RE: Amendment of Licensed Water Right No. 71-07092

Dear Mr. Hansen:

I have enclosed a copy of the amended Water Right License issued for right no. 71-07092.

The right was originally licensed in 1990. Since then, additional information collected by IDWR has demonstrated that a portion of the place of use listed on the 1990 license is land actually belonging to the United States. That land, located in the NE $\frac{1}{4}$ of Section 1, Township 9 North, Range 13 East, has been removed from the place of use on your amended license. In addition, further analysis of aerial photography available to IDWR has resulted in a slight redistribution of the place of use in the NW $\frac{1}{4}$ of Section 6, Township 9 North, Range 14 East.

If you have any questions, please contact me at 208-327-7946 in Boise.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

DIRECTIONS TO SUBJECT: / REMARKS:

The claim filed by Mr. Hansen in 1989 was based on the permit which ~~was~~ at that time had not been licensed. In 1990 the license was issued which confirmed use of the water on lands not owned by Mr. Hansen. These lands in the NE 1/4 of Sec 1, T9N, R13E belong to the USFS and are being irrigated in two parts. Additionally with better maps, ect. my field review finds a slight change in the areas being irrigated in Sec 6. I have discussed this matter with Jim Johnson in 2 locations and he is open to have the license amended to conform with this review.

Excess Flow Review and Basis for Diversion Rate
Recommendation for 71-02015, 71-04051 &
71-07092

The above referenced rights are utilized to irrigate a total of 221 acres. These acres are physically located on an upper bench (157 Acres, Soil LA4) and a lower bench (64 Acres, Soil TN1). Based on Mr. Hansen's indicated rotation and utilizing the wild flood analysis method the upper bench could justify 6.26 cfs and the lower bench could justify 7.64 cfs; however, the sources utilized do not appear to be adequate to provide this diversion rate to optimally irrigate these acres.

RECORDED

NOV 15 1995

At the time of the field review in Aug 93 the majority of the water being diverted was coming from Cleveland CK (1.22 cfs). This diversion ditch intercepts Niece CK (It was impossible to measure Niece CK independent but total flow below in ditch was found to be 1.80 cfs) then flows on to Clements property. The 1.80 cfs measured in Aug 93 on to Clements property, was all in one ditch. The other ditch on to the property (Other FK) was dry. From the evidence and analysis

more water is capable of being diverted early in the spring when the water is available. At the time of the F.E. it was estimated that 95% of Cleveland CK was being diverted (5% leakage) and 211 or 100% of Niece CK was being diverted. It is estimated that the FK of the inlet ditch measured could hold approx. 50% more and the ditch dry could hold a like amount if not more. It is est. that the total capacity of the inflow could be in the range of 5 cfs. early in the spring. Lic. 71-02015 was for 3.86 cfs on 193 acres ($1''/\text{acre}$). Claim 71-04051 is for 2.14 cfs on an additional 107 acres ($1''/\text{acre}$). I discussed the possibility of Mr. Hansen claiming more than $1''/\text{acre}$ at the time of the F.E. but he didn't want to since he indicated that he would be satisfied with $1''/\text{acre}$ and indicated it was only during flooding times more is used and generally he has less.

Based on my calculations & observations I recommend that 71-02015 be recommended as licensed for 3.86 cfs on 193 acres and 71-04051 recognized 28 additional acres at a rate of $1''/\text{acre}$ and both of these be combined in a permissible place of use of 221 acres. That 71-07092 be allowed to overlap with no limit as to combined diversion rate (Allow 1.05 on the 63 acres)

Dear Permit Holder:

LAPSE NOTICE License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on October 12, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on August 12, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before December 11, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

MICROFILMED

JUN 26 1990

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.
