the Forest Service, stated that the ditches were in use 1992. I saw them in use on 9/19/96.

The wildlife storage use was proven, but the wildlife from storage was never clarified. The only thing that was shown or mentioned by the Forest Service was that this permit is for waterfowl habitat. This does not change the volume.

The volumes from the eight ditches were calculated and the total was 2.2 cfs. The seven culverts serve as the points of diversions.

Re: Application for Permit No. 71-07122

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 4/19 & 4/26/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
